Pike County Boy Flees Boys Town With Two Others

Fourteen-year-old Crawford Casebolt, Fort's Branch, Pike county, was in custody in Lexington, Neb., Tuesday after running away from Boys Town last week.

Casebolt was admitted to Boys Town last fall after his life sentence on a robbery charge, given him at Pikeville, was remitted. The case attracted wide attention because of the offender's age.

A charge of being a juvenile delinquent was filed against Casebolt Tuesday after he and two companions, also from Boys Town, were arrested at near-by Gothenburg, Neb. County Attorney John Neir, of Dawson county, Neb., said juvenile delinquency charges were filed against all three boys in connection with the theft of a car. After a hearing before County Judge M. O. Bates the companions—James Fritter, 15, Miami, and Charles Stokely, 15, Chattanooga, Ky.—were ordered to the Boys' Training School, Kearney, Neb. Casebolt's case was continued until a parole officer arrives.

VETERANS NOTES

Veterans may authorize the Veterans Administration to deduct National Service Life Insurance premiums from their disability compensation or officer retirement benefits which are paid by VA.

Insurance officials at the VA's Ohio-Michigan-Kentucky Branch Office in Columbus, O., explained that the deduction provision affords veterans receiving such benefits a simple and safe method of paying insurance premiums. The amount of the benefits must be sufficient to cover the monthly premiums.

Increased subsistence allowances for student veterans taking full-time educational courses will be reflected in checks payable on or shortly after May 1. Veterans Administration emphasized this week.

fendant said, and asked Conley for \$2 which Conley owed him. Conley said he didn't have the money and an argument followed. He said Blair threatened to "cut his head off."

Conley said Blair returned later and as he entered the Legion home with a knife in his hand he said: "This is it."

A prosecution witness called to the stand Tuesday, Bill Conley (no relation to the defendant), testified that Conley, not Blair, had made the remark. However, Conley insisted that the victim had said it.

Conley said he had "emptied his gun" at Blair only in fear of his life as Commonwealth's Attorney J. B. Clarke rigorously cross-examined the defendant.

Three other witnesses were called by the defense, including Patrolman Proctor Hannah who made the arrest shortly after the shooting. The officer said he took a .38-caliber pistol, containing six shells, from Conley.

The Commonwealth has maintained that Conley sent a companion, Reece Ratcliff, to bring Blair back to the Legion home after the card game and that Conley shot Blair as he entered the lobby.

Ratcliff, 24, his father, Press Ratcliff, 45, the victim's step-mother, Mrs. Lillian Dean Blair, and Rebekah Webb, Conley's brother-in-law, all are charged with murder in the slaying.

In his opening remarks to the jury, seated after a 43-member panel had been interviewed, Clark demanded the death penalty.

Nurse Tells of Meeting Soldier from County, One of Her Rescuers

A 32-year-old missionary nurse of the Methodist Church, now in Korea with the War Department to work with the military government in getting nursing education started there again, writes of her recent meeting in Korea with T. J. Frank Perry, son of Mr. and Mrs. Charlie Perry, of Prestonsburg, who took part in the liberation of the county and other Americans from the Los Banos prison camp during the war.

The nurse, M. Elston Rowland, writes in part: "Your son, Frank, was driving the bus that came by the hotel where I live, and he was always so courteous and kind to his passengers and always had such a happy smile that one day I asked him how long he had been in the service. . . and soon learned that he was on one of the amphibious tractors that came into our camp at Los Banos to rescue us from behind the Japanese lines. I almost hugged the boy right in the middle of the street. I don't think anyone except those who had the experience can begin to understand how we felt towards these boys who risked their lives to save us from starvation and possible massacre by the Japanese machine guns. Some of our group had died by starvation and all of us were pretty weak when they came to get us. So those boys who suddenly dropped from the sky that never-to-be-forgotten morning find those who relied on the tractors a few minutes later to act as we were truly God-sent. We can never adequately express our gratitude. "Frank is a lovely boy and he wants me to tell you he is not drinking any more and I understand he has influenced several of his buddies not to drink."

