## WE WELCOME YOU

R. M. HALL'S  
BARBER SHOP

R. M. HALL, Manager  
Opposite Bank Josephine  
PRESTONSBURG, KY.

THESE soldiers, sailors, marines, airmen and coast guardsmen have all the work they can handle, but they still have time enough left for arguments, debates and other sports of one sort or another.

Here is a camp query that covers practically every detail of baseball: "To help clear up a lot of arguments we've had in this camp would you mind answering the following: Who is Grandland Rice (1) the fastest pitcher; (2) the hardest hitter; (3) the best natural hitter; (4) the best base runner; (5) the best infielder, fielding and hitting?"

Here are the answers from this booklet:

1. Fastest ball pitcher—Walter Johnson, with Lefty Grove second.
2. Hardest hitter—Babe Ruth.
3. Best Natural hitter—Joe Jackson, with Nap Lajoie close.
4. Best base runner—Ty Cobb, going away. Max Carey next.
5. Best infielder—Honus Wagner, great infielder and greater hitter.

## Ranking Golfers

Here's another barracks request, this time from a group of golfers: "How would you rank the golfers from the viewpoint of stroke-making, all-around ability, and losing temperaments, putting? If we can get this settled it will shut off a lot of noise in this camp."

1. The best stroke-maker I ever saw was Harry Vardon.
2. The best combination of stroke-making, hard work and putting belonged to Bobby Jones.
3. The best golfing temperaments I ever ran across were Johnny McDermott, Jerry Travers and Walter Hagen. McDermott and Travers were marvelous at concentration. Hagen had less tension. He also had as much golf smarts as any.

The two best putters I ever saw were Walter Travis and Jerry Travers. In modern play this distinction goes to Horton Smith. Paul Runyan is close.

I've seen Harry Vardon play many rounds of championship golf and I can't recall ever seeing him play a shot from the rough or from the bunker. He was a bad putter, with a nervous stink. It was nothing unusual to see him take three putts from 10 or 12 feet.

## About Bobby Jones

Capt. Bobby Jones, taking his training at Mitchell Field before being stationed in a southern sector, believes he worked harder around a course in championship play than anyone else. He was supposed to be "The Machine."

"I was far from it," he said recently. "Machines don't take revenge."

I've seen Jones used to say you can't take a seven on any hole and win. I had three sevens in my last round at Winged Foot in the National Open of 1929. I've had a flock of sevens, which meant I had to work my head off on the other holes.

Gene Sarazen "The Odd one out" I ever took was at the Hottel in the 1930 British Open. I was only 20 yards off the green in two, got into no trouble, actually didn't miss a shot, and yet took five strokes to get down for my seven here. How could this happen? The cup was on a mound. My first chip shot ran up fairly close, stopped, and then rolled back. My second one slipped by the cup, caught a deep slant and trickled 20 feet on beyond. Then I took three putts.

## The Worst Temptation

"Championship golf," Bobby said, "is largely resisting the temptation to quit after one or two bad holes. You begin to feel you can't win, so why keep on putting yourself through it? The winner has to work for it all the way, take his beating here and there, and then continue to work, harder than ever."

"I believe the hardestworking golfer I ever saw is Ben Hogan. Ben works over every type of shot, even the ones that look simple. He takes nothing for granted."

Hogan has made no attempt to master any variety of shots. He sticks to a few simple ones, concentrates on these, and never gets discouraged. Byron Nelson is another hard worker, although Byron can play more shots. But no one works quite as hard, round after round, month after month, as Hogan. I had 14 years of tournament golf, from 12 to 36, and I know the nerve and mental beating one has to take if you are out to win. Just one case is enough to cost two strokes. There never was a golf shot that played itself."

## NEWS FROM FLOYD COMMUNITIES

## HUEYSVILLE

Born recently to Mr. and Mrs. Zeke Batridge a daughter.

Mrs. Maxie Allen, of this place, entertained a number of boys and girls at her home, the other night. They just walked in, unexpected, but Maxie didn't care.

Misses Sadie Allen and Evelyn Osborne were shopping in Garrett and Bosco last week. Sadie was hunting for coffee, and she was not by herself. Almost every woman around here has been hunting for coffee, the last week.

News has just reached here that Col. Edgar Coburn, of this place, and now stationed at Camp Breckinridge, Ky., in the medical corps, has been very sick, the past week, but the fun turned when Col. Coburn slipped up behind them on the highway and threw his flashlight on them. They couldn't jump the cliff, so they fell into a sinkhole to hide.

Several boys and girls attended the Halloween party at the Garrett school Saturday night.

Pearl Coburn, of Handehoe, was in Hueysville this week on business.

The small boys of this place had some fun Friday (Tick-Tack) night, ticktacking A. J. Coburn from the top of the cut and highway with gravel, but the fun turned when Col. Coburn slipped up behind them on the highway and threw his flashlight on them. They couldn't jump the cliff, so they fell into a sinkhole to hide.

