THE OLD GRID REPORTS

IT IS reported to be a "long way from the 'Whisper Camp's first All-American football team..."

Naturally one gets a thrill when he runs across one of the few left from that old-time outfit such as Judge Heffelfinger of Yale...

Then and Now "There isn't any question at all," Mr. Channing told me...

"In those days we never had to bother with forward passes, reverses, spinners, mousetrapping, changing defenses, wing backs, formations and a dozen things I might mention that the modern player has to face."

"We had only three factors to consider here—power, speed and durability. We never had to figure in advance all the complex things that might happen to an offense or a defense. Actually, we never had to think much. It was largely a matter of overpowering the other team by power and speed. The modern game is a far better game for everybody—players and spectators."

"We Were Tougher" "We had just one advantage over this present bunch," 1889 All-American Channing said. "Undoubtedly we were tougher. We could take more in those days we had no automobiles, no night clubs, no motion pictures, no radios, no distractions. We had only football."

"Talk about running guards. Fudge was a great running guard in 1889. And he was 33 and McMillin was 22 when they played together, yet Fudge kept saying to me, 'More speed, kid. Don't get in my way.' And McMillin was one of the best and one of the toughest in a full half way, this game ever has known."

"Fudge dislocated his right shoulder in the first play of that game, but still started through the whole distance."

"More Evidence" "I'd give you more evidence that we could take it," Channing said. "Subbie Honans was Snake Ames' substitute at fullback for Princeton. But Snake never got to play a second while Snake was around. After Snake had been graduated, Honans was All-American for two years at fullback, and in 18 games his substitute never got into a game—not even for a play."

"We were 60-minute players then. I mean all of us. Heffelfinger, Bare Ames, Slagg—don't forget Slagg. At 80 he is still just as active, just as active as he was when he was over 30 years old."

"I'd like to tell you more about such great players as Snake Ames, Frank Hinkley, Minkley weighed a hundred and fifty pounds, and they thought he was too tough. He put 100 per cent of everything he had in every play he made, and he and Ames and Heffelfinger and Thorne and many others."

"At that time the softening influence of modern civilization hadn't come along to help kill off our legs and our stamina. Certainly, the kids today are just as game as we ever were. And they are football smarter."

FLOYD COUNTY GOES TO WAR

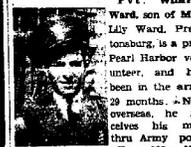

Where Floyd Countians in Armed Forces Are, What They're Doing

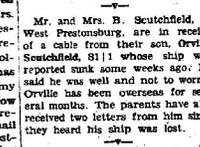

Sgt. Virgil L. Oney, son of Mr. and Mrs. W. M. Oney, of Eastern, successfully made his fifth and qualifying parachute jump Friday night at Ft. Benning, Georgia. This tactical night jump completed his parachute jump training which lasted the standard four weeks and which included jumping from the towers 300 feet high and learning completely the technique of safe parachute drop and landing. He has earned the right to wear the coveted Wings and Book of the U. S. Army's most modern soldier, the Paratrooper.

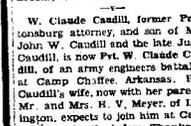

Pvt. Jack C. Rollins, son of Mr. and Mrs. Buford Rollins, of Wayland, has been assigned to the Technical School, Army Air Forces Training Command, Sioux Falls, S. D., for training as a radio operator-mechanic. Upon completion of a 26-week course, he will be trained to take his place as a member of a highly skilled bomber crew of the army air forces. He was graduated from Wayland high school May 29, this year, and entered the army June 30.

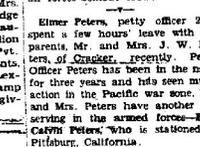

Mr. and Mrs. B. Scutcheff, of West Prestonsburg, are in receipt of a cable from their son, Orville Scutcheff, 8111 whose ship was reported sunk some weeks ago. He said he was well and not to worry. Orville has been overseas for several months. The parents have also received two letters from him since they heard his ship was lost.

