## Plans To Combat Polio To Be Discussed Tuesday In Louisville Meeting

Plans to combat any possible infantile paralysis epidemic in Kentucky will be discussed at the annual First Pediatric Planning Conference which has been scheduled for April 25 in Louisville.

Mrs. Iva K. Ligon, secretary of the Kentucky Chapter of the National Foundation for Infantile Paralysis, said the conference would start with a panel discussion at 4 p.m. at the Brown hotel and continue through a dinner meeting. The meeting is sponsored by the State Board of Health, the Kentucky Crippled Children Commission and the Kentucky Chapter of the National Foundation for Infantile Paralysis.

Mrs. Ligon said it was expected that a permanent committee would be formed to make detailed plans to provide adequate care for polio patients in event of an epidemic this summer. She quoted State Board of Health reports advising there were 207 new cases in the state last year.

The purpose of the committee as stated by Mrs. Ligon would be to determine definite emergency procedures in event the dreaded disease should strike. She said the conference would attempt to learn the hospital facilities available, along with necessary care medical aid and other trained personnel within the state.

## OF INTEREST TO VETERANS

Two major changes in leave policies affecting veterans training under the G.I. Bill in job-training establishments and in schools below the college level have been announced by the Veterans Administration.

The changes are:  
1. Allowing these veterans to apply for 15 days' leave at the end of their period of enrollment, in addition to whatever leave they might have been authorized while in training.  
2. Placing full responsibility for granting leaves of absence taken during training—within a limit of 30 days a year—upon schools below college level and job-training establishments. This responsibility does not extend to the 15 days given at the end of an enrollment period.

Leave at the conclusion of enrollment periods may be obtained only if the veteran has enough remaining entitlement time to cover the requested leave.

Under the new policy, leave taken during training now becomes a matter strictly between the veteran and his school or employer-trainer.

Only absences to be reported to Veterans Administration in the future are those considered by the school or establishment to be unauthorized, as well as time off in excess of 30 days in a calendar year, exclusive of Saturdays, Sundays and holidays.

These reports are necessary so that VA may make appropriate reductions in veterans' subsistence allowances.

VA emphasized that all schools—including colleges—are to continue to notify VA of all interruptions in training.

Ninety-eight per cent of the World War II veterans who have entered training under the G.I. Bill are eligible for additional training, according to figures disclosed by the Veterans Administration.

At the end of January, 1944, a total of 6,228,797 veterans, at one time or another, had entered training under the G.I. Bill and the Vocational Rehabilitation Act. Of these, 5,749,023 had trained under the G.I. Bill and 479,684 had enrolled in schools and training establishments under the vocational rehabilitation act, or Public Law 16.

Of this total, which represents 60 per cent of the nation's 15,800,000 World War II veterans, only 61,400 veteran students and trainees had exhausted their entitlement to further G.I. training, while 81,669 disabled veterans had been declared rehabilitated under Public Law 16.

Many veterans training under the G.I. Bill did not receive subsistence checks on time this month because they failed to notify Veterans Administration of a change in their address.

All veterans receiving monthly checks from VA are urged to report promptly all address changes, since the postoffice department cannot deliver a government check to addresses not occupied by the person to whom the check is issued.

An undelivered check is returned to the Treasury Department disallowing office. The office notifies VA and the records are reviewed to determine whether the check actually was sent to the address furnished by the veteran. If the address used was the latest furnished, VA holds the check until it hears from the veteran.

### QUESTIONS AND ANSWERS

Q. Are patients in VA hospitals permitted unlimited participation in competitive sports?

A. Patients may participate only with the permission of the doctor in charge. An average of 4,000 veterans per month have been taking part in various sports at hospitals and homes.

Q. I wish to take on-the-job training. Where should I apply?

A. Apply to your nearest VA office. Take along a certificate or photostatic copy of your discharge papers. If you are married or have one or more dependents and want subsistence allowances, take along your marriage certificate and other documents that will establish your dependency claim.

Q. I have completed my on-the-job training course and have some entitlement left. I would like to take another course. May I enroll at another school?

A. You may use any remaining entitlement either for on-the-job training or for educational training with VA's approval.

## GADJET, BEARING HIS NAME, AIDS BLIND BOY AT TRADE

Invented Especially For Handicapped Pike Youth

A gadget invented and built so specially for him that it bears his name will make it possible for Trumble Runyon, Pike county boy, to practice the tedious and trying trade of radio repairman, despite the fact that he is blind.

