SPEAKING OF AND FOR FLOYD COUNTY

THURSDAY, JULY 28, 1966

This Town . . . That World

The election is history. Now, let's all get down to the business of being the good citizens we profess to be. That includes putting away our grudges.

JUST FOR THE RECORD

We were, and are, dry. We said so editorially on at least three occasions. And yet, when we printed for the Wet forces—just as we have printed over the years campaign literature, pro and con—what they termed the "Floyd County Election Extra," many interpreted that piece of campaign literature as an expression of our own views.

This is much like warming over the toast, since I have said it in other words by radio till listeners grew tired of hearing it, but for the printed record let me set it down here that I wrote not a line of that "extra," and printed it only because we have always followed the policy of serving both sides, as printers, when called upon to do so.

DRESSED FOR IT

Lana, small daughter of Mr. and Mrs. James E. Goble, boldly announced, Wednesday morning, that she was going to vote wet. "Got my bathing suit on, haven't I?" she added.

HM-M . . .

The other afternoon, while I was backing the car onto the street here at the office, James Carter approached in an ambulance. I stopped, but he did likewise and motioned for me to move on out. A boy in the neighborhood saw the proceedings and asked his dad, "Is he such a bad driver that they have an ambulance standing by?"

THE ANSWER

Remember the puzzle printed in this column, a couple of weeks back, about the three men who paid \$15 for a hotel room, the refund of \$5 sent them by the bellhop who kept \$2 and gave each of the men \$1 and what became of the other dollar? Well, the answer offers this solution which, I have decided after much brow-wrinkling, must be right:

"The \$12 the men paid for the room includes the \$2 the bellhop kept. That leaves \$3 to be accounted for, and it is in the men's pockets."

GOVERNOR TO SPEAK AT TONIGHT'S MEET

Governor Edward T. Breathitt announced at Frankfort Tuesday a meeting here which he described as designed to help local governments of Eastern Kentucky to take fuller advantage of state-federal programs.

The meeting has been scheduled tonight (Thursday) at the Prestonsburg Community College, and the Governor will attend it. He will meet with members of the Big Sandy Area Development Council and city and county officials of the area which includes Floyd, Lawrence, Martin, Johnson, Magoffin and Pike counties.

Also urged to attend the 6:30 p.m. meeting are area representatives of other federal and state programs and all interested citizens.

"In order to take the maximum advantage of the many new federal and federal-state programs," Breathitt said, "it is essential that we establish

COUNTY'S JAN COLLINS VIES FOR "MISS KENTUCKY" TITLE; PAGEANT TO BE SEEN VIA TV

Kentucky's representative in the 1967 Miss America competition will be chosen in a preliminary contest billed as "the Miss Kentucky Pageant," Saturday, and a majority of Kentuckians will be able to watch her selection via television.

Miss Jan Collins, daughter of Mr. and Mrs. Elmer Collins, of Prestonsburg, will represent Floyd county in the pageant.

Miss Collins, who is sponsored by the Prestonsburg Junior Woman's Club, left Wednesday for Louisville. She was sponsored by the Prestonsburg Jaycees in the "Miss Floyd County Scholarship Pageant" staged by the Junior Woman's Club.

CITY, COUNTY PROVE INTEREST IN PLANT

CROWD JAMS COURTHOUSE AT MEETING

Four Sites for Plant Inspected by Officials; Decision Expected Soon

If local interest and an adequate labor supply will be, as was said last week, the main factors considered by a major shoe company in deciding if a plant location is to be made here, the Prestonsburg vicinity will get it.

For a crowd estimated at 2,000 persons jammed the courthouse, upstairs and down, Monday afternoon in response to a call by the Prestonsburg Chamber of Commerce for potential workers and for a display of community interest.

Both the county and circuit courtrooms were used to register workers and for interviews with them by company representatives.

The president of the company and other ranking officials of the firm met that evening at a dinner at May Lodge with city and county officials, community leaders and representatives of the Kentucky Department of Commerce.

Next day, they visited four prospective sites with Mayor George P. Archer, Earl D. Ousley and Ed Music. It later was said either of the four sites was considered acceptable.

No commitment was made by company officials, but the head of the firm told Mayor Archer and others they would be "heard" (See Story No. 4, Page 8)

Elks' X-Ray Trailer Scheduled at Wayland

The chest X-ray trailer, donated by the Elk Lodges of Kentucky, will be at the company store at Wayland, August 4, from 10 a.m. to 12 noon and from 1 to 3 p.m.

All who are 20 years of age or over should have a chest X-ray every year, the Floyd County Health Department points out.

Dr. R. L. Hall, health officer, is urging all teachers and food-handlers, as well as known contacts of active tuberculosis cases, to have this service performed.

Those who have had an X-ray made in the past, and have received a letter requesting that a larger picture be made, should take this letter with them and present it to the technician on duty at the trailer.

TO INITIATE TECH COURSE

Mining Leaders Named To Committee To Help New College Program

Prestonsburg Community College will begin this fall a two-year program in Mining Technology that can either terminate in an Associate of Science degree or transfer to a four-year mining technology college.

Dr. Henry A. Campbell, Jr., director of the college, announced the appointment of a special committee by the Prestonsburg Community College Advisory Board to develop and coordinate this program with private industry. This committee is composed of David Zegeer, Bethlehem Elkhorn Mines, Jenkins; George E. Evans, Evans Elkhorn Division of the Island Creek Coal Co., Wheelwright; Frank Heinze, Turner Elkhorn Coal Co., Drift; Clark Todd, Princess Elkhorn Coal Co., David, and C. H. Brown, Republic Steel Corporation, Elkhorn City.

A limited number of \$350 scholarships are available for the academic year 1966-67. A cooperative program will be established whereby the students will work with one of the mining companies during the summer months as an intern. The college also plans to work with the companies in assisting students who participate in the program to locate jobs.

Interested students should inquire (See Story No. 2, Page 8)

OWENS DIES AFTER CRASH

Son of Schools Leader Victim Tuesday in Pike As Auto Leaves Road

Larry James Owens, 20 years old, of Bevinville, was instantly killed early Tuesday morning when his auto left Rt. 23 near Robinson Creek, Pike county, and plunged over an embankment into a culvert. Traveling alone, young Owens was on his way to work at Pikeville where he was employed as a rodmán by the Whitt Engineering Firm.

Chest injuries, caused by the steering wheel, were given as the cause of death.

It was surmised that he may have fallen asleep while driving. He was a son of Marcus Owens, Sr., superintendent of the Floyd county board of education, and Mrs. Inez Reedy Owens.

Also surviving are his wife, Mrs. Marie Bryant Owens, and a brother, Marcus Owens, Jr., of East Point.

Funeral rites were held today (Thursday) at 10 a.m. at the residence at Clear Creek, ministers of the Regular Baptist Church officiating. Burial was made in the family cemetery at Clear Creek under the direction of J. W. Call Funeral Home.

ARE WE INTERESTED? This was the scene in one of the crowded courtrooms here Monday afternoon when public support of a major factory installation was evinced by the presence of upwards of 2,000 persons.

AND THE PARKING LOT WAS FULL . . . as hundreds gathered at the courthouse to apply for plant jobs and show interest in development.

FEDERAL JUDGE HITS AIRPORT SITE FIGURE

U. S. District Judge Bernard G. Moynahan last Wednesday in a memorandum opinion gave the Williams heirs, owners of land on which the Prestonsburg-Pointsville Airport Board located Combs Airport, 30 days in which to accept the \$15,000 granted them by a lower court jury in the first trial of the condemnation case or to go back for a fourth trial.

The \$15,000 price tag on the property, consisting of about 15 acres, was first set by a Johnson circuit court jury in a condemnation proceeding.

