BLACKSTONE
 AMERICA'S OLDEST WASHER MANUFACTURER

To the Voters of Ward No. 2:

I am now a candidate for member of the City Council. My running mate, Mr. Art Hager, and myself decided to run after we were assured we had the backing of the good people of this ward and also the town in general, because they want a change. And since I came back to this town from the army, after being away six years, and thirty-two months of that time overseas, I sure can see where we need a change.

We will not vote to hire a bunch of thugs or policemen that don't live here and pay their taxes here. We will vote to give good, sober, discreet young men that live inside the corporation limits that will do their duty jobs as policemen, men that know how to treat our neighbors when they come to this town on business or any other purpose. We will not tolerate the clubbing and beating method that has been practiced in this town as we all know. One policeman was prosecuted, jailed and fined after his boss and some members of the Council had done all they could to clear him, and another poor soldier boy was beaten up and left to lay till some citizen picked him up and took him to a hospital where he could have medical aid; then this present City Council approved it. These boys should be treated with courtesy and respect till they get back to normal again and it sure won't be done by a bunch of men waiting to wield their clubs at the first opportunity. We don't believe the citizens of this town believe in that kind of a method. We believe in law and order and freedom of the people in general. That is what we fought for. We will see to it that the police force don't let gambling go on right under their noses and other things too numerous to mention and then infringe upon the rights of us. We will see to it that every citizen and every person in business has their free and equal rights as they haven't had for the past two years.

When I came back to this town, I found it as bad as Hitlerism. We promise when we are elected members of the City Council dictatorship will vanish in this town and let the people in general have a say-so in business matters. We will do our best to get something done in this town that will give employment to the unemployed as we can see there has been nothing done and we don't believe there will ever be as long as the present City Council rules. I can say one thing—I am not a slacker and while I was fighting, facing the Jap bullets and bombs, my opponents were here at home prospering. I might have lost my life, as many of the boys did. If I had, I would have lost it for the freedom of all the people. I am very proud to have Mr. Hager as my running mate, as I have known him for years, and I have always found him to be a sober, discreet, honest business-like man fully able to help in taking care of the affairs of the city. I am a married man 24 years of age, spent six years of my life in the army of which I am very proud. Now I am a citizen of this town. You didn't have to ask me to go and fight for freedom. I volunteered. Now I am asking your vote for Mr. Hager and myself, so we can help make it a better town in which to live and raise our children. So on November 6, don't forget to vote right for James Dewey Conley and Art Hager.

Caudill Earns Award In War with Japs

AN ADVANCED BASE IN THE WESTERN PACIFIC—Pfc. Claud Caudill, 28, whose wife, Mrs. Ethel Caudill, lives at Lackey, Ky., with their daughter, was recently awarded the Combat Infantryman's badge and the Good Conduct medal, while serving as a rifleman in an infantry regiment which at that time was engaged in mopping up operations against remnants of a once powerful Jap force on this Pacific outpost.

A former student at Garrett high school, Caudill was employed as a truck driver prior to his induction at Ft. Thomas, Ky., in January, 1944. After completing basic training at Camp Croft, S. C., he embarked for the Pacific in September, 1944, and served with the 27th division until he was assigned to his organization at a South Pacific base in January. In addition to the above awards, he also holds the Asiatic-Pacific theater ribbon with a bronze battle star. B. Caudill, his father, lives at Lackey.

OUR GOLDEN OPPORTUNITY

The Big Sandy Valley Association is a non-profit organization. In addition to its officers it consists of a group of directors of representative business men located in Tazewell and Buchanan Counties in Virginia, McDowell, Mingo, Mercer, and Wayne Counties in West Virginia, and Boyd, Lawrence, Johnson, Floyd, Martin, and Pike Counties in Kentucky, all of which communities are actively and enthusiastically supporting the association's program, with the exception of those who are railroad dominated.

