## Voters To Face Lengthy Ballot

### Dull Campaign For Governor Dims Interest

Although the ballot is heavy—no less than 65 candidates are listed—next Tuesday's voting in Floyd county, and perhaps around the state, is expected to be comparatively light.

A Democratic governor's race which is on the inside side is blamed for the general lack of interest. As the May 27 primary date approached, however, some heat was being engendered in "local" races, and this may attract the voters.

Because of two legislative district divisions which cross county lines three ballots will be used in this county. Antich, Ticker, Toler, Mouth of Mud, Branham's Creek and Head of Mud precincts were cut with Pike county precincts into the 94th Legislative district, and there the candidates for Representative are Leo Roberts, incumbent, and Herbert Deskins. Abbott Creek and Audler precincts were cut into the 25th senatorial district with Johnson, Lawrence and Boyd counties, and the Democratic senatorial candidates there are Roy R. Ross, incumbent, and Lowell T. Hughes, a native of Prestonsburg.

In all other precincts these are the candidates as they appear on the voting machines:

**Democrats**  
For Governor—Todd Hollenbach, Robert McCreary Johnson, Julian M. Carroll, Mary Louise Faust.  
Lieutenant Governor—Thelma L. Stovall, Wm. L. (Bill) Sullivan, Rev. Charles A. Sweeney, Jr., Thomas M. (Tom) Ward, Lyle L. Willis, Ronald E. Butler, James O. Day, Louis S. Grace, Ed W. Hancock, Ewart W. Johnson, Wayne T. Rutherford.

## Blanton Victim In Rail Tragedy

Robert Lee Blanton, 37-year-old Allen resident, was instantly killed when struck by a train shortly after 4 o'clock Sunday morning at Allen. It was said that the body was thrown some 50 feet from the point of impact, and that he sustained multiple lacerations and other injuries. Carl E. Gilliam, engineer of the 175-car two engine coal train, said that his train was traveling east at 25 m.p.h., and that the victim was not seen until too late to stop because of his dark clothing and the fact that he was partially lying across the tracks on the main line at the Beaver Junction.

An investigation of the tragedy was conducted at the scene by Coroner James J. Carter, Detective Sam Hale, Lt. Gary Rose, and Trooper Roger Castle, of the State Police. Ray Clifton, with whom Blanton lived, was unable to give a clear account of events prior to Blanton's death.

The victim was a son of the late Charley and Bessie Justice Blanton. Survivors include three brothers, Charles Everett Blanton, of Richmond, Va.; Ernest Lee Blanton, of Adrian, Mich.; James Henry Blanton, of Wooster, O.; two sisters, Mrs. Maxine Halbert, also of Wooster, O., and Mrs. Betty Jean Crabtree, of North Matewan, West Virginia.

Funeral services were conducted at 11 a.m. Wednesday, at the Burget Community Building at Fritz, Ky., with the Rev. Wiley Wireman officiating. Burial was made in the Blanton cemetery at Seitz under direction of Hall Brothers Funeral Home.

## Lie Detector Test Clears Defendant In Death of Youth

William Riley Collins, who was under \$5,000 bond to appear here for a hearing on a reckless homicide charge in connection with the shotgun death of his 16-year-old brother on Middle Creek, was released Monday without hearing on the basis of a State Police polygraph test.

The 18-year-old Collins had volunteered for the lie detector test, and officials were informed that the test showed he was telling the truth when he said the shooting was accidental.

The investigation of the boy's death became involved when witnesses, most of whom were members of the Collins family, gave conflicting versions of the incident.

## Auto Parts Hit Here 2nd Time, \$1000 in Haul

East Kentucky Auto Parts here was broken into Friday night for the second time in two weeks and \$1,000 in cash and several automobile radios are reported missing.

Entrance to the building was effected by smashing a side window. In the first burglary \$4,000 worth of auto parts, a pistol, shotgun and rifle were taken.

No arrest has been made in either break.

Two men and a woman were arrested last week and charged with liquor possession by Sheriff Joe W. Lewis and his deputies. Chester Jarrell was arrested last Tuesday near his home on Buffalo by Deputy Sheriffs Green Stone, C. E. Kilgore and Commonwealth Detective Doug Lewis who reported they confiscated 13 pints of whiskey found in his car. A first offender, Jarrell executed bond the following day. Sharon Bailey was arrested Saturday on Salt Lick creek by Sheriff Lewis, Doug Lewis and Deputies Stone, Kilgore and Bradley who confiscated 54 cans of beer from a trailer.