Mayor R. P. Arnold and Brody Shepherd were business visitors in Huntington Monday.

Nine Schools, Residents Here Give March of Dimes \$518; Report Incomplete

Although complete figures on the success or failure of the March of Dimes in this county are unavailable, returns from nine schools and contributions from business men and women of this community, made direct to Miss Alice Harris, local chairman and president of the Prestonsburg Women's Club, total \$518.37.

While he had no actual figures at hand, Noble Hobbs, county chairman of the drive, said he believes the total will not exceed half the quota. Upon contributions of nine schools, the fund-raising campaign largely depends, it was said.

Here, Miss Harris enlisted the aid of the Women's Club which contributed \$10.00 to the four pupils soliciting the largest total in contributions. In the grade school, which raised \$20.37, Julia Mayo-May was the \$5 first prize and Joe David Harkins second prize of \$2. First and second prizes in the same amount were won in Prestonsburg high school by Daryn Shepherd and Lucille Cartmel. High school pupils solicited a total of \$22.41.

Miss Harris is presenting theatre tickets for displaying the March of Dimes, and drawing the greatest contribution locally, and the also is giving presents to Mrs. Alma Keenan and Mrs. Gohie Bramham for their assistance in the drive here.

Also contributed to Miss Harris by Prestonsburg residents was a total of \$130.88.

Other school contributions sent the Prestonsburg chairman follow: Boston, \$20.68; Sparkle, \$7; Axtier, \$47.10; Cliff, \$3; Middle Creek, \$3; Brandy-Keg, \$6.50; West Prestonsburg, \$7.50.

ANTIPYRINE
A completely artificial drug—the first of the great synthetic drugs—Antipyrine was created in 1883 by Ludwig Knorr, a German chemist. An embarrasing error, he thought, for he started out to produce a synthetic Quinine derivative and got something else. But Antipyrine (after the Greek word *pyron* for fever) proved to be effective against fevers and many other things.

INEXPENSIVE ADVICE

If my ability to re-stock Floyd waters with fish is no better than my ability to deplete said waters with rod and reel, I would be more discreet if I held my peace. But as they say with tongue in cheek, it's a free country...

What I have in mind is this: The Floyd County Fish & Game Club in its re-stocking program this year should add fish to Johns Creek rather than to the Big Sandy, since the completion of the Derby dam now appears to be a certainty. If the club does this, and places a special officer in the Johns Creek area to give the fish full protection, the Johns Creek reservoir will be well-stocked and ready for fishing when the dam across the valley is completed and the lake is formed.

You might say, the fish will go out Johns Creek into the Big Sandy. That's not likely, but if they did it wouldn't be fatal. That's since we've been trying to get 'em all these years, anyway. Then, again, you might say, the fish will be in the Big Sandy in the lower end of the county or in Johnson county. That's not certain, either, for they are more inclined to travel upstream, than down. If I don't forget my well-worn pocket manual on the habits of bass.

In all seriousness, this is a phase of the club's work that should be given more than passing thought. Personally, I'm interested in flood control. That dam, I trust, will be a big help to that department. But, being a poor, selfish dope who won't let a little thing like a fish discourage me, I'm just a little more inclined to welcome the fishing possibilities over on Johns Creek than I am the other benefits.

And I don't want to wait, along with hundreds of others, three years after the lake is formed for good fishing we should have as soon as the lake will float a boat.

Vincent Dies Monday After Half a Century As Democratic Leader

Gillis Vincent, for more than half a century a Democratic leader in Edmonson county, and father of 10 sons who have achieved prominence as public officials and in business and the professions, died at his home in Brownsville, Ky., Monday.

One of his sons is Haskell H. Vincent, Huntington, W. Va., coal operator, and former principal of Martin high school.

For 50 years he had been chairman of the Democratic county committee in predominantly Republican Edmonson county, and several times was elected to public office. He had served as county clerk, sheriff, tax commissioner, and postmaster.

