NOT A NEW DISEASE

Some of the sneezing and coughing heard around here is basillitis. That's a disease contracted by getting the seat of your pants wet while trying to catch bass.

TAKE ANOTHER LOOK

So the war's over, is it? Well, take a glance at the casualty lists. Read your newspapers or listen to the radio. This is the home stretch—and the going is desperately hard. If the boys doing the fighting had acted as have many war workers and others on the "home front," said, "Well, the war's about over, we've done a good job, let's go home"—then what do you think would have happened?

Wishful thinking never won a war and it won't win this one. Better settle back down, pill the old belt another notch or two and give the boys your full support till this thing really is finished.

BU BEN ALLEN

Clyde Burchett, a friendly cuss, writes from San Francisco sending in a renewal to say, "May our and Printer Goble's tribes increase." Listen, brother-r-r! What you wish for Printer Goble is between you and him, but for me howsa about just letting it go with the wish that my tribe hold its own?

OUCH!

I have always had a profound admiration for that oldtimer, Noah Webster. The old boy knew his words.

Take "lumbago," for instance—you take it, I already have it. Noah defines it simply: "Pain in the back." And can you beat that for a definition, unless you say, "ketch in the couplin's"?

Of course, Mr. Webster could have described the symptoms and the appearance of the sufferer. But all you have to do to gain a picture of the sufferer is to turn to the venerable Doan's illustration headed, "Every picture tells a story," or visualize a near-sighted man trying to sink a 20-foot putt.

SCAT!

Last week we warned the birds about our clean windows and they took the hint. But our neighbors' cat evidently is illiterate or hasn't taken time off from his prowling to improve his mind by reading this column. Saturday afternoon, the catressid feline wandered into the inner precincts of this establishment, suddenly took a notion to go else-

Johns Creek Woman Dies in 83rd Year

Mrs. Jerry Cornett, 82 years old, of German, died Friday at her home, a victim of senility. She is survived by her husband and several children. Funeral rites were conducted Sunday and burial was made in the family cemetery, the Arnold Funeral Home directing.

Dr. J. S. Kelly was dinner guest of Mr. and Mrs. Lonnie Hobson Sunday.

George Patton, well-known Garrett man, died at his home Sunday at the age of 61 after an illness of two years.

A son of the late George and Rose Patton, he was a native of Knott county but had resided on Right Beaver Creek since boyhood and had many relatives and friends in that section of the county.

Surviving are his widow, Mrs. Vina Patton, a daughter, Miss Gillespie Patton, Garrett, and one son, Willoughby, of the navy. He also leaves one sister and three brothers: Mrs. Joe Cobb, Gary, Ind.; Monroe Patton, Alger, O.; Richard Patton, of North Carolina, and John L. Patton, of West Virginia.

Funeral rites were conducted Tuesday afternoon from the Bosco school, the Rev. George Patrick, the Reverend Parsons and the Reverend Lucas officiating. Burial at Bosco was directed by the Ryan Funeral Home.

Hall's Orchard Success Points Way Out of Rut of Corn Furrow

A 10-acre apple orchard on a slope near Weeksbury this drouth year when practically every other hillside crop was a rank failure, will gross its owner, F. P. Hall, Weeksbury attorney, better than \$3,500, County Agent S. L. Isbell estimated this week after visiting the orchard.

The 420 trees this year have produced from 1,500 to 1,800 bushels of choice apples which are selling for an average of \$2.50 a bushel at the orchard or in and around nearby mining towns.

Mr. Isbell found his greatest interest in the orcharding venture of Mr. Hall in the contrast between his income from this 10-acre tract and the income of farmers tilling similar hillside acreage to corn. The sorry story of corn is told, it was pointed out, in the fact that hillside land this year when it produced at all did not yield more than \$36 worth of grain and forage per acre.

"We are growing corn crops," Mr. Isbell commented, "at 10 times the effort in labor per bushel that corn is produced in the neighboring state of Ohio. In this orchard the labor required to produce those apples is no greater than in Ohio or any other state."

At that time—1933—the orchard was planted and it has been producing for the last seven years. And never a failure in those seven years; healthy trees resist frosts and drouths, the production record of the orchard proves. The 420 trees include Ben Davis, Roman Beauty, Winesap, Red and Gold Delicious, Grimes' Golden, York Imperials,

Yellow Transparent and other minor varieties. There are no peaches in the orchard—Hall has found them to be unprofitable; and there are no pears—they threaten other trees with the blight which often affects them.

