STUDENT VETS MAY GET RAISE

'Meade to Make Tour Of State to Study Present-Day Needs

Kentucky will be the official "test-tube" state for a field survey of the problems of student veterans to be made this week by Congressman W. HOWES MEADE, Republican of Paintsville.

Meade left Washington Tuesday to gather information at 10 Kentucky schools to aid the House veterans' subcommittee on education in drawing a bill to increase subsistence allowances for veteran students. He was designated for the job by the subcommittee chairman, Hon. A. RAYNEY (R-Ohio).

Meade has asked the state administration, the American Legion and Veterans of Foreign Wars to designate representatives to accompany him in his tour, beginning Wednesday at the University of Kentucky, Lexington. He will also visit Eastern, Western and Morehead State Teachers Colleges, University of Louisville, Berea, Georgetown, Kentucky State College for Negroes, and the Mary Industrial School at Paintsville, returning to Washington April 9.

"The committee has selected Kentucky as typical in that it is centrally located and has colleges of all types attended by veterans," Meade said. "We have state and municipal universities, regional teachers' colleges, denominational colleges, and industrial training schools."

Meade a veteran of service in the Pacific as a navy lieutenant in charge of advanced bases, sought assignment to the Veterans committee and has supported proposals now before it to increase student veterans' subsistence allowances from \$65 to \$75 a month for single men, from \$80 to \$100 for childrens married men, and from \$90 to \$115 for fathers.

The Road to Peace

On Army Day it is both natural and right that our thoughts should turn to the past—to the dark days of war, and to the heroic sacrifice of the men and women who suffered and died to maintain our freedoms. But if we are to prove worthy of that sacrifice we must also look ahead—toward a day when all peoples can live without fear of war.

What can we, as individual Americans, do to speed the progress of the world along that road?

We can give our understanding support to an inter-

national policy of wisdom, patience and firmness. And we can insure world respect for such a policy and the safety of our national ideals by backing them with an alert military force, well prepared against surprises.

Only a strong America is a safe America. As we celebrate Army Day this year we can be thankful for the disciplined men and splendid modern equipment that protect the "ramparts we watch." We know their strength will never be used for greed or conquest.

During the week of April 7-12, your Regular Army,

the National Guard of the United States, the Organized Reserve Corps, and the R.O.T.C. will present exhibits and events which everyone is invited to attend. By witnessing these displays you will get a much clearer picture of the fine type of men who are patriotically giving their services to their country. They, in turn, will welcome the interest you show in what they are doing in the cause of national safety.

SUCCESSFUL WORK— AND WORK TO BE DONE

RECENT and gratifying press releases tell of Kentucky in 1946 for the second consecutive year ranking No. 1 in the nation in the matter of improving its wildlife resources.

In 1944 Kentucky rated a poor 38th in the list of states and was going nowhere, its Division of Game and Fish bogged down in a political quagmire. As of last year it had passed up 29 states and this year it expects to pass possibly half a dozen more.

Especially gratifying is the knowledge that Floyd county is playing a leading role in this part of the penguin now showing, "Kentucky on the March." There is a pleasurable thrill in the fact that from the continued work of a few the Floyd County Fish & Game Club has become strong, with a membership of around two thousand, with approximately 700 school boys enrolled in Junior Sportsmen clubs, and with the parent club not only co-operating closely with the Division of Game and Fish toward re-stocking the county's rivers and streams but planning its own fish-rearing pond and quail brooders to augment and hasten the work.

The Division of Game and Fish and many such clubs as Floyd county's are, this year of our Lord, working to recede what we and our forefathers have taken from the fields, forests and streams over the generations. It is a slow, arduous grind, but the battle is being won.

Their success is obvious. THE TIMES wishes as much were being done in another field of conservation. Sportsmen of the state are interested in this field, that of protecting the forests and conserving the soil, but this is a task that will require the thought and work of others along with the sportsmen.

Reforestation, sodding, protection of woodland from the axe and the torch—these will require the work and interest of us all.

The need for the work was emphasized last week when Leroy Ballinger, of the Ohio Valley Conservation Commission, said:

"Residents of the Central West are only about six inches away from the Great American Desert instead of many hundreds of miles."

He referred to the six inches of topsoil remaining after many years of erosion during which the soil has been permitted to wash down the slopes and away the poetic "hundred miles or more."

Timberless, grassless slopes such as ours are indefensible against the ravages of erosion; they, some day, will be an American Desert rising on the landscape at an angle.

Will Floyd county and Kentucky wait too long to begin this phase of conservation?

James A. Bogan, of Dublin, was a weekend guest of Bill Hughes from Lexington, where he spent a few days.

When \$86,000 Isn't \$86,000

It sounds great, this announcement that the Rural Highway Department has \$86,000 earmarked for Floyd county this year.

But isn't that great. This is aid that is not to be snubbed, but it definitely is no windfall.

For the road is long and twisting from Frankfort to rural Floyd county and the road dollar devaluates a lot between the state treasury and "country" cuts and ditches and fills and grades, etcetera.

We shall be most fortunate if this \$86,000 gets \$30,000 worth of real, honest-to-goodness road-building or road-improvement done. Administrative costs come in of that total, the state admits it cannot get work done for a figure even resembling the amount the fiscal court would spend in getting it done. And, somehow, somewhere, there always are so many good "party men" to be employed, whether they can do good work or no.

The present Administration is not to be blamed for this sad state of affairs any more than its predecessors. To all of them belongs some blame, probably blame in approximately equal amounts. And if the present law prescribing the handling of rural highway work remains in effect, the situation of the state will come in for its share of culpability.

What needs to be done is this: The law should be changed to place rural highway building and improvement in the hands of the fiscal courts of the several counties. Then, if \$50,000 or any other amount is due Floyd county's rural road fund, or any other county's, exactly that much money will be in the hands of the Magistrates and the County Judge who should know, if anybody does, how and where the money should be spent.