Several boys and girls attended the Halloween party at the Garrett school Saturday night.

Pvt. Everett Hunt, of Ft. George G. Meade, Md., was home last week for a few days, visit with his mother and mother, Mr. and Mrs. Albert Hunt.

Miss Opal Stuart, of Betsy Layne, is visiting Mrs. Violet Wright here.

Misses Mary and Rhoda Leslie and Mildred Boyd, Josephine and Ruby Sherman have returned from Oklahoma where they went last Thursday for NYA training.

# PRIVATE PURSUE IN LOVE AND WAR

(Harriet Joins Up With the WAACS)

Dear Oscar—

Don't look now, but I'm in the WAAC. If you're in an army why not me? I got to thinking of you doing your bit as a soldier and I thought I would feel better about it if I was following your example. Well, anyhow, here I am out in Des Moines and already I appreciate all those complaints you used to make about your feet. Right now the girls have made the army reverse the usual routine and give us a light noon meal and the heavy one at night. At noon we just get salads and drug store goodies but I won't there three days before I saw it was all a mistake as the work gives me an appetite like a horse. And I don't mean an ordinary horse.

Men Sergeant Harry Decker says we will all be shouldered 2,700 calories a day to a man's 4,000. But it must have reached that conclusion after watching you eat. It is reported to be a strict disciplinarian but the news should never have leaked out. You know how a woman reacts when she hears that any man who is to tell her what to do is a disciplinarian. He has two strikes on him from the start.

Quite a few army men are out here in general charge. They try to be stern but they look pretty comfortable. I can tell they would rather be any place but here. Susie Graham says they must have been detailed here as punishment for some army crime. The first big laugh came when army men showed us how to make beds and said "Well, we must make 'em like this" and so back talk. They made them pretty good at that but we made 'em all over again as soon as they finished. We have steel lockers at the foot of our beds and you are my hang-up boy, of course, dear Oscar. One of the girls asked me if it was a snapshot of Abbott or Costello. It was just because the picture was taken in too bright a light.

Well, dear, I hope all is well with you. How I wish we were in the same army! Your Yankee Doodle girl never stops thinking of her Yankee Doodle boy. I love you.

P. S.—Send me a monogram. I just heard some funny notes.

VOICE FROM THE END OF THE LINE

Obstructors of progress, Whose act is a crime, Are those who pick change up One coin at a time.

## READING and WRITING

YOU never know what kind of book Hendrik Willem Van Loon is going to write next, but it's always a safe bet it will be unusual and entertaining. Who else would think of having Shakespeare, George Washington, Confucius and other immortals as his dinner guests, and then writing about such occasions in a book? Well, here's the book—"Van Loon's Lives"—illustrated with the old master's drawings.

The book tells how Hendrik Willem and his good friend, Fritz, entertained their celebrated guests at the author's ancestral home in the village of Veere, on the Dutch coast. For each occasion the hosts try to prepare repasts such as their honored guests most enjoyed in their earthly existence. Now and then they add a few modern touches. They discover, for instance, that the Dutch humanist, Erasmus, is devoted to chocolate bars. Hans Christian Andersen likes pineapple ice cream—three quarts of it.

On one occasion their guests are Peter the Great of Russia and Charles XII of Sweden, who turn out to be as mortal enemies in their after-life as they were in their own age. Peter is fascinated by modern contraptions such as the radio and the telephone—he's not content until he puts through a long-distance call to Russia on the latter. But his ebullience is offset by the glumness of Charles XII. The dinner party ends with a ghostly duel on the green.

A most charming evening was forthcoming when Mozart, Hans Christian Andersen and Saint Francis were guests, Mozart attended by his dog, Anderson by the swan who had once been the Ugly Duckling.

Of course all the birds showed up for Saint Francis. Another delightful occasion was a picnic for the Bachs and the Breughels, during which the Bachs played and the Breughels painted.

The biggest surprise comes the night they send an invitation to The Greatest Inventor of All Time. They think maybe Edison will show up, or perhaps one of the Wright brothers; but not at all. The fellow who finally makes his appearance is half-man, half-ape. He's the chap who invented the first stone knife and thus taught men how to defend themselves against the rest of creation.

The Book of the Month Club selection for November will be "Look to the Mountain," a novel of pre-Revolutionary New Hampshire, by Le Grand Cannon, Jr.

Changing names is often very hard on a man's morale. Louis Adams tells us in his latest book, "What's Your Name?" For instance, there was the Russian immigrant named Mr. Kobotchnik, who at the instance of his wife and children, became Mr. Cabot. For the 37 years he was Cabot, the man felt he was living a falsehood, that he had lost contact with his essential identity. As the end of that time, in a fit of rebellion, he changed his name back to Kobotchnik—and then he was happy again. Even worse was the plight of his dog, Nurmil. Named after a famous Finnish runner, Nurmil, the same wife and children decided, should be renamed "Buster." Under this indignity, the dog went into complete neurosis, ending up by running away to the home of the original owner.