In the first retrial of the case at Pikeville, a jury awarded the landowners \$52,300. The second retrial gave them \$63,500.

Judge Moynahan called the awards "grossly excessive, by any set of standards." He added:

"To allow the awards to stand would be tantamount to sanctioning a raid on the public treasury."

His action was entered on three tracts of land condemned for the airport four years ago. Of 32.2 acres in the site, 14.5 were taken for the airport, which is located in historic Blockhouse Bottom, on U.S. 23.

Moynahan wrote:

"The excessiveness of the amount of the award is pointed up by the fact that

on Jan. 28, 1963, the landowners in their original written exceptions claimed \$7,000 for tract 1, \$20,000 for tract 2, and \$7,500 for tract 3. The awards actually made by the jury were almost twice that originally claimed by the landowners."

Similar circumstances exist in a larger award given for a second set of lands taken for the airport. A Johnson circuit jury awarded \$258,835 for 81.7 acres last July. Condemnation appraisal had been \$25,000.

In this latter action five parcels of land owned by the Anna Auxier heirs, Polk Auxier, John B. Auxier and Henry Burke are involved. The case will go to the Court of Appeals for a decision.

Band Concert This Evening To Honor Governor on Visit Here For Industrial Meeting

A special concert in honor of Governor Edward T. Breathitt will be given Thursday evening, July 28, at 5:30 p.m. in the Commons Room of Prestonsburg Community College. The concert will be given by members of a band formed under the auspices of the High School Cultural Enrichment Program that is currently under way at the college.

MARGIN NARROWEST IN WET-DRY VOTE

Woman's Acquittal On Rum Count Said First Since Jan. 1

When Mrs. Clara Allen Robinson, of Garrett, was acquitted Monday at conclusion of her trial here on a liquor possession charge she became, it was said, the first person to escape conviction on a liquor count in quarterly court since last January 1.

ADAMS WINS ROAD JOBS

To Surface Two Routes; Buck's Branch Work To Be Started Soon

Contracts for 5,316 miles of bituminous surfacing in this county has been awarded by the Highway Department, and grade and drain work has been approved on another road.

The Branham's Creek road will be surfaced from 1.5 miles southeast of Ky. 114 to the Branham's Creek School, a distance of 4.55 miles; and the Bonanza-Lick Fork (Ky. 1750) road will be surfaced from 2.7 miles northeast of Ky. 1427 to the Johnson county line, a distance of .776 mile. Adams Construction Corporation, Pikeville, submitted the low bid of \$49,984.60.

The grade and drain project is the Buck's Branch road which is a part of the Martin-Spurlock Fork route. The road will provide a link for the Right and Left Beaver sections of the county with the Mountain Parkway.

Force account work is being done on the Spurlock sector of the road. Blacktopping of the entire route is a possibility next year, State Representative W. J. Reynolds said.

2-DAY MEET SLATED HERE

Breathitt and Others Scheduled As Speakers At Meeting of Officials

Governor Edward T. Breathitt will address the Kentucky Magistrates and Commissioners Association at the courthouse here at 2 p.m. Friday, second day of the association's 1966 annual convention.

First session of the convention will be held at May Lodge, Jenny Wiley State Park, where registration will be held Thursday and the association board of directors will meet at 6 p.m. Upwards of 150 officials are expected to come here for the convention.

The entire Friday program will be at the courthouse and convene at 10 a.m. Lambert Hehl, Campbell county commissioner, and association president, will preside. Circuit Judge Hollie Conley will welcome the officials to Floyd county and Prestonsburg. In addition to Governor Breathitt, speakers will include Henry Sandusky, di- (See Story No. 6, Page 8)

11,035 VOTES ARE POLLED IN ELECTION

Districts 1 and 2 Cast Dry Majorities; Trend Reversed in 3 and 4

Floyd county voted Wednesday to remain dry territory, but the dry margin was the slimmest ever recorded in a local option election in this county.

The Drys' victory margin was 85 votes. They recorded a total of 5,560 votes in the county's 41 precincts to 5,475 for the Wets.

The 11,035-vote total climaxed an election campaign that was as torrid as the weather. Interest in the election was most graphically exemplified at Richmond precinct here where two persons voted after having been transported to the polling place by ambulance.

As the vote tabulation at the courthouse progressed, precincts in No. 1 and No. 2 magisterial districts predominated the count, and the Dry majority ranged beyond the 1,000-vote mark. Every precinct in District 1, except Auxier, gave Dry majorities, and only two in District 2—Wayland and Beech Grove—went into the Wet column.

But the story in Districts 3 and 4 was a complete reversal of this trend. In No. 3 only New Martin polled a Dry majority, and the Wet forces carried every No. 4 precinct except Mouth of Mud and Betsy Layne.

A Wet adherent predicted this morning (Thursday) that a check of the voting machines will be made. He added that he had heard discussed the possibility of a legal attack on the outcome of the election.

For all the interest in the issue at stake, the voting was carried out in orderly fashion. Sheriff Joe Wheeler Lewis said a check by state and county officers during election day at practically every precinct failed to find even one drunk around the polling places. (See Story No. 1, Page 8)

CLUB CITED FOR SERVICE

Floyd Fish-Game Club Is Presented Award; Dewey Club Recognized

The Floyd County Fish & Game Club was awarded the Membership Achievement Citation for 1966 at the recent convention of the League of Kentucky Sportsmen in Louisville.

At the same time the younger Dewey Lake Fish & Game Association was accorded recognition from the floor for its work in the first few months of its existence. The club was not eligible for a formal citation because of the short time it had functioned.

The Floyd County Fish & Game Club award, which was received on behalf of the club by Dr. C. L. Allen, of Martin, a former League director, was made "for displaying significant enthusiasm and community leadership in the enlistment of landowners as well as sportsmen in stimulating widespread support of the wise use and management of fish and wildlife resources." Arnold Workman, president of the award-winning club, listed this week some of the work done by the club this year:

Heart Attack Is Fatal To Perry Hall, Age 58, Monday at Auxier Home

A heart attack suffered while mowing his lawn at Auxier was given as the cause of the death, Monday evening, of Perry Hall, 58, shot foreman for the Princess Elkhorn Coal Company, David.

Mr. Hall was the son of William Riley Hall and the late Melva Louella Burchett Hall, and was the husband of Mrs. Dorothy Hall.

Surviving, besides his father and widow, are three sons, Billy Perry Hall, Romulus, Michigan; Thurman Dalton Hall, Middleport, Ohio; and Tommy Hall, Xenia, Ohio; one daughter, Mrs. Melva Belle Cline, Sabina, Ohio; two step-daughters, Mrs. Betty Puckett, Prestonsburg, and Mrs. Doris Wallen, Wayne, Michigan; five sisters, Mrs. Lucy Patton and Mrs. Flossie McGuire, both of Auxier, Mrs. Geneva Perry, Detroit, Michigan, Mrs. Louella Buskirk and Mrs. Euna Buskirk, both of Inez, and one half-brother, Albert Lee Hall, of Brunswick, Ohio.

The funeral was held today (Thursday) at 1 p.m. at the Auxier Methodist Church, the Rev. Moses Kitchen officiating. Burial was made in the Government Relocation cemetery on Auxier road under the direction of Carter & Callihan Funeral Home.

SPORTS AFIELD
 By TED KESTING

A spectacular conservation feat has been achieved across the top quarter of the nation. To the American sportsmen it is comparable in importance only to the introduction of the Chinese pheasant 30 years ago, announces Zack Taylor, Boats Editor of Sports Afield Magazine.

The mighty and unpredictable muskellunge is experiencing a population expansion of fantastic proportions. Huge muskies, less than 10 years ago termed "a relic species doomed by time," are slashing lures of astonished fishermen from the Mississippi to the Susquehanna and in Canada's province of Ontario.