The objects and purposes of the Big Sandy Valley Association are to promote and encourage the development of industry, commerce, and agriculture in the valley. After much study our association decided the greatest asset to constructive industrial development is economical transportation. This study further convinced us that the most economical transportation is canalization.

Our association is enthusiastically and wholeheartedly supporting the canalization of the Big Sandy River and its two forks. It is universally believed throughout the valley that with cheap river transportation available in the valley as it is available in other valleys in Kentucky, West Virginia, and Pennsylvania, (which the people of Big Sandy Valley helped build) a great era of economic development will unfold based on the abundant high quality and diversity of raw materials known to exist in the valley. The citizenship of the valley is eager for an opportunity to assist in a program to make the natural resources render the highest service in the economic, industrial, and social upbuilding of our valley and the country.

At the Army Engineers hearing in Pikeville in 1940 I presented a paper showing in detail the general economic condition at that time. I wish to review a few of the outstanding facts:

In the six highest relief areas in the United States the Big Sandy Valley was designated as "problem number one" by the Federal Emergency Relief Administration. The number of people on relief was two and one-half times that generally of other areas. In 1939, not taking into consideration the Tug Fork, 13,225 families were receiving relief in way of work or commodities, over 30 pct. of the entire population.

I have made a further study and find from 1936 to 1940, inclusive, the Government spent for "aid" to the people of the twelve counties in the Big Sandy Valley over Sixty Five Million Dollars (\$65,000,000), the estimated cost of the canalization, and "The Big Sandy coal field, from the standpoint of quality, quantity, and accessibility is the greatest coal field in the world."

Following World War No. 1 we had in Pike County alone forty-four coal mines located on the C. & O. Railroad; in 1939 we had two left—and one of them in "receivership."

Without some form of national plan or orderly development this area will continue to present a serious social problem. This area's importance in the national economy must be recognized and it is the duty of some Government Agency to encourage the development of its resources and industry—Canalization will do both.

It is, and I think you will agree with me, the purpose and function of democratic government—of our own government—to promote "equality" of opportunity and betterment of the conditions of living for our "whole" population. One of our greatest Presidents, a Kentuckian by birth, (Abraham Lincoln), declared of

our United States Government, and I quote, "Its leading object is to elevate the conditions of man; to lift 'artificial' weights from 'all' shoulders; to clear the paths of laudable pursuit for all; to afford all an unfettered start and a fair chance in the race of life." We have learned that poverty is as dangerous as pestilence. Poverty is the negative side of our great American problem. The positive side of the same problem is "work." Unemployment constitutes a case of gradual expulsion from the social order. Idleness is the most difficult occupation to follow; human nature will not accept it. No form of Government can withstand mass unemployment. The fact is, we support each other by consuming the product of each other's labor. If the producers of coal and the producers of food do not exchange their products, then some must freeze and others go hungry. It is because we have reached an advanced stage of development in our capacity for mass production of goods, without having as yet developed any corresponding extensive methods of mass distribution of goods that we did suffer from mass employment, and will do so again unless corrected.

Coal is our principal resource. During War scarcity times people must buy coal where they can get it. When the *blood-bought boom* is over people will buy their coal from those who can put it at their door at the lowest price, which is largely controlled by the cost of transportation. Any community to function must either supply its own essentials or have something they can exchange for their essentials; otherwise the community has no economic underpinning and must either die or stay on the dole.

Seventy-five percent of the people of the Big Sandy Valley depend for a living directly or indirectly on sale of "coal." Our people are hoping and praying the Board of Engineers (meeting in Williamson, W. Va., next Monday) will recommend canalization for our river, thus insuring low cost river transportation to the consumer markets; thereby insuring that never again will it be necessary to *sacrifice the lives of our boys in order to sell our products.*

Canalization of our valley will assist during the re-conversion period and it will be an economical servant of the people in the building of a sound and constructive trade in time of peace.

As an active proponent for many years of the lock

and dam program for the Big Sandy River and its tributaries, the Levisa and Tug Forks, I am thoroughly familiar with the attitude of most of the leading citizens of the Valley, and up until coercive measures were adopted by the railways, the sentiment has been practically unanimous in favor of the project.