Thus, each county could exercise its own ingenuity toward getting work done. As matters now stand, regardless of how much money could be saved through county administration of the rural highway fund, regardless of how many more miles of highway could be built or maintained, the law will not permit the county to touch the money. The fiscal court can only "sign" with the department under the present law, then sit back and hope for the best and fear the profane criticism of their constituents.

Some have opposed "home rule" of this fund, expressing the fear that fiscal courts will mishandle the money. That is, fearing Scylla more than Charybdis! Honest though administration by the state may be and probably is, as far as political exigencies will permit, it is worse than anything we can envision at the hands of fiscal courts in these days when publication of financial statements is mandatory.

And, besides—if the fiscal courts administer the rural road funds, then we the people will know exactly whom to blame, and precisely where the fault lies. Moreover, at the next election, we would be in position to do something about it.

This is a correction that can be made in state law at the next session of the General Assembly. The state association of County Attorneys, Sheriffs, County Judges and Clerks starting work now with their Representatives and Senators, sent up this victory without further ado. Kentucky's lawmakers will listen to them, for, come election-time, these legislators will have earned words to which they will urgently want their county officials to listen.

PERSONALS

Mr. and Mrs. Richard Webb, of Lexington, are here visiting his parents, Mr. and Mrs. W. C. Rimmer. Mr. Webb will assist Mr. Rimmer in his engineering office. They expect to return later in the spring of Mrs. W. D. Ooble, on Court street.

Miss Maggard, Mr. Francis Wed at Bypro March 24

Mr. and Mrs. L. A. Maggard, of Bypro, announce the marriage of their daughter, Greta Gaye, to Mr. Dennis Francis, of Wheelwright. The couple were united March 24 at the home of the bride's parents. The single ring ceremony was performed by the Rev. W. W. Williams, pastor of the Missionary Baptist Church, Wheelwright. The bride wore a coral and gray ensemble with matching decorations. The "Wedding March" and other nuptial music was rendered by the bride's cousin, Miss Mary L. Osborne.

The bride attended Wheelwright high school and studied music at Morehead State Teachers College. Mr. Francis is a former student at Wheelwright high school and was in the armed forces during the war, serving in the European theater and is now an employee of the Inland Steel Company.

Friends and relatives attending the wedding were: Dr. and Mrs. W. D. Osborne and daughters, Mary Louise and Joan, Mr. and Mrs. Sam Smith and daughter, Violet; Mr. and Mrs. Gene Frazier and sons, Steve, Eugene and Larry; Mr. and Mrs. Warren Risher; Mr. and Mrs. Oscar Smith; Mr. and Mrs. Paul Williams; Mrs. Helen van Houten; Miss Minnie Smith, Casper Smith and Misses Lucy Martin, Norma Pratt and Julia Little, also the bride's parents, Mr. and Mrs. L. A. Maggard, and daughters Rose, Ruby and Ada Carol.

Five Floyd Students Honor Banquet Guests

Five students from Floyd county attended the Pikeville College honor banquet last Thursday evening at which Mrs. Ralph B. Hindman, of Buffalo, New York, was speaker. The banquet is given each year to honor those with grades averaging B or above. The Floyd county students were: Barbara O'Connell, Evelyn Pringle, Prestonburg; Alice Gibson, Edell, Bonnie Newsome, Bypro; and Edmond Tackett, Prestonburg. All except Tackett, who is a freshman, are sophomores.

NOTICE

This letter is to the good citizens of Floyd County, Ky., especially those who are concerned in the Floyd county schools and the welfare of our children. As every one in Floyd county knows, Payne's Studio of Martin, Ky., has made the Floyd county annuals three years prior to the war and besides this, I have worked and made pictures for Professor Radcliff of Wheelwright, Ky., and Prof. Moore at Maytown, Ky., for the past eight or ten years and these three gentlemen have always been completely satisfied with my work, and all other people whom I have worked for have been satisfied, so far as I know because we guarantee our work to please everyone. But here is the negro in the wood pile. The annual that is being made this year for the schools, I offered to do the photographing for this annual at a reduced price, which is one half the price that the other photographer, whom they employed is charging the children if I have been informed correctly. And as I understand it a few of the committees were instructed by their principals to vote against me and for the other photographer who is doing the work and charging the children twice the price that I offered to make them for. And the difference was by some of them that I made speeches in favor of the dry-voice and against the whiskey in Floyd county and I was informed this morning by reliable citizens at Martin, Ky., that some of my fees had said that the other photographer made better pictures than Payne's Studio. Now then I want to say to all photographers and the citizens of Floyd County that I have been a photographer for thirty-five years and I am equipped to make all kinds of pictures that are made by any photographer in this county, except moving pictures and if necessary, I can learn to make them, too. Therefore, if any photographer wants to challenge me as to making real pictures, I am ready to do the challenge any day. And as to the Floyd County schools, I will do as I always have done heretofore—make their pictures at a reduced price and I will give to the photographers and the citizens of Floyd County that I am a photographer and a friend to all mankind and I am still dry and against whiskey.

Respectfully yours,
PAYNE'S STUDIO
By J. D. Payne.

Notice to Taxpayers

Property on which 1946 taxes are unpaid will be advertised for sale on May 5, 1947. I have mailed two or more statements to every taxpayer in an effort to save you this added expense. If there is any improper listing or other correctable error causing you not to pay your taxes, it will be to your advantage to have these matters adjusted. I will be glad to be of any assistance possible.

TROY B. STURCILL, Sheriff
4-3-47

IN MEMORIAM

In memory of our loving daughter who passed away April 2, 1946. Gone, but not forgotten.