Not only have such traditional musky states as Wisconsin and New York recharged their native populations, but areas in Virginia, North Carolina and Eastern Pennsylvania — where anglers still say "Good Gawd! What was that?" when the baleful shapes loom out of the deep — are producing fabulous musky fishing, with the certainty of more to come.

A "guesstimate" puts the number of musky fry and fingerlings stocked in 1960 at 200,000. These have become the 10- to 15-pound fish causing all the excitement today. Last year almost seven million fry and fingerlings were set free to grow up and scare bass fishermen.

Today anyone can catch a musky. Even in the most populated centers of the Eastern United States, muskies have been stocked within fishing distance. Almost certainly a legitimate "hot spot" where large fish are taken in quantity is less than a day's drive away. Two main forces are combining to produce this astonishing conservation triumph. The first is the creation of large new reservoir impoundments in the East. The second has resulted from the discovery that warm-water forage-fish populations tend to far outstrip the food resources of their habitat and reduce all fish populations to stunted thousands.

The search for a voracious predator fish whose appetite could keep forage species in check led fish biologists unerringly to the pikes. And of these the musky, the supreme freshwater trophy, was a natural choice. Muskies have a wide tolerance for varying water temperatures. They are among the fastest-growing fresh-water fishes. Under natural conditions musky fry are subject to severe predation by pike, mostly because the northerns spawn several weeks earlier, and the three-inch pike fry gobble up the two-inch musky fry with ease. But in the absence of northerns, muskies are tough enough.

Our Yesterdays

(Items taken from files of The Floyd County Times of 30 and 20 years ago.)

Thirty Years Ago

(July 10, 1936)
 Rains falling almost daily since Thursday, last week, have definitely broken the drought which had prevailed in this section for over a month. Prospects of procuring from the Public Works Administration an outright grant of part of the funds necessary to construction of an addition and of repair of the Floyd county courthouse are excellent, it was said this week by County Attorney Forrest D. Short and County Clerk A. B. Meade. T. J. Hazans, 67, of Langley, was killed, and his wife seriously injured, Friday morning, when their auto crashed into the side of a state highway oil truck at the intersection of the Mayo Trail and the Allen-Lackey highway near Allen. Corbett Hollifield, 23, of Garrett, died July 2 at the Beaver Valley hospital, Martin, of the effects of an accidental bullet wound, sustained the preceding Sunday. A 2,000,000 cubic-foot gas well which came in on the J. W. Burchett farm, Cook Creek, Monday night, was attended by a burst of flame which destroyed the drilling rig of Garver and Williams, drilling contractors at an estimated loss of \$5,000. Deputy Sheriff Ike Fitzpatrick, assisted by Jake and Norman Holbrook, last Thursday, captured a moonshine still on the Ray Branch of Middle Creek. The auto of Ransie Marcum, Glo pease officer, was stolen last Thursday night. Married: Miss Irene Holbrook, of Salyersville, and Mr. French Cline, of Williamson, West Virginia, here, July 3. Born: To Mr. and Mrs. Fred Derossett, a daughter—Nella Joe—June 27. There died: Miss Mabel Waddell, 23, of Hueysville, at the Beaver Valley hospital, Wednesday morning.

July 17, 1936

Between 450 and 500 men were out of work this week as the result of the destruction by fire Monday afternoon of the tipple of the Pike-Floyd Coal Company at Betsy Layne. Approximately 500 United Mine Workers were out on strike, Tuesday and Wednesday at the Elk Horn Coal Corporation operations at Garrett, all because, it was said, one non-union worker had been employed despite the wishes of the mine local. Upon the return Thursday, last week, of Palmer Hall to the office of Superintendent of Floyd county schools as a result of an injunction granted against Ballard Hunter, former Superintendent, the county board of education met and selected teachers for all county schools. Though not yet officially opened, the Stumbo Memorial hospital at Lackey had 28 patients Wednesday, Dr. W. L. Stumbo, county judge, said. Calvin Moore, 78, died Thursday at the Beaver Valley hospital, Martin, of injuries sustained while working at a sawmill near Weeksbury, July 8, when a cant-hook slipped on a log and struck him in the stomach. Married: Miss Wanda Scott, of Prestonsburg, and Mr. L. B. Keeton, of Salyersville, at Ceredo, West Virginia; Miss Maude Spurlock, of West Prestonsburg, and Mr. Irvin Langley, of Prague, Oklahoma, July 2 at Paintsville. There died: Mrs. Anna Harris Ward, 65, of Brandy Keg, Monday at the Paintsville hospital; Miss Opal Hunley, 27, of Prestonsburg, at the Paintsville hospital, Saturday; Nannie Howell, 11 years old, of Mossy Bottom, Saturday, of appendicitis at the Beaver Valley hospital, Martin; Harrison Burnette, 50, of Betsy Layne, Monday at Prestonsburg.

Twenty Years Ago

(July 11, 1946)

Five suits seeking cancellation of as many whiskey licenses recently granted to Floyd county retail dealers were filed Saturday in the Franklin circuit court by County Judge A. L. Davidson against three agents of the Alcoholic Beverage Control Board, the board as a whole and each of the licensees. Mrs. Hatler Collins, 18, of Hall, Knott county, was shot and killed Monday morning at the home of her parents at Hi Hat. Cecil Coburn, 30, former Handshoe resident, was killed, and his brother, John M., was seriously injured Tuesday in a truck wreck in North Carolina. Filling vacancies created in the Town Council of Martin by the resignation of three of its five members — Ted Salisbury, Demra Taylor and W. J. Ryan — was a task posing another headache for County Judge Alex Davidson this week as opposing factions in the community sought appointments for their friends. The Floyd fiscal court in its first meeting of the new fiscal year Monday called on the State Highway Commission to fulfill the five-year-old agreement of the Commission to repair the bridge across the Big Sandy at Betsy Layne. Floyd county's rural schools will open their term Monday, July 15, concurrently with the beginning of the term as Superintendent of Schools of Palmer L. Hall. Married: Miss Leona Baldrige Hall, of Prestonsburg, and 2nd Lt. Thomas Oaks, of Jenkins, June 15; Miss Kelsa Gearheart and Mr. Jesse Elliott, both of Betsy Layne, July 1; Miss Bertha Gearheart, of Hueysville, and Mr. Guy McMillen, Jr., of Columbus, Ohio, June 8. Born: To Mr. and Mrs. Shirley Lewis, of Prestonsburg, a daughter, July 9 at the Prestonsburg General hospital; to Lt. and Mrs. Moses Hall, of Albany, Georgia, formerly of Prestonsburg, a son—Michael Howard—July 6; to Mr. and Mrs. Randolph "Billy" Burchett, a son—Randolph, Jr.—July 3 at the Paintsville hospital; to Mr. and Mrs. T. J. Hall, of Ivel, a son—Tommy Duran—June 28 at a Paintsville hospital. There died: Cpl. Edgel Johnson, 26, of Wheelwright, July 1 at Walter Reed hospital, Washington, D. C.