Detective Lewis said the trailer is owned by James Shepherd, who was not at home at the time of the raid. The third arrested was Tom Hall, of Branham's Creek, from whom a small quantity of beer was taken at his home by Sheriff Lewis and Deputies Kilgore, Stone and D. Martin and Detective Lewis. He was booked on a second-offense possession count.

## No Autopsy Report In Death of Jones Has Been Received

The Times was informed by officials this week that, contrary to its statement last week, no report has been received from the pathologist who performed the autopsy on the body of Everette Jones, who was found dead recently near his home at McDowell.

Last week's report was based on a telephone call from a woman who purported to be Mrs. Jones.

Commonwealth's Attorney Harold J. Stumbo said Tuesday morning he has been promised a preliminary report from the pathologist within the next few days. He said he had no indication that there was foul play in the death of the 57-year-old Jones.

The retired miner's home was found in a hollow, near his home.

Allen, Big Sandy Area Development District board member.

## This Town... That World

FIT AS A FIDDLE?

Taking a fishing trip and going on a spree are alike in one respect: Whatever was worrying you when you left is there waiting for you when you come back. I was so physically tired by last Sunday night that I was willing to let the world go, hang itself. But come, as they say, the dawn and Monday morning, the return to this desk, and now you could gain "Yankee Doodle" on the old ganglia.

And I've waited till this late stage of the game (late Tuesday) to try to indite these few lines. Will I never learn?

THE SUPREME SACRIFICE

My No. 1 and No. 2 grandsons and I got in one day of fishing at Cave Run out of the three days we succeeded in being missing. I haven't told these boys how much I think of them, may never tell them. But I surrendered to the younger my favorite lure with which I was—won't believe this—dragging them in. And greater love have few men, that they give up their favorite fishing plug, if I may say so.

SIGN ME UP

The grapevine has it that petitions urging construction of one of more upstream silt dams on Dewey Lake are being, or soon will be, in circulation hereabouts. My signature fretfully awaits such a document.

CONGRATS

My personal congratulations to all candidates for public office with whom we've done business during the current campaign. They have shined away like stars.

## Police Auxiliary Is Formed Here

Recent action of the City Council created the Prestonsburg Auxiliary Police, a body of volunteers which may supplement the regular police department by as many as 15 men.

The auxiliary, presently composed of five men, was used on three occasions last week, helping during Saturday afternoon's heavy rainfall when some business houses were flooded and on Saturday night.

The first members are not subject to the probation period provided by those later joining the force. These "charter" members are Manis Gray, captain of the auxiliary, Shirley Lewis, Roy Roberts, David Cooley, Ron Johnson and Dean Webb.

The auxiliary force is fashioned after the group which is said to have been of great assistance to the Ashland department. No member is paid for his services except as may from time to time be provided by the City Council. They provided by the City Council. They provide their own uniforms and furnish bond, the premium of which is paid by the Police Department. The period of probation for members added later to the force will be from 6 to 12 months. Their power of arrest is restricted to authority by the chief of police of his designated representative.

## 17 Road, Street Projects Advertised for Surfacing

Seventeen road and street surfacing projects and two bridge cleaning and painting jobs in this county have been advertised by the Kentucky Bureau of Highways. Bids will be opened at 10 a.m., June 19.

Another 5.2-mile section of KY 979, from the railroad crossing 2 mile west of US 23 at Harold to the Branham's Creek road is among those slated for work. Other roads marked for improvement, all with Class I bituminous concrete surface, are:

## Community Group Buys Town

The town of David, once a model mining community, was purchased last week by the David Community Development Corporation from Woodrow Branham for a reported \$10,000.

It was the third sale of the community since the Princess Elkhorn Coal Company ended its mining operations there in 1968. The coal company first sold the town which it had created to John Allen, who later sold the property to Mr. Branham.

The group which now owns David is composed of individuals, some of whom are retired miners, and St. Vincent's Catholic Mission. These formed a non-profit corporation and began negotiations toward ownership of the town. Last September, St. Vincent's Mission loaned the corporation \$5,000 needed to acquire an option on the property.

Early efforts to buy the town were temporarily halted when estimates on the cost of repairing the old water system were regarded as too high, but sufficient

money was raised through the help of the Big Sandy Area Development District for participation with the Beaver Elkhorn Water District which proposes to extend its water service from the Hippo vicinity into David.

Purchase of the town was effected through a participatory agreement of the Housing Assistance Council, Washington, D. C., and the First National Bank here. CDC members said they received invaluable assistance from Congressman Carl D. Perkins, County Judge Henry Stumbo and other county officials, the Big Sandy Area Development District board and its executive director, Joseph S. McCauley.