Dearest Helen, how we miss you! Though it's been a year ago today that God called for you to come higher with him to stay.

We are sad within our memory. Lonely are our hearts today. For the one we loved so dearly has forever passed away.

We think of you in silent prayer. No eyes may see us weep. But many silent tears are shed While others are asleep.

We saw you fading like a flower. But we could not make you stay. We stayed with you with tender love Until God called you away.

Helen, dear, we love you and Our hearts ache for you still. Forgotten by some others, But by us you never will.

We will meet you on the golden shore Where sad parting will come no more.

Sadly missed by Mr. and Mrs. John Lewis and Family.

(Continued from Page 1)

Lewis quoted this provision as follows: "The international union, United Mine Workers of America, may designate memorial periods provided it shall give proper notice to each district."

While Good Friday and Holy Thursday are not general holidays in the industry, thousands of miners usually observe them by laying off.

At current production rates, the shutdown will entail an estimated production loss of from 10 to 12 million tons of soft coal.

In a communication to the officers and members of the union, mailed out from Washington, Lewis said:

"During this period, coal production will cease and memorial ceremonies, church services, and other activities should be conducted in honor of our dead and to pray to God in his infinite mercy to provide consolation for the bereaved families."

"Forced to work by yellow-dog injunction secured by Krug and his co-conspirators, the safety of these men was neglected to a point where they died like trapped animals," Lewis said.

IN MEMORIAM

In loving memory of my husband and our father, Mr. A. G. Richardson, who passed away three years ago, April 2, 1944.

Dear Daddy has gone and left us, lies beyond the Great Divide. Where there's no pain or sorrow, And all of God's children abide.

Oh, Daddy, dear, how we miss you. Your kind and smiling face. The days go so long and lonely And no one can take your place.

But sweet memories we have of you, Daddy. God's greatest gift of all. When the darkness of night settles o'er us.

Fond memories of you we recall. Some people may think we've forgotten.

The our hearts are burdened with pain. With our faith and God's loving mercy. We'll meet you in heaven up there.

Sadly missed by his wife and daughter.

James Monroe Boyd Heart Victim at 62 At Dana Monday

The sudden passing at his home at Dana Monday night of James Monroe Boyd, 62 years old, well-known farmer, was ascribed to a heart attack. Mr. Boyd had suffered from influenza, two weeks before his death, but was believed to have fully recovered from that illness.

Mr. Boyd was the eldest son of the late Wesley Boyd and of Mrs. Clara Boyd, of Dana. He was united with the Regular Baptist Church, several years ago, and was one of his community's best men.

Surviving, besides his mother, are his widow, Mrs. Maggie Clark Boyd, and the following sons and daughters: Estill, Arthur, Matt and Charles Boyd, all of Dana, Misses Ollie and Nell Boyd, all of Dana. Five brothers and four sisters also survive. W. B. Boyd, Prestonsburg, Worley Boyd, of Harolds, Add and Powell Boyd, Betsy Layne, Arthur Boyd, of Dana, Mrs. Sallie Clark, of Newton, Mrs. Verma Robinson, of Dana, Mrs. Ollie Bailey, Betsy Layne, and Mrs. Mae Conn, of Dana.

Funeral rites were conducted from the home Wednesday morning and burial in the family cemetery was under direction of the Arnold Funeral Home. Officiating ministers were the Revs. C. P. Conn, Johnny King and Bert T. Conn.

GO TO NEW ORLEANS FOR INSURANCE MEET

Richard Sparlock and J. P. Cobern, of Prestonsburg, and J. Hatcher, Huntington, W. Va., left this week to attend a meeting in New Orleans of the President's Club of the Kansas City Life Insurance Company. Members of the club are company representatives who during the meeting may receive \$200,000 or more in insurance. Mr. Sparlock's 1946 insurance production exceeded \$400,000.

QUALITY CONCRETE BLOCKS

ARE PROPERLY MADE AND PROPERLY CURED

IMPROPERLY CURED BLOCKS are responsible for MANY CRACKED MASONRY WALLS. The concrete unit shrinks as it is being cured and while it is drying. Obtaining complete shrinkage of a masonry material is an important part of the manufacturing process, and a block is NOT a finished product until a large part of this shrinkage has occurred.

At my plant blocks are cured by high temperature, low pressure steam for the first 16 hours, followed by at least eight hours of radiation. All blocks are then stockpiled for at least 14 DAYS to permit further shrinkage. NO BLOCKS ARE SOLD WHICH ARE LESS THAN 14 DAYS OLD. Ohio river aggregate used in all blocks.

Yes, MODERN machinery plus MODERN methods are employed to produce QUALITY CONCRETE BLOCKS at my plant; YET these blocks cost you NO MORE than ordinary blocks.

Dingus for County Superintendent. Whatever other political announcements the publication contained were missing from the latter copy Kendrick found.

The news published correspondence from Deale in this county and Hall and Hindman in Knott. The Hindman correspondence contained this interesting item:

"J. M. Haller, while on Quicksand, attending to some land business, killed a fine deer."

But the item that caught THE TIMES' collective eye was this, in the newspaper's masthead:

"Subscription rate: \$1.00 a year, invariably in advance."

Wages ran around a dollar a day, back then; newspaper prices were—we are guessing, of course—unbelievably low. And still THE FLOYD COUNTY NEWS cost the subscriber half what THE FLOYD COUNTY TIMES costs you in these days of 75-cent bacon.

That "invariably in advance" caught the dimming eye, too.

Incidentally, let us repeat: Subscription rates to The Floyd County Times, to Floyd county subscribers, \$2 a year; to any other county in Kentucky, \$2.50; outside Kentucky, \$3.

Former Steamboat Man Succumbs in Florida

Funeral of Tom Vaughan, 72, former resident of Caledonia, who died Friday night at his home in Fort Meyers, Fla., were conducted Monday afternoon at Fort Meyers with burial following in the Fort Myers cemetery.