July 18, 1946

A contract between Eastern Kentucky's three striking bus companies—Sparks Brothers, Conley and Kentucky-Virginia Stages—and the Transport Workers Union (CIO) was signed in Lexington last Friday afternoon and the buses appeared ready for rolling this week. County Judge Alex L. Davidson announced Thursday the appointment of John Wesley Hall, Demra Taylor and T. J. Allen to the City Council of the town of Martin to fill vacancies recently created by resignation of three councilmen. Daniel Breeding, 26 years old, of Hi Hat, the first Floyd county high school student to win the Inland Steel Company scholarship, drowned July 8 in a lake near the University of West Virginia at Morgantown. Thomas "Turkey" Hughes, 30 years old, former Prestonsburg high school athlete and native of Dock, was killed, July 7, in an automobile collision near Willard, Ohio. Thomas Howard Acree, 40, of Eastern, died Friday at the Stumbo Memorial hospital of injuries sustained when he was struck by a car at Eastern, July 6. Married: Miss Margaret Mellon, of Martinsburg, West Virginia, and Mr. Ward Hall, of Prestonsburg, in Hagerstown, Maryland. Born: To Mr. and Mrs. Fred Derossett, of Pomona, California, formerly of Prestonsburg, a daughter—Mima Floyd—June 28; to Dr. and Mrs. Gene Combs, of Pikeville, a son—Gene, Jr.—June 29 at the Methodist hospital, Pikeville. There died: Mrs. Josephine D. Harkins, 86, of Prestonsburg, Friday night, at the home in Miami, Florida, of her daughter, Mrs. Walter F. Van Landingham; Dr. D. H. Daniel, 68, founder of the Prestonsburg General hospital, at his home in Paintsville, July 4; Birchell Dyer, 36, employe of the Elk Horn Coal Corporation, Wayland, at his home at Hindman, Friday; Thomas Preston, 35, of Lackey, at the home of his mother, July 8; Will Slaughter, of Wheelwright, en route to a Martin hospital last Thursday; Ray Huff, 7, at home on Little Paint Creek, Sunday.

THE SHOCK WAVES WEAKEN

"Too bad." With such a remark or some other equally inane the public dismisses crimes of the most revolting nature.

There was a shock wave felt over the land recently when eight student-nurses were slaughtered in Chicago. But it did not register as strongly as it should, perhaps not as violently as in other years when the public was not so inured to violent death.

Dr. Frederick Wertham, who is regarded as one of the foremost authorities on criminal violence, says a key aspect of the slaughter of the eight nurses is "the very complacent attitude of our society in 1966 toward violence of all kinds."

"We're not really appalled by it," Dr. Wertham commented recently. "Our sympathy for the victims is short-lived and for those unfortunate girls it may last a week or 10 days. In the end, we usually wind up sympathizing with the perpetrators of violence, and the victims are forgotten."

The seeds of violence lay deep within the nature of the killer of the eight. They were "watered" well by a round of visits to Chicago bars. How many thousands of others nurturing the same strange impulses and fanning them by alcohol and drugs prowl the streets and countryside of the land?

The criminal is being given all the breaks. Psychiatry delves deep for the "uncontrollable impulses" that will eventually become a whitewash in the hearing and presence of juries. Even the Supreme Court, concerned as it should be about personal liberty and safeguards for the individual, however black his criminal record, is inclined to forget or to neglect the rights of the innocent.

It becomes more and more evident that the individual American citizen must become concerned about this matter of crime and the value of innocent lives as well as that of the guilty.

No simpering "too bad" is the answer.

REPORT SAYS 64 FARMERS ADDED TO ASCS PROGRAM

Floyd county has 64 new farmers participating in the programs administered by ASCS, and a total of 266 county farmers are participating in the 1966 ACP, says the semi-annual report filed by Elder Goble, ASCS office manager here.

A total of 249 farms are participating in the 1966 feed grain program, with 1504 acres diverted from the production of corn.

The new Appalachian land stabilization and conservation program is well under way. "We have received a total of 51 requests for cost-sharing. Twenty-six contracts have been completed and copies have been submitted to the state office, and a total of \$34,466.92 has been set up on these 26 contracts," Goble reported.

Farmers are beginning to get interested in the new Cropland Adjustment Program, the report

said. Three farmers have approved agreements under CAP. Two others have requested cost-sharing on ponds, three have asked for assistance in establishing wildlife food plots, one is asking assistance in establishing a sports and picnic area, two are requesting assistance in establishing a stand of trees, and one is requesting cost-sharing on permanent vegetative cover.

Unemployed fathers were again used last spring, to set trees on farms throughout the county. The report noted completion of the Mountain Parkway arm to Prestonsburg, attractions at Jenny Wiley State Park, advantages offered the public by the new city park here and the two off-street parking areas afforded here.

"Floyd county is advancing in many areas. Possibilities seem to be nearly unlimited," the report concluded.

Breathitt Declares Mud Cr. Disaster Area After Plight Of Area Told By Delegation

Mud Creek residents and Floyd county officials travelled to Frankfort Friday to petition Governor Breathitt that Mud Creek be declared a disaster area because of the prolonged drought.

After Governor Breathitt had read the petition, Big Sandy CAP Director Harry Eastburn described the situation further in terms of statistics resulting from water and health surveys in typical communities. This data showed that 93% of Ligon's wells and 75% of Tackett Fork's are contaminated; that 53% of Ligon children had one or more varieties of intestinal parasites, and that in the opinion of the health department serious outbreaks of water-borne diseases could occur.

Charles Kidd, of Toler Creek, told the governor, of some of his neighbors being forced to haul water great distances, and of some using water from the creek.

A water district is the eventual answer to Mud Creek's problem, Mr. Eastburn pointed out, but the pressing need now is drilled wells in strategic locations, usually at the head of the hollows where the people suffer most from lack of water.

After conferring briefly with his aides, Gov. Breathitt announced to the gathering that, despite the relative infrequency of the step, the situation as presented to him warranted declaring Mud Creek a disaster area. Later that afternoon, he formally designated Mud Creek as such.

Gov. Breathitt expressed the hope that his action would result in a coordinated push by the various government agencies involved to solve the area's water problem.

In the delegation conferring with Gov. Breathitt were Charles Kidd, Toler; Mr. and Mrs. Harry Eastburn, Paintsville; Charles Dagnan, Dewey

Roberts and Cecil Sturgill, Harold; Hershell Hamilton, Shirley Halpin and Roger Goulet, Tackett Fork; Walter Akers, Little Mud Creek; Eugene Booth and Binnie Ray Bailey, Hi Hat; County Judge Henry Stumbo, Commonwealth's Attorney Harold Stumbo and County Attorney Barkley Sturgill, all of Prestonsburg.

Body of Scutchfield Is Found Last Sunday Near Water Gap Home

The body of Talmadge Scutchfield, was found in a barn, near his Water Gap home, late Sunday afternoon. He apparently had hanged himself, officials said.

He was a son of Ed and Maggie Johnson Scutchfield and was a native of the Bull Creek section. His wife, Mary Shepherd Scutchfield, died in 1963. Survivors include one daughter, Mrs. Inez Hammonds, of Water Gap; a step-daughter, Mrs. Eva Hensley, Ironton, Ohio; one son, William Edward Scutchfield, Water Gap; three sisters and three brothers, Mrs. Ada Alley and Miss Belle Scutchfield, both of Water Gap, Miss Rosie Scutchfield, Sid Scutchfield, of Pikeville, Darvin, Paimer and Court Scutchfield, all of Water Gap.

The funeral was at 10 a.m. Wednesday from the home of Mrs. Hammonds, the Rev. Jack DeRossett officiating. Burial in the Richmond cemetery was under direction of the Carter & Callihan Funeral Home.

LOS ANGELES TO NEW YORK BY CAB

Los Angeles—A couple stranded here by the air strike solved the problem of how to get back home to New York—by taxicab. When Willie Scoma, and his wife, Amry, learned they could not get plane reservations home until August 1, they called New York taxi driver John Seychel to come and pick them up here. Seychel said he ordinarily would receive about \$1,500 for such a roundtrip fare, but this time he wouldn't get a penny. Scoma is co-owner and co-operator of the cab.