The Pigeon Fork youth has just completed a course in a radio school at Louisville. He is ready to do business on a commercial scale—thanks to his "Runyonometer."

The young man has been blind since he was seven years old. His father, Acye Runyon, brought home some dynamite caps from a mine where he worked, intending to use them for clearing land. Young Trumble never had seen a cap before and was playing with one when it exploded, destroying the sight of both eyes.

The boy was educated at the Kentucky School for the Blind at Louisville, then specialized in radio at a commercial school.

The Runyonometer is about the size of a table radio. It is the invention of one of his instructors, Bob Nevitt. Its inventor calls it "a whole radio service in one box." He says it contains about 12 different testing machines seen in the ordinary radio shop, linked together for the convenience of the sightless student.

Runyon can carry it anywhere and he is equipped to find worn-out radio tubes, locate the cause of static and cure it, as well as perform all the various tests a professional workman uses. "Then he can go ahead and remedy the trouble, locating the parts by feeling and testing as he goes along, until he is satisfied the set is as good as new."

Except that he works by "feel," Runyon's methods of workmanship are no different than those of any other radio repairman. It's the testing device that makes all the difference.

Born at Osborne, he was a son of William and Sarah E. Trickett Sturgill and a member of the Church of Christ. Before entering service he was employed in a defense plant at Detroit, Mich.

## Prestonsburg Lions Vote Unanimously To Sponsor Girl Scout Troop Here

Prestonsburg's Lions Club voted unanimously at Tuesday evening's meeting to sponsor a Girl Scout troop here in addition to the club's sponsorship of a team in the local softball league.

Sponsorship of the troop came after four of the girls, accompanied by Mrs. Chalmers Frazier, appeared before the club to ask its help and to render an entertaining program.

The club was told there are 90 Prestonsburg girls who want to be Girl Scouts but that only two troop sponsors had, at that time, been found. Each troop is limited to a membership of 15, and so at least three more sponsors are needed if all the girls are to participate in the work.

The "Runyonometer" combines, among other things, a signal tracer, signal generator, 1,000-cycle multi-vibrator, and auto-radio power supply.

As an example of how Runyon makes a test without eyesight, he inserts a tube of doubtful condition into a socket, starts a signal going through it, and turns a dial, increasing or diminishing the force of the signal until the sound is "canceled out." That tells him the condition of the tube. Banned characters in Braille on his dial tell his sensitive fingers the reading other workmen would get by sight.

In all there are 82 buttons and a row of switches on the face, top, and back of the Runyonometer. Dials and some of the switches have Braille characters, representing figures or letters, made with a plastic substance. On some of them Runyon just memorizes the positions.

"That's not hard," the youth says. "They're in symmetrical order."

Inventor Nevitt estimates the separate testing devices his Runyonometer replaces would cost \$400. The combined machine will cost Runyon \$93 when the last button and dial are in place. Some of the outside fittings are still missing, although the machine has been working some weeks.

"The \$93 includes some of the parts we spoiled and threw away," said Nevitt. "It doesn't include science and craftsmanship and loving care and interest he has put into the job."

## Lost Dog Tramps 1,000 Miles To Homefolks from Kentucky

"Jeep" traveled rough roads, and long, but he got there—1,000 miles away and 17 months later.

A four-year-old mongrel, with spots predominating, Jeep was lost in the Kentucky mountains in November, 1947 when his master, Henry Hall, and family, were en route to California.

Last Sunday, Jeep plodded up to the front door of the Hall home in faraway, Waltham, Massachusetts. The dog was ill, half-starved, his paws swollen and sore.

After losing Jeep, the family continued their trip to California where they spent nine months before returning to Waltham to build a new home, a short distance from their old one.

Sunday, the Halls spotted a dog wearily walking toward the former homestead.

"That's Jeep!" cried out 13-year-old Priscilla.

The dog wagged his tail at the sound of his name, she said.

The family took him into the new house and showed the dog Jeep's old blanket. Priscilla said the dog showed his first sign of "real affection" when he saw the blanket.

Hall said the pet was frail and undernourished and could consume

## AIRING RURAL ROAD NEEDS

Ky. Highway Department Chief Appearing Today In Washington Hearing

D. H. Bray, chief engineer for the Kentucky State Highway Department, will tell a Senate sub-committee in Washington today about Kentucky's needs for rural roads.