Mr. Hall plants two-year-old trees which cost an average of \$1.50 each. The tree is carefully pruned when it is planted, and thus the work of pruning for the productive life of the tree, with the exception occasionally of minor trimming, is done.

And you never hear the owner of this orchard boast of the age of his trees or of their productiveness at advanced age. When an individual tree passes its productive peak, it is uprooted and another two-year-old successor is planted.

The heaviest yield for one tree of the orchard this year was 21 bushels which were snapped up at \$2 a bushel. Moreover, Mr. Isbell points out, this is one crop from which Mr. Hall does not fear competition from neighboring states.

Virginia apples are good—but the folks around Weeksbury know Floyd county apples are equally good, and a lot nearer home.

Baptist Minister Dies On Left Beaver Creek; Is Buried on Mud Creek

The Rev. Andy Jones, a Primitive Baptist minister in this county for 25 years, died Friday at his home on Frasure's Creek, a victim of Bright's disease after an illness of four months. He was 63 years old.

The minister was a son of the late Mr. and Mrs. Ambrose Jones and was a native of Pike county. He is survived by his widow, Mrs. Eliza Jones, five sons and three daughters, Adrian, Matt, Earl, David and Robert Jones, Mrs. Angalee Tackett, Mrs. N. Gearheart and Miss May Jones.

Funeral rites were conducted Sunday from the home of Matt Jones at Grethel, the Revs. Dick Moore, T. M. Mounts, E. S. Stephens and Charlie Compton officiating. Burial in the family cemetery was under direction of the Ryan Funeral Home.

AIR VETERAN DIES IN CRASH

Lieut. Lester Long, 27, Native of This County, Killed at Texas Field

After riding out 50 perilous bombing missions in the Mediterranean theater of war as a bombardier, Lt. Lester Long, 27 years old, formerly of Martin, was killed Monday in the crash of a bomber training plane on which he was an instructor.

Two others were killed in the crash which took place at the Midlands, Texas air field. Particulars of the tragedy are lacking here.

Lt. Long, a son of Forrest G. Long, of Martin, returned to the United States last November after long service from North African bases and was later sent to the Texas base as an instructor. Shortly after his return to this country, he was married to Miss Amelia Gerrace, of New York, who survives. Also surviving are his father, his step-mother, four half-brothers and a half-sister.

A graduate of Martin high school, Lt. Long had completed two years' study at Pikeville College. He was well-known and was one of the section's finest young men.

The body is expected to arrive Friday at Pikeville where it will be taken to the home of his aunt, Mrs. Ernest Cheek, and Mr. Cheek with whom he resided seven years preceding his enlistment in the air corps. From there it will be taken to Morgan county, the former residence of the victim's father, for burial at Salem.

Tenant, Blind, Alone, Assisted in Escaping Fire Here Thursday

Fire shortly before noon today (Thursday) almost completely destroyed a residence on Graham street owned by the J.C.B. Auxier estate and with it were lost all the household belongings of its tenant, B. F. Stamper, a blind man.

Mr. Stamper suffered a head injury in escaping from the building. Once outside, he lost his sense of direction and was prevented by a neighbor, Mrs. J. T. Williams, from returning inside the flaming building.

He said the fire started when a gas hose became disconnected as he attempted to turn out a fire. Mr. Stamper was alone when the fire started.

The structure, an old building of two stories, is considered a total loss. It is not known if the loss is covered by insurance.

Mayor Says Transaction Supplies Funds to Pay All Outstanding Debts

The city of Prestonsburg's \$65,000 worth of funding bonds voted to complete a financing plan for settlement of the town's entire outstanding indebtedness, were sold at Monday evening's meeting of the City Council to D. P. Newell, Maysville, Ky., at par.

Actual transfer of the bonds was made today (Thursday).

The financing plan thus consummated settles, it was said, a total indebtedness of \$140,000 for \$90,000. "Today enough money was placed in the treasury of the city to pay every warrant and judgment outstanding against Prestonsburg," Mayor E. P. Arnold declared. "In addition to settling the debt and removing the threat of federal court action by judgment holders, the town has reduced its interest rate from the 6 per cent it was paying on the old indebtedness to the 3 1/2 per cent which the bonds bear."

Mr. Newell was the only bidder for the bonds.