Dry League Expresses Thanks for Support

The Christian Dry League expresses its appreciation to the concerned citizens of Floyd county who supported the "dry" cause with their prayers, their influence, their financial assistance, and their votes. We are especially grateful to those county officials who publicly endorsed and supported our effort. Also, it has been a wonderful experience for Christian people and preachers of many different churches to join hands in combating a common evil.

As this article has been written while the people of our county are still voting, our League wishes to go on record as standing for good government and civic responsibility. We wish the best for all the citizens of Floyd county.

HOWARD-CARTER VOWS SAID

—Photo by Strahan

Miss Judith Ann Howard, daughter of Mr. and Mrs. Ray Howard, Arnold avenue, was united in marriage to Mr. James J. Carter, II, son of Mr. and Mrs. James J. Carter, Arnold avenue, on June 25, at 11 o'clock in the morning at the First Presbyterian Church.

The Rev. T. W. Chisholm officiated in the double-ring ceremony which was solemnized before an altar banked with greenery and high standards filled with gladioli and ferns, flanked by branched candelabra and lighted tapers.
Preceding the ceremony, Mrs. E. E. Burke, organist, presented a program of nuptial music.
The bride, given in marriage by her father, was attended by her matron of honor, Mrs. Ted Hicks. Mr. Carter was attended by Mr. Joe David Martin. The bride wore a street-length, sky-lark blue organdy dress with long sleeves embroidered in white. The fitted blouse, fashioned down the back, was attached to a full skirt. A lacy head-dress, matching the color of her dress, was fastened with pearl ornaments. She wore pearl earrings and beads. Her bouquet was a white orchid attached to a white Bible with white satin sweetheart bow knots.

Mrs. Hicks, the matron of honor, wore a pink organdy dress, fashioned much like that of the bride. She carried a nosegay of two-toned pink carnations tied with pink ribbons.

Ushers were John Mark Howard, brother of the bride, and William Kendrick.

Immediately following the ceremony, a reception was held at the church. The bride's table, with an overlay of white cut linen with lace border, was centered with a tiered wedding cake topped with a miniature bride and groom. Miss Susan Carter, sister of the groom, presided at the punch bowl. Mrs. Tim Howard, sister-in-law of the bride, served the cake. Mrs. Rainley White and Mrs. T. W. Chisholm assisting.

Both Mr. and Mrs. Carter are graduates of Prestonsburg high school and Eastern Kentucky State University, Richmond, Ky. He will finish his course at the Cincinnati Embalming School in September, after which he will be associated with his father in the Carter & Callihan Funeral Home here. Mrs. Carter is teaching at Clark elementary school. They are at home here after spending their honeymoon at Sarasota, Florida.

LONG, HARD WINTER AHEAD FOR SQUIRRELS, WITH MAST KILLED BY FREEZE, REPORT

Kentucky's bumper squirrel crop faces lean pickings and a tough winter.

That dire prediction was made during a meeting of the League of Kentucky Sportsmen board of directors last week-end in Covington.

League vice-presidents representing the nine wildlife regions of the Commonwealth were agreed that spring freezes have decimated mast.

There is some evidence, the reporting league officers told Fish and Wildlife Commissioner Minor Clark, that squirrels are already "on the move." Such migrations, the wildlife organization officials say, are resulting from a lack of adequate squirrel food in the usual places.

Commissioner Clark told the league board that the Department of Fish and Wildlife Resources has received similar reports.

"This apparently means," the Commission concluded, "that a dearth of woods mast will increase the normal winter kill."

He said he would bring the matter before the Fish and Wildlife Resources Commission, with a view of extending the squirrel hunting season. An extended season would increase the hunter harvest of squirrels, and would, in effect, reduce the natural causes of winter kill, Clark said.

As currently scheduled, the squirrel hunting season will open August 13, continue through October 31 and reopen for the month of December. The Dewey Lake game refuge will be open to squirrel-hunters, this season.

The league vice-presidents reported a generally increased crop of other upland game.

12 FLOYD COMMUNITIES CENTER OF AV ACTION

While opposing forces in Floyd county's local option election have been working to get the Mud Creek section wet or dry, another group has been working for another kind of wet cause in that area.

This other kind of drive has been made to get water for the drought-parched valley, and it has been spearheaded by Appalachian Volunteers and VISTA workers in cooperation with citizens, the Community Action Program and other agencies.
Flem Messer, director of the Appalachian Volunteers in a six-county area, this week outlined some of the work being done there and elsewhere in the county.

Forty-six summer Volunteers, four fulltime VISTA workers and one community intern are working in 12 communities, Left Toler Creek, Forks of Toler, head of Toler, Spruce Pine, head of Little Mud, Branham's Creek, Mink Branch, Tinker Fork and Tackett Fork—all in the Mud Creek watershed—and at Ligon, Weeksburg and Tram.

Work of the Volunteers is being concentrated on the Mud Creek area where, working with other agencies, they have helped organize the Highway 979 Area Community Action Council, Inc., with 12 communities involved and a board of directors composed of two representatives from each of these communities. The council gets its name from the state route which passes through the Mud Creek area.

The council, with the assistance of CAP and county officials, last week succeeded in getting Governor Breathitt to declare Mud Creek an "emergency area," and this, it is hoped, is the first step toward getting public funds, mostly federal, for the drilling of wells to meet water needs there.

The council has purchased a printing press, is publishing a community news paper, The Hawkeye, and plans to employ several in a job-printing plant. Formation of a water district is being worked toward, with the cooperation of the Big Sandy Community Action Program and the Office of Economic Opportunity.

At various places in the county Volunteers are doing remedial work with children who are not in either the Head Start or Catch-

Up programs operated by the Floyd County Board of Education.

On Mud Creek the Highway 979 Council also is planning recreation programs which would include events involving the several communities and the organization.

Among the 500 Volunteers working in four Appalachian states in association with VISTA, six are Floyd countians.
"The Appalachian Volunteers, as individuals and as an organization, have enjoyed good cooperation from Floyd county's people and officials," Mr. Messer said. "As a group they attempt to help communities and individuals help themselves. Most of the Volunteers are young and full of energy—maybe, are even impatient at times when progress appears slow."

As a result of the Appalachian Volunteer program, one extra nurse, several certified teachers and two law students are working this summer in the county.

"Many will learn as much or more than they teach—all will go away wiser human beings, many later to become professional leaders in all walks of life," Messer commented.

Considering the problems of the area, Messer said neither the Volunteers nor any other single group has all the answers. "But the Volunteers can be of assistance. They reach and work with families on a more personal and intense level than any other group or agency can."

He added that the support of agencies and the general public is greatly needed, however, if their work is to be successful.

'CONFESSION'

Saigon — Radio Hanoi carried what it claimed was a live broadcast of a captured U.S. fighter pilot confessing to war crimes yesterday. The broadcast was said to have been made by a Capt. David B. Hatcher. Previous Hanoi broadcasts said he came from California. The speaker sounded despondent and spoke in a stilted, Southern drawl.

John H. Canterbury, Resident of Coal Run, Succumbs In 100th Year

John Henry Canterbury, 99 years old, one of Pike county's oldest residents, formerly of Mare Creek, this county, passed away Sunday at his home at Coal Run. He had been in failing health the past two years. Mr. Canterbury was a retired miner and was a member of the Free Will Baptist Church. He was the son of Jewel and Phoebe Canterbury. His wife, Mrs. Myrtle Allen Canterbury, survives. Survivors, in addition to his widow, are one son, J. B. Canterbury, of Grundy, Virginia; one stepson, Grundy Gilliam, Cleveland, Ohio; four daughters, Mrs. Henrietta Bentley, Galena, Ohio, Mrs. Goldie Hamilton, Croton, Ohio, Mrs. Mahalia Raliff, Pikeville, and Mrs. Opal Marshall, Tazewell, Virginia. He also leaves 39 grandchildren, 105 great-grandchildren and one great-great-grandchild. Funeral services were conducted from the residence Wednesday at 12 noon, ministers of the Free Will and United Baptist churches officiating. Burial in the Davidson Memorial Gardens at Ivel was directed by Hall Brothers Funeral Home.