Until his retirement a few years ago he had been for many years connected with the Brownsville Deposit Bank, of which he was cashier. He was also a farmer and landowner.

Gillis Vincent was a cousin of the late United States Senator Marvel Mills Logan.

Mrs. Gillis Vincent, the former Calverna Willis, died about 10 years ago. They had been married 52 years.

While their 10 sons have all achieved prominence individually, they are unique collectively in that they are members of the famous Ten Brothers Corporation of Kentucky, founded by them in 1935 to promote "mutual aid and assistance" of the family.

The sons are Beverly Mills Vincent, Brownsville, former United States representative from the Second Kentucky district, former attorney general of Kentucky, and former State Senator; Roscoe Vincent, Warren county, former assistant United States attorney general; Conrad Vincent, Corinth banker; Elbert Vincent, Providence, R. I., teacher; Patrick Vincent, Ashland, former Boyd county judge and state representative; Raymond Vincent, Covington, commonwealth's attorney at the 15th judicial district; Clyde Vincent and Howell Vincent, Covington attorneys; Haskell Vincent, West Virginia coal-mine operator, and Paul Vincent, Brownsville.

KEA TO PUSH FOR \$2,400

As Average Salary For State Teachers; Look for New Revenue

Louisville, Ky., Feb. 25.—The Kentucky Education Association wants an average salary of \$2,400 a year for public school teachers. And it's seeking also extension of the minimum school term to nine months.

This was announced yesterday by John W. Brooker, the Association's public relations director, in discussing the Association's plan for urging new forms of state revenue for education.

Members and secretaries of the 11 educational districts have been asked by K.E.A. President Herman McGuire to meet Wednesday in the office of Russell B. Hodgkin, state superintendent of Public Instruction, at Frankfort. Possible new sources of state revenue for education are to be discussed.

Stated for discussion, Brooker said, are the part-mutual tax measure and the bill to raise the cigarette tax one cent. Most of the revenue under both bills would go toward teachers' pay.

SORORITY VICE-PRESIDENT—Miss Emma Louise Patrick, daughter of Mr. and Mrs. H. B. Patrick, was elected vice-president of her sorority, Kappa Delta, at the University of Kentucky, Lexington, last week. Miss Patrick, who was social chairman of the sorority, resigned to accept the new post.

DINNER HOSTESS
Mrs. C. L. Huttsiniller entertained to dinner Tuesday evening Mr. and Mrs. Wm. H. Gipe, Toronto, Canada. Major and Mrs. E. P. Arnold, Mrs. Mary D. Allen, Dr. C. L. Huttsiniller and Miss Mary Catherine Huttsiniller.

It's a man's life!

Do you know whether you've got what it takes when the chips are down?

There's one good way to find out just how much of a man you are. Enlist in the U. S. Army as a combat soldier. That's tops. That's the spearhead—the sharp cutting edge of the Army's manpower.

The world's best training for manhood is in the Infantry, Artillery and Armored Cavalry. Once you've made the grade in these hard-hitting services you'll know what you've got. You'll have firm confidence in your own abilities.

It's a proud feeling to be able to say "I'm a U. S. Army Soldier." There's no more honored title than that. It stands for the finest fighting man on earth.

The work of a combat soldier isn't easy or soft. But it's vitally important to the peace and security of America. There's satisfaction in it. There's good pay—better than in most civilian jobs. There's the opportunity for excellent training in a wide variety of valuable trades and skills. And there are other things money can't buy—such as rugged, clear-eyed health and the lasting comradeship of real men.

If you're 18 to 34 years old (17 with parents' consent), physically sound and mentally keen—if you'd like to prove to yourself that you measure up as a man—talk it over at your nearest U. S. Army and U. S. Air Force Recruiting Station today!

Mrs. Hall's Statement

Dear Editor:

I am enclosing a letter from our Nation's Prayer Tabernacle that was praying a special prayer for God's will to be done on Feb. 13, 1948 in a trial in circuit court for writing a letter to Les Prauser. I wrote the letter with divine guidance. I wrote it on a Bible. I wrote it with a blood-stained fountain pen taken from the pocket of my late husband, Levi Hall, Chief of Police of McDowell, who was murdered Aug. 22, 1937, by a man in a drunken rage. Four so-called preachers testified against me.