Coal operating companies are particularly dependent on the goodwill of the railway companies in many vital respects, such as car supply, fuel coal contracts, branch lines to new mines and mine sidings. In several cases, it is a matter of common gossip that some of the larger companies secured substantial loans either from or through the good offices of the railway companies during the depression years preceding World War II.

The railways have, therefore, been in position to coerce the Big Sandy-Elkhorn Coal Operators Association into passing a resolution unfavorable to the canalization project.

This is unfortunate and not only contradicts the widespread public approval of the project, but would seem to adversely commit many of those who have heretofore been enthusiastic proponents of the project.

It is understood that the U. S. District Engineer Office at Huntington has on file the confidential statements of many of the coal operating companies which express their true sentiments, uninfluenced by coercive railway influences. It is believed that these statements are a truer measure of sentiment among the coal people than the Resolutions of the Association heretofore referred to.

Competition is the life of trade—Competition, and not monopoly, has made America "GREAT."

The State Auditor's Office in Charleston, West Virginia, shows that the C. & O. Railroad paid in taxes, in Kanawha County, in 1935 \$188,198.31. Eight years after the river was canalized they paid \$433,055.82. In 1935 the C. & O. hauled 14 million tons of coal from the Kanawha River. Eight years after the river was canalized they hauled more than 19 million tons.

The Kanawha Coal Operators Association's records show that 16 million tons of coal was mined in the Kanawha Valley in 1937. The same records show that in 1943—25 million tons were mined. Can you "Mine" and "Haul" 9 million more tons from Kanawha Valley and "lay off" miners and railroad employees?

The Charleston Industrial District in the Kanawha River used 1 million tons of coal in 1935. Eight years after the river was canalized it used 4½ million. This means "jobs" for the people!

In the last ten years the Monongahela "River Shipments" have increased 25 million tons. The "Railroad Shipments" on the Monongahela increased 116 million tons. Were the railroads hurt?

We helped to pay for the canalization of the Monongahela, Kanawha, and other rivers. We have the "Resources," let's see that our part of the billions of dollars is spent improving the Big Sandy River.

It will cost Floyd County Taxpayers the same amount of money whether or not our valley is included in the National Program of Development.

The Big Sandy Valley has more than 500,000 people—the best Anglo-Saxon blood in America! **WAKE UP!** Join the Big Sandy Valley Association and help connect the Big Sandy River with the 5,000 miles of inland water way system that leads to all the great markets of the United States!

A MESSAGE FOR PERSONS LIVING IN RURAL AREAS

Rural telephone service is more highly developed in this country than anywhere else in the world. We are developing a wide-range program to further extend and improve service to rural dwellers in the South.

As soon as conditions permit, the necessary manpower and equipment will again be put to work on the job of expanding rural service—just as we were busily engaged in expanding this service prior to the war.

The goal is to bring the telephone to the greatest possible number of farm families.

COMMISSIONER'S SALE

FLOYD CIRCUIT COURT

Plaintiff Supply & Planing Mill Co., vs. Defendant Dandee Newsome, Pearl Newsome, Little Clark, Joe Johnson and Pannie Johnson, Defendants.

By virtue of a judgment and order of sale of the Floyd Circuit Court rendered and entered at the September term, 1945, in the above-styled cause I shall proceed to offer for sale at the courthouse door in Prestonsburg, Ky., to the highest and best bidder, at public auction, on the 22nd day of October, 1945, at 1 o'clock, p.m., same being the first day of the regular term of the Floyd County Court, upon a credit of six months, the following described property, to-wit:

Lying and being on Abner Fork of Left Beaver Creek, in Floyd county, Ky., beginning on a marked stone in the center of Abner Fork at Willie Akers' line; thence with Willie Akers' line, crossing the bottom to a marked stone at the state highway; thence up Abner Fork to a marked stone; thence up to Fanny Akers' line and to Newsome's line to a marked stone; thence with Tra Newsome's and Myrtle Tackett's line crossing the bottom to a marked stone in the center of Abner Fork; thence down Abner Fork center to the beginning corner, a marked stone.