Rose Tours Asia and Europe With All-Star U. S. Net Team

Jimmy Rose, of Hi Hat, senior at Georgia Southern College, left July 15 for a 47-day tour of Italy and the Middle and Far East. He was one of ten players chosen by the N. A. I. A. Basketball Association, of Kansas City, Mo., for this tour. The Floyd countian was chosen because of his superb record the past three years on the Georgia Southern Eagles basketball team. Rose has been named two consecutive years to the N. A. I. A. all-America First team. He was also chosen on the all-tournament team in the N. A. I. A. tournament which is held in Kansas City. He received a gold engraved wrist watch for this honor. Rose will spend seven days in Hong Kong with his brother, Gary who is in Viet Nam, and whom he has not seen in two years. He and

other team members will return, about September 2. Rose is a graduate of Wheelwright high school, where he was a net star. **OWSLEY REUNION**
The third Isaac and Mille Jane Owsley reunion was held at Jenny Wiley State Park, July 3. The reunion was attended by 85 members of the family representing five states, Kentucky, Ohio, Indiana, Michigan and Illinois. There were 13 visitors at the reunion from different parts of Floyd county. The children of Isaac and Mille Jane Owsley attending the reunion were: Mrs. Eph Edwards and Jerry Owsley, of Estill; Mrs. Sam Terry and Mrs. Eugene Nance, of Wellington, Ohio, and Mrs. Clyde Pennington, of Reynoldsburg, Ohio. The next Owsley reunion will be held at Jenny Wiley State Park, July 1, 1967.

Telephone Talk

By **ROY L. ATHERTON**
Your Telephone Manager

"AN INVENTOR LOOKS UPON THE WORLD AND IS NOT SATISFIED WITH THINGS AS THEY ARE." Alexander Graham Bell said that and it's probably one secret of his success in so many fields. We think of him chiefly as the inventor of the telephone. But he also was the first to suggest radium treatment of cancer. He helped invent the seaplane and the phonograph record. When President Garfield was shot, Bell invented a way to find the bullet electrically. He developed principles later used in film sound tracks and transistors. Today, we enjoy many results of the work Dr. Bell did because he "wasn't satisfied with things as they are."

RIDDLE . . . WHY IS A TELEPHONE DIAL LIKE THE WHEEL OF A CAR?

ANSWER . . . BECAUSE IF YOU TURN IT THE RIGHT WAY IT'LL TAKE YOU WHERE YOU WANT TO GO.

What's more, you'll get there every time if you follow these simple telephone tips:

- Look up the number you're calling
- Jot it down
- Dial it carefully

WE KNOW ONE LADY WHO THINKS IT'S A SNAP TO SHOP BY PHONE. She was expecting some rather special company for dinner and wanted to serve the very best of everything. So when she called her grocer to order snap beans she asked him to bring one to the phone and break it in two. When she heard the loud, crisp snap she knew the beans were good and fresh, so she ordered three pounds! You might say . . . she got quite a bang out of her telephone!

Mrs. Alka Crager Victim at Age of 72 At Pikeville Hospital

Mrs. Alka Crager, 72, of Wayland, succumbed last Thursday at Methodist hospital No. 2, Pikeville, to an extended illness. Mrs. Crager was a member of the Martin Branch Free Will Baptist Church for 30 years.

A daughter of the late John and Molly McGuire Pack, she was the wife of George Crager, who survives.

Surviving, besides her husband, are four sons, Willard Crager, Detroit, Michigan, Dennis Crager, China Lake, California, Jack Crager, Centerline, Michigan, Garner Crager, of Wayland; five daughters, Mrs. Mildred Griffith, Centerline, Michigan, Mrs. Maggie Castle, Wayland, Mrs. Mary Howington, of California, Mrs. Avonelle Gozard, Warren, Michigan, Mrs. Delores Thornsbury, Middletown, Ohio, and one brother, John Pack, of Indiana.

Also surviving are 30 grandchildren and 11 great-grandchildren.

The funeral was held Monday at 10 a.m. at the Martin Branch Free Will Baptist Church, the Revs. Doug Burkett and Green Boyd officiating. Burial was made in the Martin cemetery, Hall Brothers Funeral Home directing.

SOIL, WATER STUDY BEGUN

Inventory To Answer Many Questions About Floyd Land, Farmers

Is the land in Floyd county returning the income it should? Is it managed so it will support those who will depend on it in the years ahead?

The Soil and Water Conservation Needs Inventory will help answer these and many other questions, according to Gerald Hart, USDA Soil Conservation Service.

The inventory is being developed for each county in the United States. In this county, it is being made by a committee composed of Gerald Hart, Elder Goble and Gene Hall.

Hart is gathering data from selected areas which have been carefully mapped by SCS soil scientists. These maps show the main problems that affect the use and management of soil and water resources.

The data he will collect will show the present use of each acre for both agricultural and non-agricultural purposes. Each field of agricultural land will be classified according to its present use and best potential for growing row crops, hay, pasture, woodland and for other uses. The conservation treatment needed for each of these uses is then determined and included in the data.

The inventory will provide the latest information on the nature and scope of land and water management problems, both rural and urban. This data should be helpful to public and private organizations such as planning and zoning commissions, farm equipment and fertilizer firms, land development groups and the soil conservation district in planning their work in the future.

For example, the Soil Conservation District can use the inventory in up-dating its program to best fit the needs of all the residents of the county.

The districts can use the inventory to help determine the kind and amount of assistance needed from agencies and organizations to effectively carry its program out. The data will show the acreage of soils in the county which are used too intensively as well as those that can support greater use. It will give guidelines on cropping systems to use.

The data on all inventoried areas will be summarized by watersheds, counties, land resource areas and states. When finished next year, this Conservation Needs Inventory will provide much data about soil and water resources and their use to meet the food, fiber, recreation and other needs of a growing population.

Community College Sets Pre-Registration To Start August 1st

Prestonsburg Community College will hold pre-registration of classes for the fall semester on August 1-6, and Dr. Henry A. Campbell, Jr., director of the college, said enrollment of 750 students is expected.

The schedule for pre-registration follows:

On Aug. 1, all sophomores, A-L, will register at 8 a.m., and all sophomores, M-Z, at 1 p.m. In addition, there will be two general registration periods for either freshmen or sophomores who are working and cannot attend the regular pre-registration sessions. The first will be August 2 at 7 p.m. and the second on August 6 from 8 to 11 a.m.

Pre-registration for the night program will be held on August 1 at 7 p.m. This year, a full night program of 15 classes in all areas of work will be offered at the college. It is not necessary to pay any fees at the pre-registration session.

The anticipated increase in enrollment has necessitated the expansion of the faculty. This fall there will be 27 fulltime faculty members and 10 part-time instructors. The expansion of the faculty will mean that the college curriculum will be broadened. For the first time courses in Theatre Arts will be offered. Many additional sophomore level courses in English, history, physics, and chemistry will be offered. Additional music courses will also be available.

Dr. Campbell said that with these additional courses Prestonsburg Community College will be able to offer a truly comprehensive two-year transfer program and a strengthened program of two-year terminal associate degrees.

Interested students who have not yet completed application forms for entrance may do so at the pre-registration sessions. Classes will begin on August 31.

HAROLD FIRM PLANS TOLD

Expansion Program Of Telephone Firm Will Cost \$340,000

The Harold Telephone Company this week announced the awarding of first contracts on a two-year expansion program which will involve the expenditure of approximately \$340,000.