## Poultry, Swine School For Farmers Started At Maytown School

Langley, Ky., Oct. 22 (Sp.)—An evening school in poultry production and home gardening for farmers has been arranged here. It was decided to hold a series of 10 meetings which will be held each Monday night at 7 o'clock in the high school. The list of problems to be discussed as outlined by the farmers present are:

Importance of Good Production; Culling the Laying Flock; Feeding the Laying Flock; Providing Feeders, Waterers and Nests; Controlling

Parasites; Controlling Diseases; Keeping Records; Marketing Eggs; Securing Chicks; Brooding the Chicks; Marketing Poultry; Deciding the Best Breed for the Community; Growing Out Pullets.

The swine problem will be outlined later. The meetings are free to interested farmers and their wives. The meetings are conducted under a conference basis, permitting every one to relate his experience in raising poultry and swine, and to mention any problems which have given him difficulty.

## TRAVEL BULLETIN TODAY'S ROADS

Prepared By Eastern Kentucky Automobile Club

### GOOD DRIVING

MOTORISTS—Do you know whether or not you're a good driver? There's one sure way to test yourself in a hurry—and that is to see how long you can drive without making an emergency stop. If you find yourself getting into situations where emergency stops are necessary, you're not a good driver. By not anticipating what may happen in the next few seconds, you're exposing yourself to accidents, and, incidentally, you're wasting a lot of rubber and gasoline. Wartime transportation demands good drivers. Test your driving the next time you drive—it may save you an accident!

"IF YOU MUST HURRY—DO SO BEFORE STARTING."

TODAY'S ROADS—KENTUCKY

U.S. 27—Newport-Falmouth road. Under construction. Short delay provided.

KY. 80—Between Russell Springs and Columbia. Delays in poor condition, and practically impassable in wet weather. Bypass through traffic on KY. 90.

U.S. 31—Closed between Elizabethtown and Horse Cave due to construction at Upton.

U.S. 31—Bowling Green to Franklin. Closed. Delay necessary.

U.S. 31—Traffic going south from Bardonia to Nashville is warned of military traffic likely to be encountered. Possible delays from 10 minutes to 10 hours.

### Opening Date of Hunting Season Remains Same

Although many sportsmen had petitioned the Division of Game and Fish and Governor Keen Johnson to have opening of the hunting season moved from Nov. 24 up to Nov. 10 in order to allow a few days of unrestricted travel in hunting before the rationing of gasoline goes into effect on Nov. 22, the date will remain unchanged.

The change was studied carefully by the Governor and by officials of the Division of Game and Fish, S. A. Wakefield, director, pointed out, and it was found that there is no possibility of changing the open or closed seasons of hunting and fishing in Kentucky except by an act of the legislature. The Governor does not have the power to act in such matters nor does the Division and for that reason rabbit and quail hunting will have to wait until after the gas rationing goes into effect, he added.

Sportsmen's clubs throughout the state are urging all hunters and fishermen and interested conservationists to purchase a license, even though they may not get the opportunity to hunt or fish. The Division of Game and Fish operates solely on the revenue derived from the sale of hunting and fishing licenses and a sharp curtailment of revenue will mean a sharp curtailment in the conservation program throughout the Commonwealth during the coming year.

## HERE'S HOW MORE NEW TAXES ARE TO BE COLLECTED

Commissioner of Internal Revenue Guy T. Hovington this week called attention to the new federal excise tax on the transportation of property, imposed under the recently-enacted Revenue Act of 1942, and to the increases made by that act in the existing rates of excise taxes on the transportation of persons and on telegraph and telephone service.

The Commissioner also pointed out a number of other changes made by the law which affect the present rates on coin-operated amusement and gaming devices and on lubricating oil, rubber articles, electrical signs, optical equipment, and commercial washing machines.

The new tax on the transportation of property becomes effective December 1, 1942, and applies to the amounts paid for transporting property by rail, motor vehicle, water, air, from one point in the United States to another. The rate of tax is 3 per cent of the amount paid, except that in the case of coal the rate is 4 cents per short ton.

Effective Nov. 1, 1942, the existing rates of tax on amounts paid for the transportation of persons by rail, motor vehicle, water, air, and on berths and seats furnished in connection with such transportation, will be increased from 10 to 15 per cent of the amount paid.

The increases in the rates of tax on telegraph and telephone service and the effective dates of such increases are as follows: Effective November 1, 1942, the rate of tax on telegraph, cable, or radio dispatches or messages (except international dispatches or messages) has been increased from 10 to 15 per cent, and the rate of tax on telephone and radio telephone charges on tolls of 25 cents or more has been changed from the present rate of 5 cents for each 50 cents of the charge to a straight 20 per cent rate; effective Nov. 2, 1942, the rate of tax on local telephone service is increased from 6 per cent to 10 per cent, and the rate on leased wire, teletypewriter, and talking circuit special service has been increased from 10 per cent to 15 per cent.