Excepting and excluding from said tract of land the following two tracts:

Beginning on corner of Fanny Akers and G. W. Newsome and Bessie Newsome line; thence running across the bottom with the G. W. Newsome and Bessie Newsome line to a planted stone near the Abner Fork branch; thence out to the center of Abner Fork branch; thence running down the branch as it meanders 50 feet to opposite a planted stone near the branch; thence to the planted stone; thence a straight line across the bottom to Pannie Akers' line; thence running up with said line 50 feet to the beginning, so as to include all the land in said boundary.

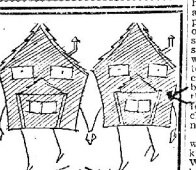

Beginning on a stake highway at fence; thence running with fence to light pole; thence a straight line to center of Abner Fork branch; thence running down the center of branch as it meanders to Jodie Harter line; thence running with said line to state highway; thence running with said state highway to the beginning point so as to include all the land in said boundary.

For the purchase price the purchaser must execute bond with approved surety or sureties, bearing legal interest from the day of sale until paid and having the force and effect of a judgment with a lien retained upon said property as a further security. Bidders will be prepared to comply promptly with these terms.

Given under my hand, this 1st day of October, 1945.

J. B. CLARKE, Master Commissioner, Floyd Circuit Court. Cost of advertisement \$10.00.

Board Meet Highlights Church School Year

One of the highlights of the Church School year of the Methodist Church was the closing meeting of the Board of Christian Education for the year Oct. 3, Members of the Board, Sunday School teachers and counselors of the department were guests of the Woman's Society of Christian Service, who served a dinner in the recreation room of the church. Decorations and place cards gave a touch of the Halloween season, and added color and interest.

Mrs. W. P. Mayo, chairman of the Board, presided over the meeting which followed the dinner. A general review of the work for the past year and plans for the new year were discussed. Plans for Promotion Sunday, which is always the first Sunday in October, were completed.

Those enjoying the occasion were: Mrs. W. P. Mayo, Mrs. E. W. Meade, Mrs. Mildred Mrs. C. R. Stone, Mrs. E. D. Roberts, Mrs. Helen Osborne, Mrs. Charles Chumley, Mrs. J. C. Akers, Mrs. Palmer L. Hall, Mrs. Burl Spurlock, Miss Pauline Lewis, Miss Clark, Miss Christine Fraser, Ray Stephens, Glabe Blingham, Rev. and Mrs. W. B. Garriott.

Parker-Poe Nuptials Solemnized Oct. 2

Marriage of Miss Kathryn Hatcher, daughter of Mr. and Mrs. Ben Parker, of Bryn Mawr, Ky., to Pvt. Tom Poe, son of Mr. and Mrs. Ella Poe, of Brainerd, Ky., was solemnized at 5:30 p.m., Oct. 2, the Rev. Jesse Strawn officiating. The nuptial ceremony was held at the home of the bride's parents.

The bride was decorated for the nuptials with fall flowers. The bride, attired in a pale blue stretch-linen dress, with black accessories, and wearing a shoulder corsage of red rosebuds, was given in marriage by her father. The single ring ceremony was also performed. The bride held a white prayer book, a gift from her maternal grandmother, while her vows were said.

Attendants were Miss Nora Jane Parker, sister of the bride, and the bride's cousin, Thomas Richard Weidenheller, Ashland, Ky. Wedding music was rendered by Glabe Blingh, Weidenheller, Ashland, aunt of the bride.

Following the ceremony, dinner was served to a few intimate friends and relatives. Mrs. Poe is a member of the Junior class of Prestonsburg high school. The room was stationed in Iran for 21 months and will, upon conclusion of his fourth year, report to Camp Pleasant, La., his present post. Mr. and Mrs. Poe have returned from a honeymoon spent in central Kentucky and she will be with her parents until return of her husband from army service.