Sgt. Dewey Conan, of Printer, has successfully completed the flexible aerial gunnery course at the Army Air Forces Flexible Gunnery School, Laredo Army Air Field, Laredo, Texas. Upon graduation, he was promoted to his present rank and received the aerial gunnery wings. Conan will now assume an important position as a member of an army air forces combat crew.

Arthur J. Archer, Jr., son of Mr. Mrs. A. J. Archer, Prestonsburg, apprentice seaman with the coast guard, is now stationed at the Maritime Base training station, Brooklyn, N. Y.

W. Claude Casdill, former Prestonsburg attorney and son of Mrs. John W. Candill and the late Judge Casdill, is now Pvt. W. Claude Casdill, of an army engineers battalion at Camp Chaffee, Arkansas. Sgt. Casdill's wife, now with her parents, Mr. and Mrs. H. V. Meyer, of Lexington, expects to join him at Camp Chaffee shortly before Thanksgiving.

Here's Word from Bill!

... and tell my old gang down at the Telephone Company that I'm thinking of them. I see tons of telephone materials every day over here—in the form of tanks, shells and field communications equipment. We need a steady stream of these supplies to use—and being a telephone man, I know that telephone lines have to carry many calls affecting production and transportation of fighting equipment. So I hope you homefolks are helping to keep the wires clear, for war calls which MUST go through. Love, BILL

The following newly inducted personnel of the Army have been sent forward from the reception center at Fort Thomas, Ky., to the stations and addresses indicated:
To Infantry RTC, Camp Wheeler, Ga.—Clarence D. Ford, Wayne; John Maynard, Wheelwright; Dofey Vance, Melvin.
To Military Police RTC, Fort Cavazos, Texas—Charles W. Blackburn, Thomas.
To Field Artillery RTC, Fort Sill, Okla.—Oscar Francis, Allen.

Fellows like Bill Jones—on the fighting front—know what they're talking about when they say that Victory depends upon an unceasing flow of supplies. And at home, those directing the war effort rely on the telephones to keep munitions and men moving forward.

These urgent calls pass through the same local telephone equipment you use. Yet facilities can't be expanded to meet demands fully, because the necessary materials are being made into planes, tanks and guns.

By avoiding unnecessary local calls—and by speaking briefly whenever you talk—you help relieve crowded lines and switchboards for war duty. In that way you help speed vital war calls.

From where I sit...
by Joe Marsh

Went by Will Dudley's farm a week or so ago and found him stripping his tobacco. It was mighty cold in that stripping room, and Bert looked dog tired. His son's gone in the army and he needed help. But he was whistling at his work and his face lit up when he saw me. "Just a few minutes," he said, "and I'm through." Will's a typical Kentuckian. You can't get him down. He's doing the work of three men on that farm of his. But Kentuckians aren't afraid to pitch into a hard job and see it through, whether it's fighting or farming. And after the work's done, they like a bit of sociability for relaxing. To sit with neighbors and argue crops and politics—especially politics! And maybe drink a moderate glass of cool beer. From where I sit, it looks like most Kentuckians know that moderation in living is pleasant and worth-while.

Mixit Rites Conducted From Church Here

Funeral rites for Robert Mixit, 46 years old, who died at his home here Thursday, last week of a heart attack, were conducted Sunday morning from the Freewill Baptist Church, the Rev. Isaac Stratton officiating. Burial was made here under direction of the Arnold Funeral Home.

Mr. Mixit was the son of Grant and Josie Stuber Mixit, and was born in Macon county. He is survived by his widow, Mrs. Mamma Craft Mixit, four daughters and one son. Mitted, Pauline Dorothy and Mary Ann, all of Prestonsburg, Ky. J. D. Mixit oversees with the army. He also leaves one brother, Add Mixit, Leslie, Mich., and one sister, Mrs. Jim Grace, of Salyersville, also many friends and relatives.