Mr. Vaughan retired from active business four years ago and moved to Florida. A native of South Point, O., he was reared in Lawrence county, Ky., and moved to Caledonia in 1884 to begin a long and interesting career as an Ohio and Big Sandy river boat owner and operator.

Members of the immediate family are his widow, Mrs. Ruth Tut Vaughan, four sons, Curtis, of Hartford, Conn., David, of Lake Success, N.Y., Charles and Joe, of Washington, D.C.

Marshall-Hyden Vows Said at Hindman, Ky.

Marriage of Mrs. Dixie Ratiff Marshall, of Martin, and Mr. Joe Taylor Hyden, Prestonsburg, was solemnized March 15 at Hindman at the home of the officiating minister, the Reverend Meland.

Attendants at the nuptials were Mrs. Ratiff, mother of the bride, Miss Mary Margaret Hyden, sister of the groom, and Mr. R. H. Stungill.

The bride is a daughter of Mr. and Mrs. Vernon Ratiff, well-known residents of Martin. Mr. Hyden is a son of Mr. Joe Hyden, of Prestonsburg, formerly was athletic coach at Prestonsburg high school and is now connected with the Commonwealth Life Insurance Company here.

Mr. and Mrs. J. W. Howard have returned from their vacation spent in Miami and other points in Florida.

How many do you have in your house?

Counting on your fingers is fair. But first, make a quick guess: How many electric motors do your home-work for you? Would you say 3? 5? Maybe 10?

Now count 'em up. It's easier if you think of them from room by room. How about the bedrooms? Electric clocks and shavers each have a motor. So do the fans you use in summer.

A modern kitchen is a gold mine. There's a motor in the electric refrigerator, the food mixer, the ventilating fan. (The last below will remind you of others.) Don't skip any rooms. Even the basement and-storeroom may be rich picking.

Finished? How does the count compare with your guess? Most people guess way low. Actually 100 motors per house is common—20 is not unusual!

But, whatever the number, the point is true. We sell and realize how many jobs electricity does for us, because it does them so dependably, regularly and cheaply.

You've helped bring this about by taking advantage of so many electrical opportunities. And the men and women of the business-managed electric companies are always working, to bring you better service at lower cost. That's why the price of electricity has gone down and down, while the price of almost everything else has gone up and up.

Learn in the New Electric Hour—the HOUR OF CHARM, Sunday, 4:30 P. M., E. T., C. B. T.

Here's a Partial List of Electrical Help—Each One Operated by an Electric Motor

Huge Power Plant To Supply This Section with Electricity

M. C. Funk, vice-president and general manager of the Appalachian Electric Power Company, announced that his company was about to begin the construction of a steam electric power generating station with an initial capacity of 100,000 horsepower to be located on the Ohio river near Graham, station in West Virginia, 60 miles downstream from Parkersburg.

In making the announcement of his company's decision to add this steam electric generating station to system facilities Mr. Funk said: "The beginning of this plant marks the culmination of 10 years of planning on the part of officials of our company and the engineering staff of the American Gas & Electric Service Corporation, our company's affiliate. Studies by the engineers over a period of years indicated that when loads reached a certain magnitude a large electric power generating plant should be built in northern West Virginia in the vicinity of the site selected."

"The management of the company, after making comprehensive estimates of probable increases in demand for power during the next few years, decided that it was the time to go ahead with the project." The plant is to be owned jointly by the Appalachian Electric Power Company and the Ohio Power Company, both units in the General System of the American Gas and Electric Company. "The idea of a jointly owned and operated plant is not new in the system of the American Gas and Electric Company," Mr. Funk said. "Over a period of 30 years in that system there have been jointly operated three large electric power generating plants—one in New Jersey, one in Pennsylvania, and one near Wheeling, West Virginia. Joint ownership and joint operation permits economies of first cost operation that cannot be obtained if each company built its plant independently of the other."

The plant will be known as the Philip Sporn Plant, named after the Executive Vice-President and Chief Engineer of the American Gas and Electric Company in recognition of his leadership in the development of economical steam power generation and transmission. It will be located adjacent to a large coal acreage controlled by the company with sufficient coal underlying to supply the plant for about 30 years. For the present, however, it is not planned to conduct any mining operations and coal used will come from the plant in barges on the Ohio river.

The capacity of the first unit in this generating plant will be 100,000 horsepower, although with the load growing at its present rate it is probable that before this first unit is in operation another of the same size will be under construction. The generating unit, technically known as a cross-compound turbine will be operated at a throttle pressure of 2,500 pounds per square inch and the steam at a temperature of 1050 degrees.

"On the basis of engineering estimates, and we expect to meet these estimates," said Mr. Funk, "this will be more efficient than any other steam power generating unit that has ever been built or projected. This unit represents a very large investment but we have every reason to believe that it is justified by the demands of our customers. New industries are coming into the territory and existing industries are expanding their operation. In addition, we find that wider use is being made of electricity not only industrially but by commercial, residential, and farm customers."

Work on the new plant will be started in April and completion is expected by the summer of 1949. The cost of the initial development is estimated at close to \$20,000,000. The Philip Sporn plant will be connected to the integrated system serving the Kentucky & West Virginia Power Company and this project will be available to improve the service to mining, commercial and residential customers served in the 16 Eastern Kentucky counties supplied by the Kentucky & West Virginia Power Company.

There Is No Excuse for a Telephone Strike And We Are Trying Hard To Avoid One

Negotiations with the union have been going on since February 17. They are still proceeding and your telephone company has hopes that an agreement can be reached that will be fair to everybody.

The Southern Bell Telephone Company believes that its employees should be well paid, and that their wages should compare favorably with those paid by other concerns in the community for work requiring similar skill and equivalent training. To make sure that this policy is carried out, we are continuously comparing our wages with other wages.