Paul D. Gearheart, of Harold, president of the company, said the first phase of the work will be construction and equipping of an exchange at Grethel. Two other exchanges, at Harold and Melvin, already are in operation.

A Lexington firm will erect the exchange building on a site acquired from Ishmael Akers. The Stromberg-Carlson Company was awarded the contract for supplying and installing the exchange equipment on its bid of \$34,846.

The second and larger phase of the company's expansion program will be work on the system to change it to 1-2-4 party line service, which means that in congested areas only one or two subscribers will be on the same line, and that in no case will there be more than four.

There now are as high as eight. This will involve more than doubling the number of poles, cables and lines of the system which extends from the Pike-Floyd line along U.S. 23 to Ivel; the length of Mud Creek, on to Melvin and Weeksbury on Left Beaver and down that valley as far as Hi Hat, excluding only the Wheelwright-Bypro area which is served by Southern Bell.

The Harold Telephone Company, which was organized by Gearheart, had only 71 customers when it began operation in 1953. Now it has about 1,600.

Two of Bank's Staff To Complete Studies

(Continued from Page 1)

John G. Heinze and Miss Burieta Gearheart, assistant vice-presidents of The Bank Josephine, next month will complete consumer banking studies begun three years ago.

Mr. Heinze will attend his third session of the School of Consumer Banking on the campus of the University of Virginia, Charlottesville, Aug. 7-19. He has completed his thesis on a subject related to consumer banking and will qualify for graduation.

Miss Gearheart will be graduated from the NABAC School for Bank Audit, Control and Operation at the University of Wisconsin. She will return there Aug. 1 to complete the third-year course, and will be graduated Aug. 12. She is a secretary of the graduating class.

12 BOARDS ARE NAMED

Mental-Retardation Headquarters for This Region Is at Pikeville

Frankfort — Creation of 12 regional mental-health and mental-retardation boards in Kentucky has been announced by Governor Edward T. Breathitt.

The announcement came at the presentation of a report to Breathitt by the Kentucky Mental Retardation Planning Commission on mental retardation programs and services in the state. The report recommended that the boards be established.

Breathitt said the incorporated, nonprofit boards represent more than half of the 20 multi-county boards planned throughout the state. Their purpose will be to provide a comprehensive "complex of services" in mental health and mental retardation to every community, he said.

Headquarters of the 12 regional boards, with chairmen, are: Paducah, Ray Savignac; Madisonville, Dr. Loman C. Trover; Hopkinsville, Frank Yost; Owensboro, Robert E. Moe; Bowling Green, Dr. L. Jack Scott; Covington, Dr. Joseph Willet; Lexington, Van Meter Alford; Danville, Jack Stith; Somerset, Harold Bussell; London, Mrs. Edith Feltner; Ashland, Harry N. Miller; Pikeville, Luther Cornette.

Dr. Dale H. Farabee, commissioner of mental health, said a recommendation by the commission to coordinate the efforts of the regional boards and the Kentucky State Department of Mental Health is being implemented.

WAYLAND

Sharon Ogle, of Lima, Ohio, is spending the summer with her grandparents, Mr. and Mrs. W. F. Cox. While here she is also visiting her cousin, Mrs. Anna Williams, and Mr. Williams.

A-BAN TALKS DEADLOCKED

Geneva—The United States and the Soviet Union remained deadlocked over the issue of how to monitor a ban on underground nuclear testing despite attempts by nonaligned nations to open the way to a compromise. William C. Foster, U.S. disarmament negotiator, reaffirmed Washington's opposition to any unverifiable suspension of such testing. This opposition stems from "our unwillingness to accept on trust the observance by others of restrictions which significantly affect our security," he told the 17-nation disarmament conference.

TIMES WANT ADS PAY!

THE IMMEDIATE IS NOT THE BEST SOLUTION

By Dr. Russell L. Hall

We are blessed in this area with the best climate in the world. The average year-round temperature is 55 degrees; average annual rainfall is 45 inches. This is better than the climate in the Garden of Eden.

Of course we have the cold of winter; the heat of summer; spring floods, and summer droughts. But no person has ever died from thirst in our area.

People of the Mud Creek area have been experiencing a drought for the past few weeks. They have lived thru droughts before (as have we all). But this time someone reminded

them they had a drought. Mass meetings were held. Local, state and federal officials and agency heads were summoned. The result—a geologist was employed, and plans were made to drill deep wells.

Question: Was this decision wise?

Sober thought concludes this was the popular, spur-of-the-moment, but not the right, decision. This is why:

(1) Most wells in this area still were producing water; 60 of those tested showed 25% produced pure water (in an adjoining valley, outside this critical area, only 8% of the wells were producing pure water!)

(2) Expenditures for a geologist are unjustified, because this is an area where any faker with a divining-rod can locate water 99 times out of 100.

(3) For the Government to drill wells here would open a Pandora's box. A hundred other valleys in Floyd county experience this degree of drought—and the Government could not say "No" to their requests. And what if the people in valleys in all the counties in Appalachia requested the same help? The cost would be phenomenal, exceeding the cost of all the wars we ever fought.

(4) Unemployment is high in this region. Wherever employment can be found families will move to it, leaving the drilled well, unused, behind.

What is the best solution? Provide employment in the area! How? One that comes to mind is to put men to work to clear all the scrub timber from the hillsides and make it into pulp. This would also give the sound timber a chance to grow.

These hills once were resplendent with yellow poplars, great oaks, maples, walnut, beech, ash, cedar and pine trees. Begin a massive reforestation project that will provide employment, restore our forests, and conserve water to the extent that there would be no droughts.

Granted, this may not be popular or show immediate returns, but what lasting and worthwhile things do?

ROAD DEATH TOLL DOUBLE

But Slight Attention Given Rapid Increase In Accidents, Injuries

Frankfort—With most attention fixed on the increase in the death toll on Kentucky's highways, "scant notice has been given to the much more rapid increase in the number of accidents and injuries," says State Public Safety Commissioner Glenn Lovern.

He points out that the number of accidents and injuries last year was more than double the number in 1955.

Lovern says many of these accidents are permanently disabling to their victims and the growing total "is resulting in enormous loss of human and material resources."

Lovern says the growing accident and injury totals are "putting greater burdens on our under-manned State Police force."

The death rate this year is running more than 100 ahead of the comparable period of last year. Lovern predicts that 1,000 persons will die on Kentucky highways this year, compared with last year's 916, the worst toll in history.

While records show that traffic fatalities rose from 862 in 1955 to last year's 916, injuries increased from 12,555 to 26,555 and accidents from 23,941 to 63,196. The increases are continuing this year.

Drinking drivers and speeders are the greatest causes of traffic accidents, Lovern says.

To catch more traffic-law violators, State Police are increasing the use of roadblocks, radar and air patrol. The roadblocks have turned up many defective vehicles, Lovern says.

Eight Floyd Students To Receive Degrees From Eastern, Aug. 4

NATURE TRAILS

By RUFUS M. REED

SAVE OUR MOURNING DOVES FROM EXTINCTION!

Our mourning doves are in grave danger of becoming extinct — completely wiped out! I speak from a wide observation of our bird life.

Early in June, I was engaged by the Department of Fish and Wild Life to make a survey of the birds breeding in our region. I was required to get up before sunrise on two successive days; each day, I drove a distance of 20 miles, stopping for three minutes every half mile to look and listen for birds. In the two days of observation, I drove a distance of 40 miles, made 80 stops of three minutes each and made a list of the birds I saw or heard. In all this long drive and careful check-up, I never saw or heard one mourning dove. I used to hear dozens of doves cooing, each season. But this year I have heard only two.