By the help of God and records of our nation, my Bible and personal appearance, I received a verdict of not guilty of any damage to any one by the letter writing. I wish for all God-fearing men and ladies of our nation to read the 18th chapter of St. Luke, the 4th chapter, 25th verse, 12th chapter Revelation and 4th and 5th chapter of John. Then compare it with my record as a true Christian mother, widowed by murder, and a Gold Star mother of our nation. Thank God first and last who prayed a prayer or helped in any way to see where there is right there is might.

Sincerely,
EVA MEADE HALL,
Ed McDowell, Ky.

Let's Protect Our Children

Several hundreds of school children are being transported daily to the different consolidated schools throughout the county. School authorities are making every effort to do this job with efficiency and safety for all concerned.

To continue doing this job well requires the cooperation of all highway users. Within the past months several instances of flagrant violations of traffic rules regarding school buses have been reported, thus endangering the lives of hundreds of school children.

Up to now we have had very few school bus casualties. Let us keep it that way. This can be done only by strict observance of traffic regulations regarding school buses. Let's not have it reported again that five children narrowly escaped death all because of negligence on the part of a highway user.

All drivers on the highway are asked to observe the specific traffic regulation regarding school buses: "No Driver is Allowed To Pass a School Bus While Loading or Unloading School Children." All school bus drivers have been instructed to take the license tag number of those who violate this regulation and turn same in to the proper law enforcement officials.

All highway patrolmen, county law enforcement officials and unmindful citizens are urged to be on the lookout for such violations. Let's not allow a single violator to escape prosecution.

LACKEY

The Lackey-Garrett Woman's Club met at the home of Mrs. Melvin Hayes for the February program meeting, Friday evening, at 7:30. The topic for discussion was "Our Widening Rift, with Russia," with Mrs. Richard Vinson as leader describing the geographical position of Russia. Mrs. N. D. Howard gave an interesting report on the economic situation in Russia. Mrs. Vinson concluded her program by giving a resume of the Marshall Plan, stressing the need for better understanding between the United States and Russia.

During a brief business session conducted by the club president, Mrs. Fred A. Martin, the club voted to donate \$25 to the Wayland P-T-A to help purchase needed instruments for the Wayland band. It was voted also to send a check for \$25 to the Committee for Kentucky to help further its worthy undertakings. It was also decided to send \$25 to the Department of Gardens of Kentucky Federation of Women's Clubs for garden seeds to be sent to European countries. At the conclusion, Mrs. Hayes, assisted by her daughter, Ann, served refreshments to the following: Mesdames Ralph Wright, the club's newest member, Edgar Dale, J. C. Wells, Fred A. Martin, Charles Sturall, Roy Souleberry, M. M. Collins, N. D. Howard, W. T. Hatcher, German Collins, Richard Vinson, Thomas Hatcher.

SHEDS DIRT...STAYS WHITE...

DU PONT HOUSE PAINT
CLEANS ITSELF!

Outside surfaces stay fresh and clean-looking when finished with Du Pont House Paint. Dirt and grime can't get a grip—rains just wash them away!

SELF-CLEANING Du Pont House Paint is so formulated that, as time goes by, a microscopically fine white powder forms on the surface. Heavy rains wash the powder away, taking dust and dirt with it, and leaving the surface clean and white again. Excessive accumulations of dirt (particularly in sooty industrial communities or in heavily shaded locations) may delay or interfere with this process. Because this "self-cleaning" is gradual, the wearing qualities of the paint film are not abnormally affected.

SELF-CLEANING Du Pont House Paint is as durable as it is beautiful... protects against rust, rot, and decay... gives lasting beauty and protection. Costs no more than ordinary paint—saves repainting bills! Call on a reliable painter for your painting jobs, and ask him to use Du Pont House Paint!