In the present negotiations with the union, we have offered a renewal of our present liberal contract, but the union insists upon unrealistically large wage increases.

Wage Rate Increases in 1945 and 1946 Amounted to Approximately 26 Million Dollars

Telephone employees' wage rates are now the highest in history. They have been increased 75 percent since January, 1911. The largest increases have been in recent years, and only last year and in 1945, wage increases granted added approximately 26 million dollars to the annual pay of our employees.

These are increases in wage rates and are in addition to millions of dollars in regularly scheduled raises given our employees.

This is an important point to remember in any discussion of telephone wages.

These regular raises have been an advantage to telephone employees for many years.

Under our present contract, thousands of our employees receive wage increases as often as every three months. Other thousands receive increases every six months or every year.

Here Are Some Typical Rates of Pay

A five-day, 40-hour week is the basic work period. Non-supervisory employees, such as operators, linemen, installers and repairmen receive overtime pay for work beyond eight hours a day, 40 hours a week, and also receive premium pay for Sunday, holiday and evening and night work.

The following table shows some of the present wages paid, according to the size of the telephone exchange:

Large Exchanges

	Starting Rate	Top Rate
Operator	\$ 27 to \$ 39 per week	
Installer-Repairman	\$ 28 to \$ 62 per week	
Stenographer	\$125 to \$120 per month	

Medium Exchanges

	Starting Rate	Top Rate
Operator	\$ 25 to \$ 35 per week	
Installer-Repairman	\$ 27 to \$ 58 per week	
Stenographer	\$120 to \$180 per month	

Small Exchanges

	Starting Rate	Top Rate
Operator	\$ 22 to \$ 31 per week	
Installer-Repairman	\$ 27 to \$ 56 per week	
Stenographer—Not usually needed.		

(These rates do not include premium pay mentioned above.)

We believe most people would agree that these are good wages. There are, in addition to good wages, many other advantages in working for the Telephone Company, including pensions (with full cost paid by the Company), sickness and death benefits, attractive working conditions, holidays with pay, and vacations with pay of one, two or three weeks, depending on length of service.

Union Demands Total \$69,000,000 a Year. This Is Equal to An Increase of \$3.30 a Month in the Average Telephone Bill.

The demands of the union on wages and other matters would increase the cost of providing telephone service by about \$69,000,000 a year. This comes to 70 percent of the Company's wage payments in 1946. It is more than six times our net income in 1946. It would make our payroll alone over two million dollars more than the total of all the money we took in last year.

In terms of the average telephone bill, it amounts to about \$3.30 per month for every one of a little more than 1,731,000 telephone subscribers, and it is the telephone user, after all, who pays us the money that we pay out in wages. Wages that are too low are not fair to the employees—who do the work. Wages that are too high are not fair to the public—who buy the service.

Further Increases in Wages Would Necessitate Additional Increases in Our Rates

We earnestly desire to go as far as possible in meeting the wishes of our employees and the union. But their demands must be practical and realistic. The earnings of the Company are such that we are now appearing before the Public Service Commissions throughout the Southeast asking for increases in rates to help meet the cost of wage increases granted last year. Should present negotiations result in large wage increases, we must immediately seek additional telephone rate increases to meet the increase in expenses. It is with this in mind that we are proceeding in our present negotiations with the union.

An Obligation to the Public Welfare

The Telephone Company is asking union leadership to recognize the obligation of all of us to you—the public. We are pointing out to the union in our meetings that only by rendering a constantly improved service in the most efficient manner possible can the employees, the union, and the management continue to deserve your goodwill. We must not disregard the welfare of the public, either in our charge for service or the quality and continuity of the service we render.

In view of the facts presented here, there does not seem to be justification for a complete revision of our working practices as requested by the union, nor for such large wage demands. Consequently we have offered the union a year's renewal of the present liberal contract, but with the right to re-open the matter of wages at a time when changes in conditions may justify. We sincerely hope the union will accept this offer.

We want to keep our employees happy about their wages and their jobs. We want to keep you pleased with your telephone rates and service. And, we want to keep our investors satisfied about the money they have put in the telephone business. For it takes all three—telephone user, worker and investor—to keep this business going.

A telephone strike would be such a serious thing for you, for telephone employees, and for the telephone company that everything possible is being done to prevent it. There is no excuse for a telephone strike.

DAILY PRESS HAILS WOODS OF GARRETT AS FLOOR STAR

Paice Woods, the former Garrett high school net star, threw his five-foot-four frame and all 125 pounds of him around college gymnasiums with such abandon and tossed the basketball with such uncanny accuracy this season for Kentucky Wesleyan College at Winchester that the "big boys" of journalism got hit to the fact that he's the mighty mite of basketball and a star.

One such sports story featuring Woods says, in part:

Woods shows a 16.3-point average for 16 games. He might press national scoring leaders if he shot more. His flings approximate one-fifth of the team total.

Woods blazes with either mitt, contributing on an overhead two-hand jump two while falling away from the basket. His high for a single game this season is 31. Last year it was 24 but his average was lower, 15.3 a game.

Wesleyan Coach Robert "Bull" Wilson attributes the success of the 18-year-old sophomore guard to his speed, accuracy and keen sense of touch that allows him to control the ball despite small hands.

"Why against the University of Louisville Woods stole so many balls as we got rebounds," beamed the Bull.

The little fellow was sharp that night, hitting 12 of 18 from the floor and seven of eight foul attempts.

Woods jets his 125 pounds to lead the Purple Panthers in pointmaking, usually leading most of the 45-minute route.

His supporting cast consists of players whose scholastic ability, with athletic know-how. The Methodist-supported school has outdistanced scholarship but all-around talents to athletes who can qualify in the classroom. Woods has a "B" average.