For the past several weeks, I have been teaching Nature in the Carter Caves State Park, and I have taken the youngsters on many bird walks. We saw and heard many species of birds in the large forested area of the park, but not a single mourning dove. They have become alarmingly scarce throughout the region.

The reason is obvious. In the year 1964, a total of 20,000,000 mourning doves was bagged by the hunters! No wonder we don't hear doves cooing on our hills! Many more perished later after being shot and crippled or blinded from shot. There have been reports of blinded doves trying to reach their mates, calling to them from the trees, and these have been seen colliding with trees or other objects, then falling helplessly to the ground, to perish from starvation.

At least 70% of the mourning doves hatched out never reach maturity; most of them die in the nest from starvation because their parents have been killed by hunters. Doves nest and breed and rear young at least three times each year. It is hardly possible to kill the adult doves at any season without causing some little one to die also from starvation. Adult doves feed their young on pre-digested "pigeon's milk," by siphoning it down their throats. So they must have special care and feeding in order to mature.

In the name of sport, hunters slaughter doves by the millions, never taking a thought for the cruel death

they may inflict upon the innocent young. Can we call it a human sport? Is it not a sport to satisfy the savage lust for blood?

Something over 100 years ago, Audubon, the ornithologist, made the statement that the passenger pigeons would never become extinct; there were too many of them for that, he said. He had seen their great flights across Kentucky and Ohio and had estimated their numbers in one of these to be about two billion pigeons. But today the passenger pigeon is extinct. It is gone forever because men slaughtered them ruthlessly and without any regard for their conservation. The last passenger pigeon on this earth died in the Cincinnati Zoological Garden in September, 1914.

The mourning doves are destined to go the same way unless we adopt better protection and resort to more strenuous measures to save them from ruthless slaughter. A dove is almost too sacred to be cruelly shot. It is an innocent, harmless and handsome bird and should never become the target of those who kill for sport. Christ told us to be "as harmless as doves." The dove was used as the symbol of the Holy Spirit and was seen by John when he baptized Jesus.

The dove is also a symbol of love. We speak of young lovers as "billing and cooing like doves." These birds are devoted mates and faithful parents. They are innocent because they never try to harm any living thing. From ancient times, the dove has been regarded as the symbol of peace. Why then should doves become the victims of cruel killers, who never look at beauty except as they sight it down the barrel of a rifle?

King Solomon also regarded the dove as a harbinger of spring. Once he wrote: "Lo, the winter is past; the flowers appear in the land; the time of singing of birds is come, and the voice of the turtle dove is heard in our land."

The dove was also used as a sacrifice in the place of the lamb, a symbol of Christ. Two turtle doves were offered when the Christ-child was presented to the Lord at Jerusalem.

The mourning dove is also too valuable to be shot and chased away from the farm. It devours grasshoppers, wholesale, and other pests of crops and is a big help to the farmer.

Let's all work to try to get the mourning dove off the list of game birds and on the list of song birds, then it will have better protection, as it so richly deserves.

In 40 Ky. Counties Cancer Program Begun

Frankfort — More than 40 Kentucky counties are participating in the State Health Department's cervical-cancer screening program, according to Dr. C. Hernandez, coordinator.

He said the program has these objectives: to make every woman in Kentucky aware of the need for a yearly pap smear test and to make physicians aware of the usefulness of the tests as a routine office procedure.

The program, involving all of Kentucky's 120 counties, is provided free to indigent women. The Department is offering assistance to every county in carrying out this program, said Hernandez. To date, 41 out of 120 counties have requested supplies, and are now in the process of setting up clinics for the program, he added.

MUSICK RE-UNION SITE CHANGED TO HAYS, VA.

The place of the Musick family reunion has been changed from the Breaks Interstate park to the high school building in Haysi, Virginia, which is six miles from the park. The reason for change was because a shelter at the park could not be reserved.

The program will be held in the auditorium of the Haysi school on Sunday, August 7. Rev. Moses Kitchen and Henry P. Seaf will be the speakers.

ARMY ENGINEER, NEW WATER DIVISION HEAD

Frankfort—Colonel James A. Thetford, of Washington, D. C., is the new director of the division of water in the Kentucky Department of Natural Resources.

The appointment of Thetford, of the U. S. Army Corps of Engineers, to succeed Steve Wakefield was announced by Governor Edward T. Breathitt. Wakefield retired after serving as director since 1952.

As water-division director, Thetford will also serve as executive director of the State's Water Resources Authority, established by the 1966 Legislature.

Breathitt said Thetford's 26 years of experience with the Engineers will be "most valuable in further developing a wise and sound water program in Kentucky."

Breathitt paid special tribute to Wakefield, who has been with the water division since 1948.

"Nearly one billion dollars in federal projects have been spent in Kentucky since 1948 to develop our streams and waterways," the Governor said. "Six major reservoir

projects have been completed, seven are under construction, three are under engineering design and four have been authorized. Sixty-two local floor projects have been completed and over 700 miles of river improvement in locks and channel modernization have either been completed or are being done.

"Mr. Wakefield has been in on all the planning and developing of these projects," Breathitt added. "The people of Kentucky owe him a great debt of gratitude."

11 HOSPITALS IN MEDICARE

Regional Institutions In Program Have Total Of 774 Beds, Read Says

Eleven hospitals, with a total of 774 beds, are now participating in the Medicare program for the aged, according to Thomas L. Read, Social Security Administration district manager, Pikeville.

Hospitals must meet certain health and safety standards and also the requirements of Title VI of the Civil Rights Act of 1964 before they can participate in the Medicare program.

The participating hospitals in this area, according to Mr. Read, are:

Methodist Hospitals, Units No. 1 and 2, Pikeville; Grundy Hospital, Grundy, Virginia; New Hospital, Paintsville Clinic and Paintsville Hospital, all of Paintsville; Prestonsburg General, Prestonsburg; Our Lady of the Way and Beaver Valley Hospital, Martin; Appalachian Regional Hospital, McDowell, and Appalachian Regional Hospital, South Williamson, Kentucky.

Nationwide, 6,323 hospitals are now participating in the Medicare program, representing 95% of all general hospital beds in the nation that are available for use by Medicare patients. In Kentucky, a total of 121 hospitals, representing 96% of beds in the State are now participating in the program.

In the area serviced by the Pikeville, Kentucky Social Security district office, the vast majority of persons, age 65 and over, have enrolled in the hospital insurance program.

Robert Blackman, 74, Is Victim Last Tuesday At Wheelwright Home

Robert Blackman, 74-year-old retired miner, died last Tuesday at his home at Wheelwright. A heart attack was given as the cause of death.

A native of Georgiana, Alabama, he had been a resident of Wheelwright the last 34 years. He was a member of the UMWA, Local 5899, and was a member of Friendship Baptist Church at Wheelwright.

Mr. Blackman was the son of the late William and Della Juke Blackman. His wife, Mrs. Annie Terrell Blackman, survives.

Surviving, besides his widow, are one daughter, Barbara Blackman, of Lorain, Ohio, and three stepsons, Franklin Sharp, of Lorain, Ohio, Alphonso Sharp, of Kentucky, and Elijah Sharp, of Texas. He also leaves one grandchild.

Funeral rites were held Sunday at the Friendship Baptist Church, the Revs. E. H. Terry and W. M. Jackson officiating. Burial was made in the Community cemetery at Wheelwright under the direction of Merion Funeral Chapel.

CARD OF THANKS

We would like to take this means of thanking all who helped us upon the passing of our son, Milford Tackett. We especially wish to thank those of you who sent flowers, food, or did anything to help. And a special thanks to the ministers of the Regular Baptist Church, and the Hall Brothers Funeral Home for its fine service.