A Way out of the Rut

A COMPANION-PIECE to this newspaper's recent story of a Floyd county farmer's success in growing alfalfa is the Page One story this week telling of F. P. Hall's experiences at Weeksbury as an apple-grower.

These stories are published to point to our farmers a way out of the rut—the corn furrow—they have too long followed, to the detriment of the soil and with little profit to themselves.

Frank Hall's experience as an orchardist is not set down here as the record of a bumper crop year. The story is of growing apples on a Floyd county hillside during a year when corn shriveled,

almost died, under the burning sun of a long and devastating drouth.

Mr. Hall's net profit on his apple orchard covering ten acres of a once-denuded Left Beaver Creek slope may exceed for this drouth year \$3,000, or \$300 an acre. The same type of land this year has not yielded better than eighteen bushels of corn to the acre, and if the entire corn crop from ten acres of hillside land were sold it could not be expected to accrue to the farmer who "sweated it out" more than \$360—less than a dollar a day for the year.

Those are some of the figures that may be drawn. Add to these the pleasant years of profit-taking from long-range planning for farm life, add that major item, the conservation of the soil—and you have in this orchard venture a clear-cut picture of the need for Floyd county farmers to renounce their allegiance to King Corn.

But this is not to imply that the planting of an orchard is a guarantee of success on the farm. Only those who are willing to make a study of horticulture, to plan scientifically for a productive orchard and to work toward that end should undertake it. Those who cannot or will not do this might fare better never to undertake any but the most rudimentary phases of farming. As in every field of endeavor, there is no magic "Open Sesame" to success.

Wheelwright Soldier Commended in Italy

WITH THE FIFTH ARMY, ITALY—Private Leon E. Porter, of Wheelwright, Ky., has been commended for exceptionally meritorious conduct while serving with the 34th "Red Bull" Division of the Fifth Army front in Italy.

With his battalion's advance being held up by a very hard enemy artillery fire, Porter exposed himself to the enemy fire and strung communication wire to a forward observation post. With communication thus re-established, counter-battery fire was brought to bear on enemy guns, knocking them out and enabling the American advance to continue.

"Private Porter's courageous action reflects credit on himself and the armed forces of the United States," the citation said.

Pvt. John H. Hatcher, nephew of Mr. and Mrs. J. J. Hatcher, Prestonsburg, recently completed an intensive course in radio-operator-mechanics at the technical school, army air forces training command, Sioux Falls, South Dakota.

Along with his diploma, he received his aerial gunner's silver "Wings" and a promotion in grade at brief graduation exercises. He was prepared for his place in America's stepped-up air offensive by a comprehensive six weeks course in every phase of aerial gunnery warfare. Besides learning to fire every type weapon from camera guns to the deadly caliber .50 Brownings, he studied turret manipulation, aircraft identification, stripping and reassembling of machine guns while blindfolded. He climaxed the course by air firing on towed targets.

THE OLD JUDGE SAYS...

 "The war stories I like best, Judge, are the ones by the special writers overseas who live right with our troops. They give us a better idea of how our men react to things going on over there and back here at home."
 "I agree with you, Sam. I never miss one of those stories in the papers or magazines. And there's one thing those writers seem to agree on no matter where they are stationed with our men...and that is that the men who have left their homes and families to go away and fight this war don't want to come back and find that prohibition has been put over on them while they were away...either nationally or locally. They have heard about the attempts being made and they resent it bitterly."
 "I agree with them, Judge, even though I don't happen to drink myself. Furthermore, I don't think it's fair for us at home to be making any major changes while 10,000,000 of our fighting men are away and have no chance to express their opinions."

THE WEEK IN OPA

New Shoe Stamp Due Nov. 1

Another shoe ration stamp will become valid November 1, the OPA has announced. In addition, both of the current shoe coupons—Airplane Stamps 1 and 2 in Ration Book Three—will overlap the new stamp and will continue to be good indefinitely.

Decision as to which new stamp will be used for shoes has not yet been reached, OPA said.

"B-3" and "C-3" Coupons To Expire

"B-3" and "C-3" gasoline ration coupons became invalid for motorists after September 30, the OPA announced last week.

At the same time "T" coupons marked "3rd quarter" expired for commercial motor vehicle operators.

Filling station operators will have 10 days, or through October 10, to turn them in to their supplier for gasoline or exchange them at their local War Price and Rationing Board for ration checks. Distributors have until October 20 to deposit these coupons in their ration bank account.

Holders of invalidated "B-3" and "C-3" coupons which were issued for use beyond September 30 may exchange them for valid coupons at their local board.