A public works subcommittee headed by John J. Sparkman of Alabama is conducting hearings on this introduced by Senators Stennis, D. Mitchell and Kerr (D., Ohio).

The measures would provide for annual 100 and 150 million dollars between to aid states in constructing roads other than U.S. state highways.

The bills would provide also for establishment of a rural-roads Division of the Public Roads Administration. It would maintain representatives in each of the states participating in the program.

Appropriations amounting to one to \$300,000 annually would be distributed among the states on the basis of land area, rural population and road mileage. Up to 30 per cent of the cost would be paid by the U.S. government; the remainder in such manner as the state legislatures provide.

Testifying in behalf of his bill, Stennis declared: "There is no old available now for roads connecting the farmers' homes with school-bus routes, mail service, churches, and nearby trading centers. A federal rural road program should be established and continued until every farm in the country has access to an all-weather road outlet."

## FORMER ATTORNEY GENERAL BAILEY P. WOOTON DIES

Buried Among Kentucky's Statesmen at Frankfort

Bailey Peyton Wooton, former Attorney General of Kentucky, died in Frankfort Saturday. He was 78 years old.

He went to Florida in January in an effort to regain his health, but his illness persisted and Mr. Wooton returned to Frankfort March 10. He had been under a physician's care since last October.

Services were held at Frankfort and he was buried in Frankfort cemetery among many of Kentucky's distinguished statesmen and soldiers. Wooton, a Democrat, was elected Attorney General in 1931. He defeated the Democratic nomination for Governor in 1935. In 1936, in the primary run-off, he supported Gov. A. G. Chandler, who later named him director of state parks.

Born on a Muhlenberg county farm, Wooton attended the county schools, the Rochester, Ky., seminary and Lebanon, O., University. He received an engineering degree from Lebanon and then earned a law degree at Southern University, Huntsville, Tenn. This school later was merged to form Union University at Jackson, Tenn.

Wooton then moved to Hazard. He became principal of the Hazard school and served for 20 years on the Hazard Board of Education. Part of the time he was president of the board. During his administration, six new school buildings were constructed.

But from 1930 on he devoted most of his time to the practice of law. He was widely known as a land title expert.

He established the Hazard Herald in 1931 as a weekly newspaper. Now it is a daily. Wooton was part owner of the publication.

He also found time for newspaper work at Elton, Ky., and Paducah, Ky., where he helped develop and name in honor of Kentucky's Paducah.

Wooton is credited with establishing the first bank at Hazard and with bringing the first telephone and first electric power into that city.

His involvements in land-title litigation brought him before the Kentucky Court of Appeals about 250 times before he became Attorney General.

During his service as Attorney General, he went into the Supreme Court and other federal courts in behalf of Kentucky. He pushed the legal fight that empowered Kentucky to tax bank stock bought by the Reconstruction Finance Corporation.

Wooton was always active in politics. He was a delegate to the Democratic national convention in 1916 and in 1932 became chairman of the Democratic central executive committee. He was an early supporter of Franklin D. Roosevelt and helped line up Kentucky delegates to the 1932 convention that nominated the late President.

He served as president of the Hazard Chamber of Commerce for six years, represented Kentucky as a delegate in 1915 to the Southern Agricultural Congress and was a delegate to the National Good Roads Association meeting in 1925.

He also was a member of the National Association for the prevention of Crime and the American Bar Association. He was admitted to practice in Kentucky in 1897. Wooton was a Methodist, Mason and a Rotarian.

His last appearance in public affairs was as a member of the "Committee of One Thousand" in 1947. The group successfully led the fight against the calling of a convention to revise Kentucky's constitution.

He married Rebecca Boggs, Hazard, in 1902. They had one son, Thomas Wooton, now a mining engineer in San Francisco. After the death of his first wife, he married Clara Collins, Paris. They had two daughters, Mrs. Wooton Beck and Mrs. William M. Horn, both of Frankfort. Three grandchildren also survive.

Illness of one month resulted in the death Sunday of Mrs. Nels Howard Stephens, 48, at her home at Manton. She was the wife of Lee Stephens.

A daughter of John and Polly Whalaker Howard, she was a native of Madison county and a resident of Manton for the past 15 years. She was a member of the Church of Christ.