The sky, dark-haired cut maver's son "never was a substitute." He has played the game "ever since I can remember," gets a kick out of dunking in baskets, but "loves to see the big boys score too."

Eventually he hopes to try his hand at coaching.

CLIFF

Mr. and Mrs. Alex Spruclin and daughter, Marlene, had as their guests Sunday Mr. and Mrs. T. M. Herford, Mr. and Mrs. Thomas Herford, Mrs. Florence Lemaster, Mrs. Jenny Wheeler, of Paintsville, Miss Betty Spruclin, Mr. and Mrs. Tommy Lemaster, Dave and Tommy Herford, Mrs. Dorothy Pearson, James Tackett, Lennie Kathleen and Johnny Wheeler, Jr. and Bobby Pearson.

Mr. and Mrs. Lenna Conley and Mrs. Olie Hill visited relatives in O. Springs Sunday.

Jim Shields' sister, Harriet, of Leno, Ky., visited him Sunday.

Mr. and Mrs. Liza Hearn of Dixie, Tenn., visited Albert Dotson Sunday.

Mrs. Albert Dotson visited her sister, Mrs. Howard Church, on Abbott Sunday.

Mr. and Mrs. Russell Burton and children visited her sister, Mrs. Jessie Jenkins, of Salisbury, Sunday.

Mr. and Mrs. Bert Calhoun and children of the Auxier road, visited Mr. and Mrs. Tom Calhoun Sunday.

Mr. and Mrs. Henry Laferty and son, Leffo, visited Mr. and Mrs. Chas. Laferty on Johns Creek Sunday.

Mrs. Tom Stephens was called to Allen last week by the illness of her granddaughter, Tammie C. A. O. Laver.

Junior Hunt, of Ivy Creek, spent the week here with his sister, Mrs. Joe Sammons.

Mr. and Mrs. Elza Neely, of Prestonsburg, called on Mr. and Mrs. Anne Baldrige Sunday.

Mr. and Mrs. Harry Horn, of Ligon, visited his mother, Mrs. Martha Horn, Sunday.

WAYLAND

The Lackey-Garrett Woman's Club met at the home of Mrs. Edgar Dale Wednesday, March 27, for the March program meeting, "Equal Education for All," with Mrs. Carl Wright as leader. Many interesting phases of education were discussed by the leader and Mrs. Willard Castle. At the close of the program Mrs. Dale was assisted by the hostesses in serving refreshments to five members and one guest, Mrs. R. P. Crumpler.

Eighteen members of the Lackey-Garrett Woman's Club were honor guests of the Wheelwright club at a dinner in the Wheelwright clubhouse Saturday night. Those who attended were Mesdames Irvin Mullins, Willard Castle, Floyd Cope, Harry Sherman, Carl Wright, John Wallace, Noah Howard, S. M. Martin, Thomas Hatcher, J. C. Wolla, George Evans, Jr., M. M. Collias, Melvin Hayes, Mike Staley, Charles Sturgill, R. H. Mosser, Felix Coburn and Fred A. Martin.

Several members attended the health school Tuesday at Pikeville. The program was assisted by the State Federation of Women's Clubs.

Club members will be guests of the Hindman Woman's Club Saturday afternoon, April 19.

Next meeting will be Friday evening, April 11, at the home of Mrs. Melvin Hayes, Lackey.

Following the dinner at Wheelwright, club members were addressed at Community Hall by Mrs. Fred A. Martin, state publicity chairman of Kentucky Chapter. Many helpful suggestions on publicity, both for newspapers and the scrapbook, were offered.

DISABLED VETS MAY WORK, STILL GET COMPENSATION
Disabled veterans may accept any job or position and still receive full federal benefits for service-connected disabilities, according to claims officials at the Veterans Administration Branch Office in Columbus, Ohio.

"From time to time false information has been given that veterans with service-connected disabilities will have their compensation reduced if they enter the field of employment," VA officials said. "However, this is untrue. Any handicapped veteran may take a job and receive pay for it and still receive full benefits for his disability."

Many veterans are holding full-time jobs in factories and other professions and, at the same time, are receiving full benefits for their disabilities.

INQUIRIES ON BENEFITS SHOULD BE SENT TO VA
Inquiries concerning federal monetary benefits paid to Ohio, Michigan and Kentucky veterans by the Veterans Administration should be directed to VA rather than to a U.S. Treasury Disbursing Office.

Former officials of the VA's Branch Office in Columbus, O., said disbursement officers in the three states have been receiving a large volume of correspondence from veterans and beneficiaries relative to errors in address, delays in monetary payments, etc. This apparently is due to the fact the disbursement office address appears on the envelopes in which the checks are mailed.

The disbursement offices send such correspondence to the VA Branch Office in Columbus, which in turn forwards it to the proper VA field office. This unnecessary delay will be eliminated and action on correspondence will be expedited if veterans and beneficiaries write directly to the VA office which handles their particular benefits.

EX-PW'S GET PRIORITY ON DISABILITY CLAIMS
Special consideration will be given to disability claims filed by veterans who were interned in enemy prison camps during World War II, according to claims officials at the Ohio-Michigan-Kentucky Branch Office of the Veterans Administration in Columbus.

"The announcement was based on a thorough study of the effects of imprisonment on former American prisoners of war," claims officials said. "More than 125,000 servicemen in the U.S. were repatriated from POW camps during the war. Most received special treatment and care after they were freed and apparently retained their health. But some still may be suffering from the after-effects of their confinement, and this might be entitled to disability compensation. VA rating boards have been ordered to give priority to claims filed by former prisoners of war."

EDUCATIONAL ELIGIBILITY OF VETERANS DEFINED
Students veterans whose G.I. eligibility terminates in the latter part of a school term are entitled to continued federal benefits for the remainder of the term.