Effective Nov. 1, 1942, the rate of the manufacturers' excise tax on lubricating oil is also increased from 4 1/2 cents to 5 cents per gallon. One of the changes made in the tax on coin-operated amusement devices, the Commissioner said, will be of special interest to proprietors of restaurants, bars, taverns, penny arcades, and similar establishments. This is the provision which broadens the scope of the existing tax on so-called "pin-ball" and other similar coin-operated amusement machines operated by the insertion of a coin, token, or similar object. This rate of tax will become effective Nov. 1, and will have the effect of bringing within the scope of this tax the so-called "juke boxes" and all other types of coin-operated amusement or music machines. The tax is at the rate of 10 per cent on each machine and is payable by the person maintaining the machine for use or permitting its use on the premises.

The Commissioner emphasized that proprietors of restaurants, bars, taverns, penny arcades, and other establishments having one or more amusement or music machines on their premises on which tax has not heretofore been paid should communicate with the Collector of Internal Revenue for their district as

soon as possible with a view to securing the necessary forms and satisfying their liability to the tax.

Another change made by the Act was to increase the rate of tax on coin-operated gaming devices from \$50 to \$100 a year. This change, however, does not become effective until July 1, 1943.

All the changes made in the various taxes, the Commissioner stated, will be made the subject of regulations soon to be issued.

# BLACK CATS WIN, 33-7

## Over Wheelwright 11 And Thud Win Floyd Grid Championship

Prestonsburg's Black Cat had an easy time of it Saturday afternoon in winning their second game of the season with the Wheelwright Minors their victims, and the winning establishing them as Floyd gridiron champs of 1942. The score, Prestonsburg, 33, Wheelwright, 7.

The first quarter was scoreless, but the Cats broke loose in the second with three touchdowns. With Capelli, Combs and Spurlock as leaders with strong running to put the ball in scoring position. May and Miller led the touchdown parade, the former going for three times for scores and the game and Miller scoring twice.

Miller's line plunge following a 50-yard scamper by Capelli earned the winning touchdown. Soon afterward, May took a Wheelwright punt and behind line blocking led by Preston dashed 50 yards to the touchdown. May's second score of the period came on a 10-yard run following a 30-yard gain by Miller.

In the third quarter Miller scored again on a slashing drive through the line, and May made his third crossing of the goal line in the same drive.

Wheelwright scored in the last quarter on successive line smashes in which Blackburn looked particularly good.

Capelli annexed two of the three Cat extra points with line punks, and May added the other through the line.

In the Prestonsburg line club played well and was in on a large number of tackles, James did good work as blocking back.

The team came out of the halftime with several injuries, most serious of which was ankle by Berkley Sturgill, whose study was twisted. The Cats, however, should be in condition for the big game here Saturday with K.M.I.

## Washington Merry-Go-Round

by DREW PEARSON

Washington, D. C.

**WOMEN INFLUENCE HISTORY**  
All through history, from Helen of Troy to the Duchess of Windsor, women have influenced the tides of fate. And if it had not been for a woman in the life of General Douglas MacArthur he probably would not have been in a position to perform his heroic defense of the Philippines and command Australia today.

Just after the last war, the belle of Washington society was vivacious Louise Brooks, stepdaughter of the millionaire Edward T. Sweeney, a partner of J. P. Morgan. She was the toast of Washington. General Pershing, just returned from France, was one of her most devoted attendants. Admiral Beatty, hero of the battle of Jutland, was another.

Once, after a dinner at Mrs. Marshall Field's both Pershing and Beatty escorted Louise to her car, nearly had an altercation over who was to take her home.

But General MacArthur, then superintendent of West Point, stepped in and married the lady. Shortly thereafter, General Pershing, not at all happy over MacArthur's victory, transferred him to the Philippines.

MacArthur and his wife were stationed in the Philippines for several years. And although the marriage later ended in divorce, it was MacArthur's tour of duty in Manila which acquainted him with Filipino leaders and later brought about his return as field marshal of the Philippine army.

**BORRED BY WASHINGTON**  
As a reward for selling \$25,000 worth of war savings bonds and stamps, Delbert H. Riley, of New York, recently was given a free trip to the nation's capital by the Kiwanis club.

For several days young Delbert led the life of Riley. He was entertained by Vice President Wallace, U. S. senators and high treasury officials. He lived in an expensive hotel, toured all the showplaces and polished off numerous ice cream sodas.

"Well, Delbert," asked Sen. Pat McCarran of Nevada when it was all over, "what do you like best about Washington?"

"My bed," yawned Delbert, "I'm tired."

**SOLOMON ATTACK—A TEST**  
Inside fact about the attack on the Solomon Islands is that it was very carefully planned six weeks in advance, and was different from any other naval action in the Pacific.

U. S. naval raids on the Gilbert and Marshall Islands were hit and run affairs. There was no plan, no idea of enemy strength, but depended on quick surprise hits and speedy withdrawal.