SEPT. ROBINSON DISCHARGED Overseas Veteran Asks Floyd County To Support Allen

As a citizen of Floyd county serving in the armed forces of our country and who has been overseas six months, this I am doing for you. Now I am asking you people of Floyd county to do us boys an honor by giving your full support to a comrade, Jodie Allen, who is a candidate for County Clerk. I assure you that your full support will be appreciated by all the Floyd county boys now serving in the armed forces all over the world.

Our comrade was in combat service for some time and I'm sure it all the people of Floyd county knew what combat service really is and know that our comrade has been through for us, then you would give him your full support. Volunteering, he served his country, destroying his health, and offering his life that we may live in peace and have freedom. He has done plenty for us. Now he needs our help, our full support. Just think—he has saved the lives of some mothers' sons, and you know how happy you will be when your son comes home to you with tears of joy on his cheeks. He has helped to bring his hands, fathers and brothers home to their loved ones. He is well qualified for the office and deserves the chance much more than his opponent who has never faced combat. Remember, mothers and fathers, when you help him, you help us. We know what he has been through. We trust you will show him your loyalty and give him your full support.

Sincerely yours, OLIE L. WILLS, APO 71, care Postmaster San Francisco, Calif.

Vance, a slight man of 153 pounds, testified that the woman, her sister, Virginia Blankenship, her daughter, Gladys and Cecil Newsome, caused a disturbance at his home on a night early in the week preceding the killing. They came to the yard, yelling and cursing, and that Mrs. Blankenship came to his steps.

He claimed that when he met the victim and her daughter on the afternoon of the killing, he pulled his horse hitched to a sled loaded with coal toward the side of the road to permit them to pass.

"Right here as good a place as any to get rid of you," he testified the woman remarked. His brother, Jarvey, started to drive the horse

off, he added, and a moment later he was struck from behind on his shoulder by some one holding a "Balle had me by the wrist, pulled me over toward the ground and the girl was hitting me either mother or daughter. On cross-examination he denied hitting what position he had his revolver when the shot was fired and he had no ready explanation of what he was carrying the weapon.

His version of the slaying was corroborated by his brother, who testified he was approximately 20 yards further up the road when the shot was fired. Jarvey Vance also testified to the disturbance created as his brother's home by the victim and members of her family, a few nights earlier.

In a serious condition at the Beaver Valley hospital, Martin, is Andy Hamilton, 38 years old, of Mud Creek, who was shot three times Friday afternoon on a "loopy ground" on Tinker Fork, Mud Creek.

Hamilton, accused of the shooting, and Hillard and Homer Hamilton and Milford Johnson, named as accessories before and after the fact to the shooting and wounded, were jailed Tuesday morning by Deputy Sheriff Harold Conn.

The officer quoted them as admitting the shooting, explaining the shooting was a result of a drunken row, with a previous disturbance probably a contributing factor.

One bullet which entered Hamilton's chest was lodged in his back, another entered his shoulder, ranging down into the body and lodging, and a third struck his left arm, it was said. It was said at the hospital Tuesday that his condition is favorable.

Johnson, accused of giving Harold Hamilton the revolver with which the shooting was done, claimed Hillard Hamilton snatched the weapon from him and handed it to Harold.

Homer and Hillard Hamilton appeared before Judge Hill Tuesday afternoon in army uniform and all four were admitted to \$500 bond each after waiting examining trial.

Scene of the shooting, Deputy Sheriff Conn said is a regular meeting place for horse traders of the Mud Creek section.

Mrs. Tendelzlockie is survived by her husband, two sons and two daughters: Cecil Newsome, Paul Newsome, Gladys—Newsome and Tommie Monda, all of Ligon. One brother, Earl Gayheart, of Beaver, and a sister, Mrs. Gold, of Blankenship, of Ligon, also survive.