Officials at the Columbus, Ohio, Branch Office of the Veterans Administration said VA will pay benefits for the entire quarter or semester if the student veteran has completed more than half of the term at the expiration of his period of eligibility.

If a veteran has completed less than half of the term when his eligibility becomes exhausted, his benefits will terminate.

benefits under the G.I. program are discontinued.
They must meet all other requirements, veterans enrolled under provisions of the G.I. Bill are entitled to one year of education, plus the time spent in service, up to a maximum of four years. Disabled veterans enrolled under provisions of the Vocational Rehabilitation Act are entitled to the amount of education necessary for them to overcome their disability or until they have attained a specific objective.

VETS URGED TO RE-INSTATE INSURANCE BEFORE FEB. 1
The Veterans Administration this week urged World War II veterans who have allowed their G.I. term insurance to lapse to apply for reinstatement before February 1, deadline for renewal of policies without a physical examination.

By making application before the deadline, veterans whose policies are delinquent merely have to pay two monthly premiums and sign a statement that their health is as good as when their policies lapsed.

CRILE ONE OF EIGHT VA ARTIFICIAL EYE CLINICS

Crile VA hospital at Cleveland is one of eight artificial eye and restoration clinics operated by the Veterans Administration in the United States. Others are located in New York, Atlanta, Chicago, Los Angeles, San Francisco and Baltimore.

At these clinics, eligible veterans may be fitted with new plastic eyes, or have repairs or alterations made to those they are wearing. Other clinics are operated at Boston, New York, Atlanta, Chicago, Los Angeles, San Francisco and Baltimore.

QUESTIONS AND ANSWERS
Q. Can I use my terminal leave bonds as security for a G.I. loan?
A. No. Terminal leave bonds are non-negotiable and non-transferable. However, they may be used to pay premiums on National Service Life Insurance.

Q. What are the compensation rates payable to World War II veterans for service-connected disabilities?
A. The rates range from \$13.80 a month for a 10 per cent disability to \$180 a month for total disability. For certain specific disabilities, the rates may be as high as \$390 monthly.

Q. Does VA pay any part of a guaranteed G.I. loan?
A. Yes. VA will pay to the lender as a credit on the loan an amount equal to four per cent of the amount guaranteed. This is a gift and is not to be repaid by the veteran.

Former Floyd Girl's Engagement Announced

Mr. and Mrs. M. J. Hall of Prestonsburg, Ky., announce the engagement of their daughter, Opal Pearl, to Lloyd William Waddell, son of Mr. and Mrs. George Waddell, of Covington.

The bride-elect is a junior in the College of Arts and Sciences at the University of Kentucky. She is a member of Alpha Delta Pi sorority, Student Union dance committee, YWCA, Women's Athletic Association, and Baptist Student Union, of Covington.

Mr. Waddell will receive his degree, B.S., in Commerce, from the University this month. He is a member and past president of Phi Kappa Tau fraternity, member of the Inter-Fraternity Council, Constitutional Party, Veterans' Club, Commerce Club, YWCA, and music committee of the Student Union Board. He served three years in the U.S. army, a year of which was spent in the European theater of operations with the Ninth air force.

The bride-to-be formerly resided with her parents at McDowell and Weathersburg, this county.

NOTICE

Minor Is Emancipated By Army, Darnit Rules

If military service does not emancipate a minor from his parents, "nothing else will," Attorney General E. A. Tamm said recently. The statement was contained in an opinion for U. S. District Judge Russell, Kentucky director of Selective Service.

He asked if he should direct a coal company to pay wages directly to a 20-year-old veteran. The company feared the boy's father might sue unless the father signed a waiver on his son's wages.

"When this particular boy entered the armed forces he was emancipated just as clearly as if he had left his father's house, obtained a job and made his own living without consulting his father in any way," Darnit wrote.

When he was discharged from the armed forces he retained the status of an emancipated infant and that status will keep until he reaches his majority (21)."

A 1926 law stating "the father and mother of a minor child are equally entitled to its services and earnings," may have caused the company's concern, Darnit said, but "common law rules which say the parent of a minor behaving as an adult has no special right to his earnings would prevail."

From well-fertilized ground in this county, Perry Hopper sold dark tobacco, cured in a light barn, Mrs. Rollin Reed has established the first flock of Broad-Breasted George turkeys in Metcalfe county.

To the Voters of Legislative District 96:

Dear Voters:

Recently I announced my candidacy for the office of Representative of the 96th Legislative District. In doing so I went into this candidacy open-minded, knowing that there would be other candidates, all of whom are my friends, and realizing that in a democracy all may seek office who so desire and it duly qualified.

In seeking this office I think it only fair that I publish for your benefit my qualifications, the characteristics of my background and the goals which I hope to achieve in the event I am elected.

I am 27 years of age, was born and raised at Blue River, Ky. (on Middle Creek), attended school at Bonanza and Prestonsburg (high school), am the son of Susan Stephens Hale and of the late James Hale, of Prestonsburg and Blue River. I am a veteran of three years' service in the navy, 10 months of which were spent overseas; am now a member of the Veterans of Foreign Wars, the American Legion and the United Mine Workers of America. I have worked many months among the farmers of Floyd county, the miners, railroaders and have two brothers, one of whom is now a miner and one a school teacher. Therefore, I feel that I know the hardships and the needs of all our bread-winners and taxpayers of Floyd county.

With the thought of the veterans, miners, farmers, schoolteachers and taxpayers in mind, I will strive, if elected your Representative, to put the following platform in force:

1. Increased pay for our teachers.
2. Increased benefits and legislation for our veterans' expansion of C.F. bill.
3. Increased legislation and representation for our miners.
4. Increased state aid to the farm.
5. Increased state aid to the underprivileged children.
6. Better highways for Floyd county.