In the battle of the Coral Sea also, we were able to take the Japs by surprise. And in the battle of Midway, we knew the enemy was coming, while the Japs did not know we knew.

But in the Solomon Islands battle, our reconnaissance planes had made advance surveys and we knew fairly accurately the size of the enemy—how also that we were against a tough job that would exact heavy cost.

There is every reason to believe, too, that the Japs knew about our preparations, because troop transports could be loaded and brought within striking distance without any scouting planes sighting them. Therefore, this was a real test in no way less than one.

For instance, this was the first time land, air and sea forces all have co-operated in a single strike force.

By the final outcome of that co-operation will depend whether the United States follows the advice of those high army-navy strategists and concentrates more on the Pacific than on Europe.

**BRITAIN'S FUTURE**  
A U. S. official, back from London, tells of strange in line for bread in the West Wallford. Just about 100,000 heard an English lady say:

"After this war is over, we'll have to fight a war of independence to save ourselves from becoming the new state of the United States."

This unscrupulous, semi-groaning attitude, according to American friends from London, is rather typical of the aggression which exists as to what will happen to Britain after the war.

There is no hostility in this, but a realistic awareness that the war is strengthening United States ties, and weakening British ties, with Australia, Canada and Africa.

**MERRY-GO-ROUND**  
Not satisfied with 100 per cent participation in the war savings campaign, the doughboys bought a \$25 bond for their mascot, "Blackout," a tiny black dog. When "Blackout's" bond comes due, the money will go to the SPCA.

Even the lepers are suffering from the shipping shortage. The high commissioner of Guadeloupe, French West Indies, has asked U. S. assistance to get 500 kilograms of oil from Brazil, needed for treating lepers.

## HERE'S ONE WAY TO SOLVE THE FARM WORK PROBLEM

Mrs. Elma Trunnell, a farmer's wife in McLean county, has demonstrated what a woman can do to help in the labor situation. Here are some of the things she has done this summer:

She helped put out and harvest the tobacco, including setting, hoeing, suckering, worming, spraying, cutting and putting it into the bays. She will also help strip it. She played the tobacco corn and hemp crops, and helped cut, shock and thresh the latter.

When the time came to harvest the hay, she helped by cutting, mowing and raking it, then with the baling.

In addition she worked in a co-operative cannery in the county by packing tomatoes and labeling cans. In her own garden she grew 23 varieties of vegetables, then canned 565 quarts of vegetables and fruit.

### Lackey-Garrett Club In Meeting Friday

At the home of Mrs. J. P. C. Raymond, Mrs. Elizabeth Claypool was hostess to the Lackey-Garrett Women's Club, Friday.

Mrs. Charles Sturgill presided over the business session. Mrs. Chas. Hornsby, the treasurer, reported a favorable balance in the treasury—part to be used in buying a \$100 Bond.

Mrs. Crittenden Wells presented the program, "Women in Service" was the subject. The various calls for women were discussed. The WAACS, the WAVES Squadron Service and nurses for duty were cited by members of the club.

Congressman A. J. May, who had earlier in the evening, addressed a meeting at the theater, spoke to the club, stressing loyalty to the administration.

A social hour was then enjoyed and light lunch was served to 14 members.

### CONDITION IMPROVED

David—"Big" Riley, Shepherd, who recently submitted to amputation of a foot at the Paintsville hospital after months of suffering of diabetes, was reported this week as "doing very well." Included among recent visitors were his daughter, Mrs. Nellie Shepherd, Mr. Shepherd and daughter, of Mt. Sterling, Ky.; Rhoda Shepherd, of David, and Mabel Shepherd, now of New London, Ohio.

## AN OPEN LETTER TO OUR READERS

Dear Readers:

A week or so ago this newspaper was so wrapped up in helping the Scrap Metal Drive along to a successful close that it took less time than it should have to observe the special week set aside for itself and the other newspapers of the nation—National Newspaper Week.

National and state leaders, including President Roosevelt and Governor Johnson, took time to cite the importance and value of the press to the American way of life, but the newspapers themselves were so busy aiding the government's Scrap Drive that some of us passed by our own week of observance.

But we're not sorry. The Scrap Drive results were well worth it. Co-operation and working together did the trick. And that's what will win this war—co-operation and hard work together!

The federal government asked the newspapers of the nation to help put the Scrap Metal Drive "over the top" and the job has been done with the cheerful aid of every one of you—men, women, children, young and old—all pitching in and working together for the biggest, most important cause in the world. The protection of the American way of life and the defense of freedom all over the world!

For that "job well done" federal officials, local Scrap Drive leaders, and this newspaper heartily thank you. You have answered the "call to arms" on the home front with an all-out effort and now stand ready for any further job your government may ask of you.