CARD OF THANKS

For myself, my children and others of my immediate family I wish to express deepest gratitude to all those who rendered assistance in any way upon the death of my wife and daughter at Pikeville, Ky. I would especially thank my neighbors at Pikeville and Pad, also those who sent floral offerings and the ministers for their words of consolation.

IN ASHLAND

Mrs. Hoover Harrington and son Donald were in Ashland last week visiting her sister, Mrs. Walter Slambough, and Mr. Slambough.

Five farmers purchased 25 bushels of Thorne wheat seed, the first to grow this variety in Allen county.

The church was established in 1835 by the Hunts. Differences of opinion arose after the Rev. Harper conducted a series of meetings at Martin.

The opinion declared that in cases of self-governing churches the law upheld the will of the majority, except that it provided protection for minorities in cases where the majority was "radically and fundamentally" different, and added:

"We are of the opinion there was such departure from the faith of the founders of the church at Martin as calls for the protection of the property rights of the minority by the courts."

Since the break the church has been known by two names, the Hunt group calling it the "Christian Church" and the Harper faction naming it "the Church of Christ."

On the same day the Martin church opinion was delivered the Court of Appeals upheld the majority in the church schism case in the 114-year-old Fountain Run church where the record showed no doctrinal differences.

One Nelson county field of Kentucky 103 corn produced 197 bushels to the acre, and another field 99 bushels.

Hogging down corn helped solve labor problems for E. M. Balances and W. R. Walker, near county farmers.

*This list may be incomplete. Names of others from Floyd county who have made the supreme sacrifice are sought by Floyd Post, American Legion, Prestonsburg.

MEN ARE DYING ON THE BATTLELINES . . .
CAN YOU LIVE WITH YOURSELF ON THE SIDELINES . . .
WHEN YOU CAN SHORTEN THE WAR BY JOINING THE WAC?

An American soldier is going into battle in a foreign land. The sunrise he saw this morning may be the last he'll ever see. What are you doing—for him, for thousands like him, and for the America they're fighting for? The longer this war lasts, the more of our soldiers will have to die. What are you doing—to help shorten this war and save a lot of needless tragedies? By joining the WAC, you—an American woman—can send more strength to our armies abroad by releasing a man for combat. You can hurry the day of victory—and help bring more of our fighting men home alive.

We have just begun to win this war, but already Floyd county has lost at least 16 of its young men. What these men have sacrificed fills you with a deep indignation that never leaves you—day or night. You've wanted to do something about it—and there is something you can do—must do.

The War Department has issued a call to every state, to every county, for more WACs. The need is so urgent—that your state, your county must not fail to meet its quota. And it won't fail—if you, and scores of your patriotic state and county sisters join the WAC.

Right now, your state's own WAC company is being formed. Step into this loyal group of women—and march into the WAC under your state's own gallant flag.

Here is your opportunity to help in a way that's real and vital. Your chance to take over an essential army job—to release a soldier for combat training—and help speed victory.

Go to your nearest U. S. Army Recruiting Station (Pikeville, Ky.) or to your local Civilian Chairman, Mr. N. M. White, Jr., and get full details about your state's own WAC Company. Learn about the jobs WACs do, their training, pay, etc.

DO IT NOW! MAKE YOUR COUNTY, YOUR STATE AND YOUR COUNTRY PROUD OF YOU!

Here goes
the Electric Range that
Madge and I planned to buy!

The largest electric range manufacturer in the country is now turning stoves into bombs. Conservation of scarce materials requires this—after we have licked the Axis new skills and new machinery acquired in wartime will make better and cheaper electrical equipment available. Conservation in many ways will help bring Victory nearer and that is why the Government now asks seven major industries—coal, petroleum, transportation, gas, water, electricity and communications—to seek the cooperation of the public in avoiding waste of their products.

There is plenty of electricity, but when you save electricity you save coal and manpower and scarce materials.

Continue to use all the electricity you need for health and safety and eye-sight conservation, but don't waste it.