I promise that bills sponsored by me for the above platform will be introduced before the state Legislature when I become your Representative.

On election day, dear voters, remember that I am:

1. A veteran.
2. A Democrat who has never changed my politics.
3. A Floyd countian who has always lived in Floyd county.
4. A man who will give my time and serious thought to the job to be done, thinking always of the best interests of the people of Floyd county, and not allowing private business to interfere with my job as Representative.
5. A man who will appreciate your vote and when elected will still recognize the voter.
6. A man who is not using this as a stepping stone to some Floyd county office.

HENRY C. "BOOSE" HALE
Prestonsburg and Blue River, Ky.
(Pol. adv. 3-27-47)

Russell county plans to have 20 entrants in the corn derby this year, with at least half of them producing 100 bushels to the acre. Vernon Davis of Lee county said he and wool from 22 sheep for \$355, or more than \$16 per ewe.

BILL TO HELP ON-JOB VETS

To Get Early Vote;
Would Lift Barrier
To Higher Pay Rate

A bill to lessen restrictions upon veterans engaged in on-the-job training has been reported out of the House Committee on Veterans' Affairs to the 80th Congress, according to H. J. Madden, Veterans Employment representative for Kentucky. It is designated as House Resolution 246. The bill will increase the ceiling of income plus subsistence allowance for veterans without dependents from \$173 to \$230 a month. The ceiling for veterans with dependents will be increased from \$200 a month to \$255 with one dependent and \$350 with two or more dependents. This bill will not change the government subsistence allowance of \$65 a month for single veterans and \$80 for veterans with dependents. Mr. Madden said. It will, however, allow the veteran to earn more from his employer without having his subsistence allowance reduced.

In addition to increasing the income ceilings the bill will provide that the standard work week, exclusive of overtime, shall be considered in computing the rate of allowance payable and that the limitation of two years of training for non-apprenticeable trades shall be removed. Use of the standard work week in computing allowances is expected to encourage employers to participate in the program since veterans will be able to participate in overtime schedules without being penalized by a reduction in subsistence allowances. Removal of the two-year limitation will allow many veterans to obtain more complete training in some occupations.

Despite the restrictions which have prevailed since last August the On-the-Job Training program has continued to grow. Mr. Madden stated. Between Oct. 1, 1946, and Jan. 1, 1947, the number of veteran trainees in Kentucky increased by more than 1,500, bringing the total in training to approximately 10,500. This does not include the 1,800 trade school and cooperative trainees nor the 9,000 veterans enrolled in farm classes.

The pending legislation is expected to encourage many additional thousands of veterans and employers to participate in the program, Mr. Madden said. Prompt action by Congress has been forecast.

NOTICE

Bids will be received for the construction of the following school buildings in Floyd county at the meeting of the Board of Education April 22, 1947, at 1 p.m.

One brick graded school building at Westbury, Ky.
One brick graded school building at Betsy Layne, Ky.

We are authorized to announce W. J. JACK RYAN as a candidate for REPRESENTATIVE of the 98th Legislative district, subject to the action of the Democratic party at the August primary.

FOR REPRESENTATIVE

We are authorized to announce BILL BIGGERS as a candidate for the Democratic nomination for REPRESENTATIVE from the 98th Legislative district of Floyd county at the August primary. I have worked for our schools and for the betterment of our people and gladly refer the voters to my record in the State Legislature.

FOR REPRESENTATIVE

We are authorized to announce HENRY C. HALE of Prestonsburg, Ky., as a candidate for REPRESENTATIVE of the 96th Legislative district, subject to the action of the Democratic party at the August primary.

GIRL SCOUTS DESERVE HELP

"What can one woman do?" may be your plaint on reading a newspaper headline. A little simple arithmetic can answer that for you. There is one organization that stands ready to multiply your influence, your goodwill and your knowledge by at least 20. The Girl Scouts, a non-profit, non-sectarian, world-wide youth-serving organization needs your help.

The Girl Scout Council has on its waiting list many girls who are eager to become Girl Scouts—who want to learn the ways of good citizenship. They want to become the best wives, mothers and Americans they can. You can help. You can help by taking over as troop leader. You can give at least 20 girls a proper outlet for their energies and the stability of the democratic program of the Girl Scouts.

During the war you discovered a tremendous capacity for service to your community. The end of the war has shifted your responsibilities and once again centered your interest in your home. But there is still a great need for your service. Our young people need your guidance to live and work in a democracy.

The Girl Scout Council is looking for women over 21 who can give two hours each week as leaders of Girl Scout troops. The council will help train you, give you suggestions on how to start and hold the girls' interest through a well planned program of extracurricular activities in any one of 16 special fields. The waiting list is growing longer every day. The time for making democracy work is getting shorter. Volunteer now and contribute to lasting peace.

\$100 REWARD

I will pay a reward of \$100 for information leading to the arrest and conviction of the person or persons who entered my store during the night of Feb. 12.

SERVEL HOLDS A BUSHEL OF FROZEN FOODS

Every meal will be more exciting—when you have one of the new 1947 Servel Gas Refrigerators. For its big clear-across Frozen Food Locker holds a bushel of frozen foods—to provide you such out-of-season delicacies as strawberries, asparagus, spring chickens, all year round.

For fresh foods, the new Servel has both moist-cold and dry-cold protection. Two dew-action fresheners actually crisp up garden vegetables, keep fruits fresh and appetizing.

And the big Servel meat keeper protects meat tenderness for days. Shelves give extra roomness because they adjust to eleven different positions.

Famous for silence, the Servel Gas Refrigerator is the only refrigerator with no moving parts in its freezing system. Instead, a tiny gas flame does the work. More than two million happy owners have proved Servel stays silent, lasts longer. Come see the new Servels on display today.