Other survivors are two sons, Talmadge and Hayburn Stephens, at home, five daughters, Mrs. Mose Osborne, Mrs. Melvin Miller, both of Manton; Misses Hansford, Virginia and Joan Stephens, all at home.

Funeral services were held at 2:30 yesterday (Wednesday) with the Revs. Henry Parsons, Marion Kidd, Eldred Howard, Jack Hale and John Ousley officiating. Burial, under direction of the Arnold Funeral Home, was made in the Duncan cemetery near Haysville.

Final Rites Held Sunday For Sgt. Bill Roberts Killed In Army Action

Final rites were held Sunday for Sgt. Bill Roberts, 23, who was killed in action in France, September 17, 1944, while serving in the army.

He was a native of Manton and the son of the late Sidney and Mary Roberts. He was a member of the Baptist Church.

Other survivors are four sisters, Mrs. Noah Williams, McDowell, Mrs. Willard Moore, Shirley Roberts, Sidney and Joan Roberts, all of Manton, and two brothers, Hayden Roberts, Porto Rico, and Burl Roberts, Atlantic City, N.J., both in the navy.

The services were conducted by the Rev. Willie Collins and burial in the Lucy Hall cemetery was under direction of the Arnold Funeral Home.

land, and later was acquitted in the shooting and wounding of Mattie Mullins at the same time. Mildred Hunter and Gladys Castle were convicted of grand larceny in theft of money from the Hall Wholesale at Allen, and each drew a one-year term. The same penalty was enacted of Gene Meade and Mike Smith on a storehousebreaking charge.

Oscar Hicks was acquitted of a cutting and wounding charge. M. V. Click lost his appeal from county court where he was convicted on a liquor charge and fined \$100 and given a 30-day jail term. The circuit court jury left the fine standing and upheld the jail sentence to 60 days. Ben Scott drew a \$10 fine for operating a roadside without a permit, substituting law and facts. Grant Hall's fine for selling whiskey was set at \$100, and Curtis Stone drew the same fine for reckless use of a deadly weapon.

Jackie Hall, confessed looter of many the business place, and who is now serving a life term under the habitual criminal act at Edwille, was returned here for the arson trial of George Hall. The case, however, was continued when some witnesses were reported out of the state.

New Undertaking Firm Sets Formal Opening

The Arnold & Hall Funeral Home opened at Martin, Wednesday, and announced at that time that its formal opening will be held Saturday, April 30.

Owners of the funeral home are Mayor E. P. Arnold, Prestonsburg, John C. Hall and Birchell Hall, brothers, of Martin.

TRUE OR FALSE

When an unwed man drinks intoxicating beverages he does several other things in that same act. He may please a fellow drinker, he may increase his reputation as a "good fellow" and he may enjoy a certain sense of liberation and exhilaration. But he becomes less free, less alive, less likely to receive and appreciate the salvation that the Lord Jesus Christ came to give to men. He increases his guilt before God, and multiplies his burdens and handicaps and headaches.

When a Christian and a church member drinks intoxicating beverages he does several things, also—he dishonors his Saviour, disgraces his family, disturbs his church, destroys his testimony, discounts his profession of faith, disspates his own faith and joy, disgraces all right-thinking people who love him, and discourages others from trusting Christ.

### Tech vs. Tuck!

For the first time since 1942, the University of Kentucky team, Georgia Tech in Atlanta on Oct. 28, 1936. A second game of a two-year contract, announced last Saturday, brings the "Rankine Wreck" of the Southern school to Lexington, Oct. 6, 1951.

The Atlanta incident will be the seventh engagement between the two Southeastern Conference foes. Tech won the last game, 47-7, seven years ago. The first game in 1923, resulted in a tie, 2-2.

### St. X Sets Five Records

St. Xavier of Louisville set five new records in easily capturing the Kentucky high school swimming title for the third straight year in the recent championship "aquatics" meet at the University of Kentucky.

St. X won first place in seven of the eight events to amass a total of 45 points. Louisville Manual was the runner-up with 20 points.

## GET YOUR FISH-REGARDLESS

Ritual has its place, but not in fishing, according to John Aiden, who is one of the country's best-known and most authorities. He writes that the traditional approach will win you your chance at a big trout, and he has some interesting things to say about it.

The upstream cast is particularly hazardous if the trout should happen to be in the water. The result is a fisherman who will put down every trout he catches.