DU PONT SLIP-RETARDANT SELF-POLISHING WAX

DEVILS UPSET PANTHER FIVE

Garrett Adds Three Wins To Run Record To 21 for Season

By CARL HIGGINS

Garrett, Ky., Feb. 23 — Coach Claude Frady's Garrett Black Devils added three victories to their string over the past week-end by downing Pikeville, Belay Layne and McDowell. The Devils were guests of the highly rated Pikeville Panthers Friday night and defeated them 44-43 on the Pikeville Junior College floor. The game was a see-saw affair, with the score tied many times. At the beginning of the second quarter the score was 10-all, and at half-time the Panthers were leading, 23-21. However, it was the splendid third quarter rally by the Devils that netted them their hard-won victory as they outscored the Panthers, 13 to 6.

At the three-minute official time the Devils were on top by six points, 39-33. At this point things began to pop as Pikeville staged a rally which brought them within one point of

the Devils, but Stone's final jump shot put Garrett three points ahead with 20 seconds remaining. Pikeville, however, capitalized on a long set shot to bring the Devils' margin back to that lone point—and then it was all over. The Devils had defeated the Panthers, a team which had previously been liked only by the powerful Inez Indians. Johnson, of Pikeville, took scoring honors for the evening with 14 points, but was closely followed by Dewey Duff, of Garrett, with 14 and Stone with 12. The following night, the Devils defeated the Belay Layne Bobcats, 48-38, and Jack Stone and Ed "Rooney" Bolen netted 13 points each to lead their teammates to their second victory in two nights.

The third win and twenty-first victory of the season for the Devils came at the expense of McDowell last Monday night in the Garrett gym as the Devils from Left Beaver put up a stubborn fight during the last quarter to cut Garrett's big lead down to a measly four points when the final horn sounded. The score was, 45-41, as "Wild Bill" Stumbo took scoring honors for the visitors by netting 15 points. Garrett's two leading scorers were Dewey Duff and Gene Mullins, both boys netting 11 points each.

The McDowell game was Garrett's last home game and the Devils have

Program To Honor Early Methodist Church

The first Methodist Church in the Ohio River valley will be honored Sunday in another of the unique "Church Bells of America" series, a regular feature of the Western Auto Cycle Arrow Show at 10:30 (EST) over 27 NBC stations.

The Milford (Ohio) Methodist Church—"The Mother Church of Methodism in the Northwest Territory"—was founded in the year 1797.

The inspiration and leader of these first meetings of the early settlers was Francis McCormick, a disciple of Bishop Asbury. "The Prophet of the Long Road," who rode circuit to the outposts of America for 45 years.

Reverend McCormick had made the first clearing in that vast stretch of wilderness and had built the log cabin where those meetings were held.

Sunday morning's program will include the ringing of the century-old church bell, the recelling of the colorful history of the church and its bell, and the singing of one of the congregation's favorite hymns.

Hagan county farmers are planning to sow mixtures of orchard grass, reedgrass and timothy to improve grass production. Some are testing bermuda grass burr clover, bluegrass and reedgrass.

Where would you look for a lonely farm?

CITY folks used to think farm life was a lonely life.

Today, automobiles, telephones, and—above all—electricity, have nearly ended loneliness on the farm.

Electricity turns dark into day, pumps water, milks cows, grinds feed—does dozens of other chores—brings entertainment and market reports.

Who brought electricity to farms? The business-managed, self-supporting electric companies began the job some 60 years ago. They did the pioneering... developed new methods and equipment... learned to meet the problems of weather and distance... and continued to bring better and cheaper electric service to more and more farms.

For years this company has had a liberal rural extension policy. We will build electric lines to supply power to practically any farmer or group of farmers within the area we serve. We pay all the costs of making these line extensions and deliver electricity to farmers at the same low electric rates that are paid by city customers. In some instances rural customers pay a moderate increase in the minimum charge.

Electricity does all the chores around a farm, better and cheaper—at the same time it frees manpower and increases farm profits.