In cooperation with the federal government and Scrap Drive leaders in the vital campaign, this newspaper contributed the following:

	Column Inches
News stories	148
Editorials	75
Pictures	43
Free Advertising	283
<b>Total</b>	<b>549</b>
(or approximately four full pages)	

As our part in recognition of National Newspaper Week, The Floyd County Times asks that you, as a reader and community citizen, remember the part this newspaper plays in the life of this community by offering you news of the people you know, shopping services through advertisements, opinion on questions of the day, interesting columns and stories, and many other useful services in your week-by-week life.

Your right to read the news in a free press is part of our democracy and our way of life. And if your government through this and other newspapers of the nation calls you again to tackle jobs like the Scrap Drive, we know you'll be ready with your sleeves rolled up. That also is a part of democracy! Let's not lose it.

Sincerely yours,

Norman Allen, Editor

# Fight! Work! and Save!

A War Message on WAR BONDS

from the President of the United States

"... The American people know that if we would raise the billions which we now need to pay for the war and at the same time prevent a disastrous rise in the cost of living, we shall have to double and more than double the scale of our savings.

"Every dime and dollar not vitally needed for absolute necessities should go into WAR BONDS and STAMPS to add to the striking power of our armed forces.

"If these purchases are to have a material effect in restraining price increases they must be made out of current income.

"In almost every individual case they should be big enough to mean rigid self-denial, a substantial reduction for most of us in the scale of expenditure that is comfortable and easy for us.

"We cannot fight this war, we cannot exert our maximum effort, on a spend-as-usual basis.

"We cannot have all we want if our soldiers and sailors are to have all they need."

Nylon News.

Coffee Rationing.  
Zoot Zoots.

The ladies-bless 'em—get a special bit of attention this week from the Office of Price Administration. If they will write to that office at Washington, D. C., they will be given a card that can be ticked from their purses when they go out to shop for nylon hose. The card will list the new ceiling prices on all types of nylons and will show the facts on type and quality which must be marked on each pair.

The OPA says that in order to get so many stockings as possible out of the limited supply of nylon, the manufacturers need all the yarn sizes available, so many of the hose come in odd centers and gauges and many have been made with cotton or rayon foot and welt.

Denier refers to the size and weight of the hosiery yarn and gauge refers to the fineness of the knit. Denier and gauge must be judged together. For instance, a 60-to-70 denier should be combined with a 42 or 44 gauge. In general, the lower the denier, the sheerer the yarn, the higher the gauge; the finer the knit, the finer the gauge.

For serviceability, the OPA recommends the heavier denier that a woman can reconcile with her taste in stockings.

There's a lot more to the matter of intelligent and thrifty buying of nylon hose, but the men may be getting impatient for other reading, so we'll turn to different things after just mentioning that the national collection of worn and discarded silk and nylon stockings will begin on Nov. 16. Collection centers will be established in all retail stores having a women's and misses' hosiery department. The collection centers will take clean but useless hosiery and start it on its way toward a future as a powder bag for battle use.

New and unusual clauses designed to break federal rent ceilings are creeping into leases throughout the country, OPA charges. Those clauses can be enforced, even if written into the lease.

The OPA released about 27,457 new passenger automobiles under rationing in September. Transportation for war workers accounted for nearly half.

New ceiling prices have been set for used and reconditioned cars. The government under the idle return plan. Many grades have been changed, but a number of price increases have been allowed.

Truckers may obtain application blanks for certificates of war necessity from their district OPA offices. Nov. 15 is the deadline. After that—no gasoline, tires or repair parts without a certificate.

To help keep Americans warm this winter, the WPB has ordered an

additional 5,000,000 pounds of wool made available for manufacture of sweaters, shawls and knitted underwear.

The OPA has issued suspension orders against three Ohio tire dealers. They may not deal in rationed articles for extended periods. Cleveland, Canton and Cincinnati dealers were hit.

Applications for gasoline rationing books must be made by the registered owner of the car. The wording on the application blanks made the meaning uncertain to many persons, so the OPA has issued a ruling.

The world's largest oil pipe line will be extended from southern Illinois to the east coast. The 81-mile \$60,000,000 extension will cross Indiana from Morris City, Ill. and extend through Ohio to Phenixville, Pa. Branch lines will extend from there to New York and Philadelphia areas. About 300,000 barrels of crude oil will be delivered daily.

All new farm machinery and equipment and repair parts were frozen Nov. 1. The order will remain in effect until state and county quotas are established as a basis for a permanent rationing order.

Coffee rationing, starting at midnight, Nov. 28, will set the amount of beverage available to the coffee drinker at about 38 per cent less than his average of the last five years, the OPA says. Proper conservation methods in the home can make coffee go farther, however, and thus make the reduction less than that figure. The ration will be one pound every five weeks.

Zoot Zoots are dead for the duration. The death knell already had been sounded for them when made of wool, but a new order covers all other material.

Fruit and vegetable pickers have been assigned higher preference ratings for materials and machinery for replacement, maintenance and repair.