Try casting downstream with your fly coming at the trout first and the leader and line out of sight upstream; you won't have to use anything finer than 3-X leader points.

Incidentally, in downstream fishing there is a point where you set in. In this case, you set in or lose the fish. It is quite practical, actually, to use a fly that is a little heavier than the trout.

"When fishing in a river, I would cast across and up and allow my fly to drift down opposite me before picking up to recast. Now and then in the hope of catching a fish which had refused my offering, I would allow the fly to drift down it really works."

## State Champs To Open Season In Twin-Bill Against Maroons

Firing both barrels in the opening gun of their 1949 baseball campaign, the Kentucky high school champion Prestonsburg Maroons meet the Wheelwright Maroons in a doubleheader here at 1 p.m. Saturday afternoon in Porter Field.

A slated opening game of the official 1949 county prep season last Friday between the Blackblacks and the Garrett Black Devils here was postponed due to unexpected cold weather.

With two of his three pitchers, more or less incapacitated, Coach Wilbur Schu was loaded this week with an extended cast of "Monday blues." Holdover pitcher Paul Harmon, who was shot in the neck while fishing on the river bank Thursday, and "Blue" Childers, who has developed a sore arm from some "extra-curricular" practice pitching last Sunday, are not expected to be in the best form for the coming double-bill. Lack of experience often no due as to the expected performance of Alex Patton, Schu said that outfielder Jimmy Joe Dorosetty may

### Mayo Broad Jumping With Eastern's Maroons

Eastern State Teachers' Maroons tracksters have a Prestonsburg youth on their roster who is making every effort to get ahead by leaps and bounds. Henry "war" out of town Mr. and Mrs. H. L. Mayo, and a freshman at the Richmond school, has made the travelling squad of Eastern's harriers as a broad jumper.

In a meet against Centre last Tuesday Mayo took second honors with a leap of 18' 11" while his teammate, Joe Harper, copied first by bounding 18' 11". A muddy field put a damper on this Centre meet. Tuesday of this week sees Mayo and buddies competing at Georgetown.

Sound waves have been perceived at a distance of 3,000 miles.

### To the People of Magisterial Dist. No. 4:

After being over our district and talking to some of you people, I more fully realize the need for a "real-honest-to-goodness" Justice of the Peace. I'm sure that you want a man who is interested in BETTER public roads for ALL the people, and just a CHOSEN FEW. This makes me more determined than ever to try and be your next Magistrate. If nominated and elected, I will repay you with the same faithful and unselfish service that I gave while serving with the U.S. 15th Air Force over Germany during this last war. My army duty was no cushion job and I am not looking for a soft job at the taxpayers' expense. Your vote and influence deeply appreciated.

Yours respectfully, for a servant of the people,

IRVIN AKERS, of Emma, Ky., for MAGISTRATE, Dist. No. 4, Republican primary, August, 1949. 4-21-41-pd.

### TO THE VOTERS OF FLOYD COUNTY:

I am proud to be an American. I am proud of my country, my state, and my county. I am glad to live in our Great Democracy where a young man can grow up with the help of God and his fellow man, receive an education and a chance in life no matter how meager his materials and means might be. I am a firm believer in government for the people and not government for some politician or group of politicians. If you nominate and elect me your County Court Clerk, I will be there to faithfully, honestly and diligently serve you and the good people of Floyd County. No job in that important office will be too small or too great for me to overlook my duties and obligations to you and our fellow citizens. (The office of County Court Clerk is yours. You must select a custodian. Place me in charge for the next four years and I will guard it for you. During that time I will give to you and your office all that is in me. Every voter in Floyd County has his or her interests, rights and privileges recorded, filed, or registered in our County Court Clerk's office. Give me the opportunity to serve as your clerk and I will make it a pleasure for you to come into your office to transact business. I will faithfully and accurately keep and protect your interests, rights, and privileges in a cheerful and excellent manner. Your Friend, DURAN MOORE 2-24-11-pd.

### TO THE PEOPLE OF FLOYD COUNTY:

Upon the solicitation of many friends and good citizens, I have at last decided to seek county office, and this is to announce my candidacy for the Democratic nomination for County Judge.