The board may either issue new coupons equal to the amount of gasoline still outstanding on the old ration, or may evaluate the applicant's mileage needs and issue coupons sufficient for the remainder of the ration period, but not in excess of the coupons surrendered.

Price Posting Requirements

New requirements to be met by retail food stores in multiple, visible posting of dollar-and-cent ceiling price lists for dry groceries and such other foods as butter, eggs, poultry, fish and fresh fruits and vegetables were established this week by OPA.

Effective Oct. 4, these requirements are part of the order that pro-

vides authority for OPA district offices to fix community ceiling prices.

In brief, the new requirements are:

1. One copy of the dry groceries community ceiling list is to be posted for each 1,500 square feet or part thereof of selling space.

2. If more than one copy of the dry groceries list is required, they are to be posted at least 25 feet apart.

3. One copy of each community ceiling list for such foods as eggs, poultry and fresh fruits and vegetables is to be posted at or near the place in the store where the item is offered for sale.

Each list is to be posted so that it can be read easily and so that customers can approach within two feet of the list.

SHIKE'S POKES

(The views expressed herein are those of the writer and not necessarily those of this newspaper.—Editor.)

Hank Arrowood from Johnson county telling in the Courier-Journal how much the G.O.P. thinks of Mrs. Willis—well, they'd better like her. Isn't she the power behind the throne? If they didn't take up for her, they might get fired.

I wish to correct an error made in telling about Walter Hornsby whitewashing his tomatoes and selling them for aspirins. Mrs. Hornsby advises that the tomatoes were as large as dimes—so he'll have to sell them as vitamin tablets. That's a new kind of corn that Walter was raising—you have to dig the ears. And Mrs. Hornsby also advises that I was wrong about the corn. One stalk is three feet high.

Dick Auger will make a brilliant old man—he's half that way now.

Tavis Flannery, Martin's policeman, takes care of his rear tires—he parks his car with no weight on them.

I still say these Left Beaver traders are the best in the world. During the association last weekend—Clarence Turner swapped a "diedapper" for a mule. I don't know what happened to the mule, but he sold the bride for cash.

Those fall beans that Martin Hunter raised not only tore down the garden fence, but I think they damaged the porch posts.

The next time I'm over to Betsy Layne I intend to ask Erit B's Secretary of War just why he always wears that old brown hat. He's always bragging to us about why he wears it.

"Hatch" and "Os" will have to keep their "better halves" in a good humor now, so they will make them soup and gravy since they have lost all their teeth.

tion and a short time later the situation was well in hand."

Both men are now identified as member of the famous Merrill's Marauders who won the coveted Presidential Citation for their exploits behind Jap lines in northern Burma. Sexton and Turner hold the Combat Infantry Badge for "exemplary conduct in combat."

They participated in the 700-mile march to Myitkya, former Jap stronghold and are authorized a Bronze campaign star.

At one point a platoon, with Turner as radioman, scouted out a Jap artillery piece that had been pounding the Marauders for hours. Crawling up so close they could hear the shells being loaded and the breech closed, the platoon by radio, directed mortar fire that neutralized the gun.

Joining the army in November, 1942, Turner spent the next two years in Panama and then volunteered for the famous Marauders unit.

Sexton joined the army in July, 1940 and spent 16 months in Hawaii. Both Turner and Sexton have been in the China-Burma-India war area for the last 11 months.

Mr. and Mrs. V. F. Strahan and Mrs. S. B. Simmonds spent Friday in Pikeville.

Mrs. V. F. Strahan and Mrs. S. B. Simmonds, of Shepherdsville, were guests of Mrs. Fred Cottrell Thursday evening.

TO THE PEOPLE OF PRESTONSBURG:

This hour, this moment, I am under the anointing of the High Power. I have this work to do. I am desirous to write to this town, to these people which I always did love. I was shown by the High Power to come to this town to preach the word of God. After arriving, I found the evil spirit was prosecuting God's children. I was shown to pass on through the city. After passing the city up, I prayed for the Lord to turn me back. The Lord gave me the mind and heart to write this and have it published in the paper. Here I have friends and relatives. They want to hear me speak, but I cannot get the word to them for the enemy pressing me out. There is a number of souls who are going to be lost in this town, hungry to hear the word of God. We cannot get the word to them for the professors that are fighting the real children of God.