Distribution of applications for gasoline rationing books has begun. You will need to know the number of

your tires. You'll have to part with all over five tires.

To insure continued supplies of holiday and seasonal food products, the OPA has announced a new pricing formula by which wholesalers and retailers will be able to restock their shelves with these goods before the actual holiday sales period. Plum puddings, cookies, mince meat and stuffed dried fruits are among the items included.

Sugar rations for army and navy men on furlough have been set at one-half pound per week. Another change gives a man on furlough a ration if he is home only a week.

Current production of diabetes is more than sufficient to take care of the increasing national birth rate. The 1941-42 production was an average of 30 per cent over 1935.

The WPB has appealed to consumers to economize in the use of both natural and manufactured gas. War industries are using more gas. Twenty-five per cent of the natural gas and 15 per cent of the manufactured gas is used by war industries and these must be served.

The War Manpower Commission has moved to stabilize employment on the nation's dairy, livestock and poultry farms. The Selective Service system will request boards to classify in Group 3-B workers on these farms who have been deferred because of dependency. Deferments also will be asked for men on these farms who do not have dependency problems.

Retailers who have been purchasing the top of vacuum-packed coffee cans to discourage hoarding have been taking a reasonable course in preventing excessive buying, the OPA says.

The regional OPA has appointed Wilson O. Stapp of Cleveland as its regional information executive. He will work with consumer groups, trade organizations and schools among other duties.

Men Hall precincts for May, one for Chandler and one for Colbert.

In Knott county's Lower Beaver precinct, it was alleged, there was no election as a result of the ballots having been voted before opening of the polls. Democratic headquarters here said more than 300 ballots there were cast for Dr. Gabbard.

A statement from Dr. Gabbard was not available Thursday. Mr. May left for Washington Wednesday afternoon, shortly after the vote count over the district was completed.

A standardized Red Cross first aid course is being taught to 27 members by Mrs. Jane R. Combs, senior sponsor. All chapel programs have been planned on the patriotic motif. Chase Elliott was honored at the program held day before his army induction.

The juniors sponsored a scrap key drive to collect valuable metals used in the production of the "Buddy Bags" for the U. S. men in service. They are also collecting old phonograph records, a movement sponsored by the Appalachian Legion.

The freshmen are collecting cancelled stamps, which are turned over to the Daughters of the American Revolution. The school has actively participated in two scrap metal drives. A large class in aerobics provides the training needed for future cadets.

The Home Economics department is helping to fold surgical dressings for the Red Cross, one day a week.

Again We Look To Our FIGHTING YANKS

It has been 24 years since that November 11th we originally observed as Armistice Day. And again our Fighting Yanks are shedding their blood in the cause of freedom, tolerance and decency on world-wide battlefronts.

Just as the Yanks swung the tide to glorious victory in 1918, so will our soldiers and marines carry on relentlessly to finally smash the dictators who would enslave the world today.

So let's pause on Armistice Day and pay deserved tribute to our Fighting Yanks—to the heroes of today, as well as to the heroes of 1918.

## FLOYD COUNTY GOES TO WAR

Where Floyd Countians in Armed Forces Are, What They're Doing Told

John H. Spradlin, Jr., son of Mr. and Mrs. J. H. Spradlin, of Ohio, was graduated recently from the Hospital Corps School at the U. S. Naval Hospital, Great Lakes, Illinois. Spradlin, one of a class of 498 men, is now rated as a hospital apprentice, second class.

Charles Thomas Hall, of Auxier, has joined the Marine Corps and is now stationed at Parris Island, S. C. He is the son of Mr. and Mrs. Lonnie Hall, of Auxier.

Pvt. Sherill Frazier, former teacher in the Floyd county schools, and a son of Mr. and Mrs. Melvin Frazier, of Cracker, has completed his eight weeks' basic training at Camp Robinson, Ark., and now is in the Classification Department, Hq. and Hq. Battery, AAA, TC, Camp Davis, N. C. His wife has joined him there and they may reside at Wilmington, North Carolina.

From Camp Livingston, La., comes an interesting letter, jointly signed by Floyd countians Edgel Allen, Rex Gearheart and Edward Dawhaze.

Orville Thomas Scutcheff, 20, son of Mr. and Mrs. Beckham Scutcheff, Water Gap, is now going through the first steps towards becoming a sea-going fighter in the U. S. Navy. He reported to the U. S. Naval Training Station at Great Lakes, Ill., last week to begin recruit training.

Word has been received by Mr. and Mrs. Ballard Hord, West Prestonsburg, that their son, Ballard Clinton Hord, is now a first class naval apprentice.

Ready to begin his basic training course which, when completed, will qualify him for duty with the Armored Force, Pvt. James B. Pilecki, Jr., son of Cynthia E. Pilecki, of Weeksville, has arrived at the Armored Force Replacement Training Center, Ft. Thomas, Ky., in preparation to duty with the newest and fastest-moving land force of the army.