I have served as Magistrate in District No. 3 for the last 10 years and during this time have tried to remember always that my duty is, first of all, to the people, rich and poor alike. My record has been such that I have no regrets. I have worked to be of service without thought of enriching myself at the expense of others. And if elected County Judge, the same motives will be behind my every act in office. I pledge my efforts, in particular, to better rural roads.

Your help in the coming campaign will be deeply appreciated. HENRY STUMBO McDowell, Ky.

### To the People of Magisterial Dist. No. 4:

This is to let you know that I am a candidate for the nomination for Justice of the Peace of Magisterial District No. 4, subject to the action of the Democratic party at the August primary. I have served you heretofore and always have been ready when you called. I have fought for your interest at all times and will continue to do so. I will not share in anything that comes along. You all know that I am ready to accommodate you any time you call, whether rich or poor. Why chance when you have a man who will do the job?

The same fellow every day and who can see you all the time whether there is an election on or not. A man who is qualified for the office and who will do the job right. Your support and influence in this election for me will be appreciated. Most of you know that I am a fellow who will return the favor. (Pol. adv.) DEWEY ROBERTS

### To the Democratic Voters of Floyd County:

I hereby announce my candidacy for County Court Clerk. I am a native son of the OLD REGULAR BAPTIST CHURCH, and have been a coal miner for 30 years. Fellow Democrats, nominate me and I will win, because I will serve the people all of the time, regardless of their standing in life. I will be faithful and true to all the people. Yours to win, BERT NEWSOM Grethel, Ky. 3-31-121-pd.

### TO FLOYD COUNTY VOTERS

I believe that the time has come in Floyd County for the voters to work and elect a working man for our Jailer. After all, it is the working man that pays all the bills. The only true politicians are for the working man in an election day.

I am a crippled man, having lost a leg seven years ago. I am a member of Local Union No. 7791, Drift, Ky. I am a resident of Arkansas Creek and am known all over Floyd County as "One-Legged Henry Swann" Johnny Conn.

I am a Christian man and trying to lead a good life and all the citizens know that they will be treated fairly. I am nominated and elected, I can do it within the next four years, make for myself and family the "new cop" I had hoped to earn during my present term.

Certainly I have no ambition to remain in jail for a long period. As most of you know, I am unable to move the mines for other fields of hard labor and earn a livelihood. But I can do the work of Jailer as well as any, and that is why I am a candidate.

Please consider my case. I trust you will not think I am asking too much. Your friend, EVERETTE COLLINS (Pol. adv.) 4-14-11-pd.

JOHNNY CONN, Arkansas Creek, Martin, Ky. (Pol. adv.) 4-14-11-pd.

## PROOF OFFERED

I have been requested by Bible readers and Christians to keep my articles in your paper. Some one has said I should not have to pay. Many have told me they bought your paper to read my articles. Others have written me, saying faith like I have will endure the storms of life.

I obey God rather than man. For I am the Lord's free woman. God's blessing at Easter time. He arose again, the third day (1st Cor. 15:4). A woman carried the first message of the risen Lord (St. Mark, 16th chap.) A woman carried the first message between the Jews and Samaritans. Christ talked to her at Jacob's well (St. John, 4th chap.)

What happened to Peter near Easter (Acts 12th chap.) Peter vexed by Herod (4th verse) and when he apprehended him he put him in prison and delivered him to four quarters of soldiers (4th verse). Peter therefore was kept in prison but prayer was made without ceasing of the church unto God for him (12th verse) praying at the house of a woman (12th verse) a damsel heard Peter knocking (18th verse). Peter continued knocking and when they had opened the door they were astonished (Acts 5, chap. 3-12 verses). A woman called a disciple: Now, there was at Joppa a certain disciple called Tabitha which by interpretation is called Dorcas. This woman was full of good works and alms-deeds which she did.

Isaiah, 54th chap, 6th verse: For the Lord hath called thee as a woman forsaken and grieved in spirit and a wife of youth when thou wast refused, saith thy God (4th verse). Fear not; for thou shalt not be ashamed, neither be thou confounded for thou shalt not be put to shame for thou shalt forget the shame of thy youth and shalt not remember the reproach of thy widowhood any more (5th verse). For thy maker is thine husband, the Lord of Hosts is his name; and thy Redeemer the Holy One of Israel, the God of the whole earth, shall he be called. A Specialized Prophet Jeremiah (Jeremiah 31st chap, 22nd verse). How long wilt thou go about, O thou backsliding daughter? For the Lord hath created a new thing in the earth: A woman shall compass a man.