So I will close at this time. Your best loving friend, A. D. MONTGOMERY (Who would be a citizen of this neighborhood.) (Adv.)

AUXIER BATS CURTAIN DOWN ON SEASON

Sunday's Season-End Sees Prestonsburg Team Lose by 15 to 3 Score

The baseball curtain wasn't rung down here Sunday—Auxier batted it down.

Outside of the score, 15 to 3, and the fact that Prestonsburg's fielding was even worse than usual, there remains to be related only one more highlight of the game. That was the retirement from retirement of Alex Davidson, who stalked to the plate in the ninth with two men out. It was the season's swan-song here, Davidson slashed a hit past third, took off for first—and made an unswanlike dive into the dirt, en route. While he was being brought from the horizontal to the vertical, the Auxier leftfielder was casually throwing him out at first.

Prestonsburg used various pitchers, including Bradley, Branham, Clifton and Patton. All received miserable support, all except Clifton who pitched only long enough to floor an Auxier batter with a wild heave. Young Hopson twirled effectively for Auxier till relieved by "Yankee" Wells in the seventh.

At Jenkins Sunday Drift defeated the Letcher county team, 9 to 0, behind the one-hit twirling of Kit Stumbo. The Drift righthander, whose previous mound appearance was a two-hit performance against Weeksburg, permitted the lone hit off his delivery in the sixth and fanned 11.

Jenkins, admittedly "loading for bear," will be at Drift Sunday afternoon for a return engagement.

At Tram the colored team shut out Harold, 1-0, behind young Hinchman's pitching. In the second game of the afternoon Harold Conn twirled steady ball to beat the colored team, 3-2.

Experienced Seamen Urgently Needed

An appeal to all available experienced seamen now holding shore jobs to register for work on ocean vessels carrying cargo to the fighting fronts was issued by C. W. Salting, manager of the Pikeville office of the War Manpower Commission's United States Employment Service. "The need for experienced seamen is critical," he said. "Five thousand licensed and non-licensed seamen are needed immediately. The WMC and the Recruitment and Manning Organization of the War Shipping Administration are conducting a joint campaign to obtain the needed personnel. Qualified men, available under WMC's stabilization plan, are urged to go to the nearest office of the United States Employment Service for referral.

"With hundreds of American merchant ships active in the European and South Pacific theatres of war, experienced crews must be recruited to man the cargo vessels embarking daily from east, west and Gulf coast ports."

Crews sought for immediate assignment to ocean-going vessels are motor, engineers, radio-telegraphers, able-bodied seamen, firemen, oilers, water tenders and cooks. Former navy men, not now working at their highest skill in war production, also are sought.

They Buildded Better Than They Knew

With the help of the neighbors, many a little red schoolhouse was built. That readiness to help the folks down the road and the family across the square was the strength of our early America, the foundation for our democracy. Because of it, we have a greater heritage to defend than any other people on Earth.

In these wartime days, the spirit of neighborliness so characteristic of our people is again paying dividends. Did

you ever dream ten years ago that today you would pull up to the curb and offer a ride to a stranger? That you would have a bundle of salvaged paper ready when the Boy Scouts called? That you would walk home with awkward packages because your dealers have difficulty making deliveries? When you aid your neighbor, you aid your country. Isn't it surprising how many things one person can do to help win the war?

MAN-ABOUT-TOWN ON THE AIR PETE FRENCH . . . WHAS' announcer, sports reporter, vocalist and dramatic actor, is a favorite airborne artist. Television need hold no terrors for him. Pete's as easy on the eye as he is enchanting to the ear. Young, dark and handsome, wearing casual sports clothes and reflectively carrying a pipe, he glides smoothly into schedules. pinch hitting for others as easily as he handles his own. Teamed with winsome Kitty Stewart at 5:30 daily, dramatizing listener's good luck stories, singing request songs, he'll MC a War Bond Show, plug for a newscaster, do commercials. The man with these cornerstone characteristics has been with us less than two years . . . hailing from Indianapolis where he attended Tech. High and Butler University. Pete rolled up a nice athletic record in school until he sustained a gridiron injury to his knee, which later caused the army to reject him. French came to WHAS as an announcer, and it was only by chance that we learned about his voice and other musical abilities. He had been a radio entertainer before joining us. After a day on the air Pete relaxes by testing gas model airplanes which he designs, and he's doing research on radio control work that you'll hear more about later. They say you can't keep a good man down, and Pete French consistently takes to the air both at work and at play.