The following newly inducted personnel of the United States Army have been sent forward from the Reception Center at Fort Thomas, Ky., to the stations and addresses indicated:

To 32nd Medical Battalion, Gas Treatment, Camp Butler, N. C.: Claude L. McKenna, Auxier; Edward Yates, Honaker; Everett E. Osborn, West Prestonsburg; Troy Bentley, Beaver; Haskell Crum, Betsy Layne; Andrew Fraunce, Bonanza; Otis Fraunce, Grethel; Kelly Fraunce, Pyramid; Junior Hackworth, Brainerd; Bill Hall, III, Amber; Elsie Hamilton, Treaberry; Thomas E. Lewis, Betsy Layne.

To Chemical Warfare Service RTC, Gadsden, Ala.—Warren G. Blackburn, Endicott.

To 375th Military Police, Ego Co., Florence, Ariz.—John E. Harris, Emma; Ira E. Ward, Whartright.

To Tank Destroyer RTC, Camp Hood, Texas—Joe W. Horn, Prestonsburg; Lewis Robinson, Jr., West Prestonsburg; John Spradlin, Prestonsburg.

To Ordnance RTC, Aberdeen Proving Grounds, Md.—Thomas R. Leaster, Prestonsburg.

To Field Artillery RTC, Ft. Bragg, N. C.—Eara Robinson, Auxier; Chadwick Spears, Banner.

To American Air Force, RTC, Atlantic City, N. J.—Dick E. Mayo, Prestonsburg.

To 3rd Division, Camp Atterbury, Ind.—Frank Boyd, Allen; Andy Thacker, Ivel.

To American Air Force, RTC, Atlantic City, N. J.—Cecil Adkins, Leaster.

To Army Air Force, RTC, Jefferson Barracks, Mo.—Dewey Conn, Printer.

To 3rd Division, Camp Atterbury, Ind.—William W. Scruggs, Wayland; O. C. Hunt, Banner.

To 95th Evac. Hospital (MTC), Camp Breckinridge, Ky.—Oliver T. Leaster, Martin; Allen Stone, Blue River.

CITIZENS:—Several people in this locality have wanted to know why I have had my "say" on the wet-dry issue in this county. Well, I've written it twice, but the editor sees it isn't fair to one side to pay for their "say" and get my "say" free. He is right, as usual, and I'm doing just like the others—cash on the barrel-head for this.

First, I would like to say that it is absolutely impossible to vote Floyd county dry. Didn't we try prohibition a few short years ago? And there was more liquor or "rot gut" then than there is now. You cannot legislate people not to drink, but you can educate. True, you can vote the legal liquor places out, and for every one that closes there will be 24 bootleggers taking their place. And the bootlegger doesn't cut the minors if they have the money.

I want to say that whoever put those dry ads in the paper was wrong on every count, and I have won to the court records to prove it. There were more convictions in police and magistrate's courts for being drunk during Prohibition than there is now. Murder was rampant in Floyd county during Prohibition. Take one session during Judge Wheeler's term and there were over 40 murder cases on the docket. It runs about three or four now. The police court in Martin during Prohibition averaged almost 18 drunk cases every Sunday morning. Now, the average Sunday is four.

People are learning temperance. But when they buy from a bootlegger they usually buy a half-gallon instead of a half-pint in the legal liquor store.

Now about the money spent for whiskey and just one-sixteenth going to the government for taxes. The liquor bill will double when the bootlegger has no legal competition. He just charges what he wants to and the government gets absolutely no revenue out of him. Yet look what an enormous sum it will take to try to convict and punish the bootleggers who are caught.

True, we want to bring back the Speakeasies, Blind Tigers and Hell Holes of the 1920's. That's just what will happen if this county is voted wet. The law never gets into a Speakeasy while all legal liquor stores are public. It would be all right if voting would make Floyd county dry, but that is not possible. We already know it cannot be done.

Just being downright personal about it—I'm not interested—Wet or Dry. If I want a drink, I'll get it. If I don't, I'll leave it alone. I grew up during Prohibition and I just don't want my children subject to the evils of that era.

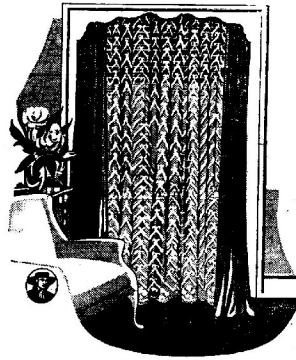

The honky-tonks are a present-day menace, but they can be policed. But let me tell you people, the toughest honky-tonk in these mountains is just a Sunday School picnic, compared to the old Speakeasy. If anyone doubts this, I'll go

No, people, it won't run the vote out of Floyd county—the bootlegger will deluge it, just like he used to. And, remember, citizens, I didn't write this to try to change anyone's vote. We're fighting now for our free Privileges. Vote the way you please—I will, and am damned proud that I'm an American and can. I'm just stating a few facts. Thanks.