The love of the church to Christ, song of Solomon, 8th chap, 5th verse: Who is this that cometh up from the wilderness leaning upon her beloved? I raised thee up under the apple-tree.

Now this is a warning to church and state that is in authority in Floyd county, if you fear God and keep his commandments, I ask for seven men of honest report full of the Holy Ghost and wisdom to come under my apple tree not to sit at my natural table as the apostles were commended (Acts 6 chap, 3rd verse); but protect my home and my God-given rights as I am standing on God's word and the things I know to be right. We have a knowledge doctrine in our land and I refuse to follow.

## BETSY LAYNE

The Women's Society of Christian Service met Thursday evening with Mrs. Dockie George with Mrs. Eliza Blackburn presiding. The theme of the devotional lesson was, "Our Friends in Latin America," and was well presented by Mrs. Elizabeth Roberts. New officers elected to begin their responsibilities June 1 include Mrs. Mary Elliott, president; Mrs. Laura Chandler, vice-president; and Mrs. Amanda Williams, secretary-treasurer. At the close of the business session refreshments were served to the members and two visitors, Mrs. Letha Steele and Miss Mary Clark.

The community Easter sunrise service was well attended Easter morning at 7 with all the churches represented. The call to worship was given by Jesse Elliott and Sam Paul Combs; scripture reading, Abel Hall; message of Easter, Rev. Clyde Layne; prayer, W. D. Steele, and the benediction by Rev. K. Noel. Each church observed its own Sunday School hour and Easter services later in the day.

A group of little friends of Patricia Stanley gathered at her home Saturday afternoon to observe her third birthday. After the children had enjoyed games and singing Mrs. Stanley lighted the candles on the beautifully decorated cake and then served cake and ice cream to the guests, presenting each one with a chocolate rabbit as a favor. The little honoree opened her many gifts and thanked the donors before the guests made their departure.

Sgt. Claude Daniels returned from overseas recently and is spending a lengthy furlough with his parents, Mr. and Mrs. Ray Daniels.

Who Is a Few and Who Is Selfish?

THIS section of Kentucky has voiced an overwhelming sentiment for canalization of the Big Sandy river as a move toward the economic independence of the area and its freedom from dependence on a national debt. In this Eastern Kentucky and the great majority of its citizens have been joined by officials and citizens of other sections of this and several other states.

In sympathy with Eastern Kentucky and its dream of industrial development and the economic well-being to which it is entitled are the Vice-President of the United States, the Chief Justice of the Supreme Court, Kentucky's Governor, the Senators, Congressmen and practically every ranking official of the state.

Yet John L. Lewis and those lieutenants who echo his opinions publicly oppose locks and dams for the river, and a relative few of the miners follow them without questioning.

This newspaper can understand the opposition of the Chesapeake & Ohio Railway Company to locks and dams. Even conceding that canalization would injure the railway firm's business, it is but natural that it frowns on new competition in any form now as it has always done. We can understand why the Kanawha section in West Virginia, with the advantage of canalization already placing it in a commanding position, would oppose improvement of the Big Sandy as a means of transportation.

But we can no more understand how a miner can oppose locks and dams, could it be that it has become apparent that some coal-producing section must inevitably suffer and that ours has been chosen, not maliciously, but as a matter of overall policy, to bear the bitter brunt of the blow somebody must sustain?

Could we be earmarked for the dole if there must be a dole?

If we are, any of us of the Big Sandy region who concur in such trafficking with the destinies of thousands of our own are guilty of utter foolishness.

Two lieutenants of Mr. Lewis recently wired a legislator protesting the canalization movement and alleging that the move was for the benefit of only "a selfish few."

What "selfish few"? The Vice-President of the United States? All those other officials in high places? The fiscal courts and officials of all the counties of this section? The Parent-Teacher Associations, the civic clubs?

They are not a few. And all the thousands of them, dreaming of a richer, better Big Sandy, are not selfish.

The leaders of labor may be thinking of the national picture, and they are entitled to that view. But Big Sandy labor, the men depending upon the mines for employment, cannot afford to look that far. They must look to their own needs, regardless of what their leaders would like for West Virginia, Pennsylvania and other fields.

Their hope, like that of all the rest of us, lies on locks and dams on the Big Sandy, not on the Kanawha.