"Why would anybody want to buy a coal town?" was a question the David group answered this week, to this effect: "Simple. David was the queen coal town at one time, and those of us here miss that. We want the chance to make it special again. We have just begun, we

## Heavy Rain Hits Area, Two Drown

### Pike and Letcher Damage Heaviest During Week-End

Prestonsburg and other parts of Floyd county barely escaped rain of cloudburst proportions Saturday afternoon, and that night southern Pike county and an adjacent section of Letcher county were hit by flash floods which claimed two lives and resulted in heavy property damage.

The principal damage reported in this county was to bridges. Old US 23 was blocked here Saturday afternoon when the heavy runoff of water clogged the drain at the Court street and Lake Drive intersection. Water rose into three nearby business houses.

Dewey Lake rose four feet as the flow from it into the Big Sandy was reduced to a trickle for the four-inch rainfall upriver, in the vicinity of John Plannagan Reservoir, where Letcher's last Sunday morning, and Charley Stone, of Dandridge, Tenn., who died about 1 a.m. Sunday when water swept his car from US 23 into a Letcher county stream.

Flooding on small creeks in the Pike-Letcher area left about 140 houses and 60 mobile homes uninhabitable, including about 50 that will have to be rebuilt or replaced, according to Civil Defense and Red Cross estimates.

The Red Cross began taking applications for disaster relief at the Dorton High School.

## Workshop Here To Give Review Of Water Study

The million-dollar study of water quality in Kentucky, begun months ago, is almost completed, and the results of that study will be presented in a one-day River Basin Management Planning Workshop, June 5, at May Lodge, Jenny Wiley State Park.

Do 10 river basins in the state have been closely monitored during the study by as many consulting firms, and their work has included testing sewage treatment, water recycling and usage. Interested citizens, as well as administrators, legislators, and environmental groups, are being invited to the workshop, which will be held in Rooms 1 and 4 of the lodge from 10 a.m. till 2 p.m.

The workshop is designed to offer information to prepare for the public hearing on the river basin management process, the choices available for implementation of federal regulations, and a suggested ranking, in order of need, of communities that will be eligible for grants to improve local water supplies and treatment.

The meeting will be an open forum for the consulting firms seek ideas and suggestions in order to consolidate requests and suggestions to make to the government. In addition, the Environmental Quality Commission, sponsor of the workshop, hopes to establish a permanent citizen advisory group for the basin project to participate in future basin management programs.

have land for housing and many other projects—for example, a coal mine museum toward which some coal operators already have offered help. We have the Daniel Boone salt spring, a sure tourist thing. We have plans for a community-wide cleanup, and everyone to be painted. We have a long way to go... but we have begun."

Involved in last Wednesday's closing transaction between Mr. Branham and the David group were Marshall Davidson, attorney for the Housing Assistance Council; Rich Eisen, Housing Assistance Council representative; Jim Necessary, of the First National Bank; John Rosenbaum, of the Kentucky Division of the Appalachian Research and Defense Fund, attorneys for the David corporation; and these CDC officials—Ashland Howard, president; Mrs. Betty A. Davis, secretary; Terry Jackson, treasurer, Mike Lansway and Gordon Tussey, board members, and Mark Palange, executive director.

**HEADS FOR EUROPE**

Commission of Commerce Larry G. Townsend will lead a four-member delegation to England and Western Europe to attract foreign manufacturers who may want to expand operation to the U. S. The group has compiled an "investment package" pointing out the advantages of Kentucky over other locations. The primary package elements are sources of energy, prime industrial sites, worker productivity, tax climate and market accessibility.

"4-H—It's Where You're At" is the theme of an expansion program, now under way throughout Kentucky, designed to offer the opportunities of 4-H to larger numbers of Kentucky youth, especially those in urban areas, and to interest more adults in serving as volunteer 4-H leaders. Goal of the expansion effort is 250,000 4-H'ers and 45,000 leaders by 1978, with special emphasis on reaching urban residents. Presently, Kentucky has 135,000 young people in the 9-19 age range taking part in 4-H and nearly 15,000 adult and teen leaders—an all-time high for the state.

## Don't Join the Quitters!

So you're not going to vote, next Tuesday. You're disgusted with politics and politicians. You've decided that the days of individual and national uprightness and greatness are mere memories, that things have gone to the dogs, literally, and that you may as well leave them there.

It's true, you can do just that. All that is needed for tyranny to prevail, you know, is for "good" men to do nothing. But if you think perfidy and skulduggery in high places are peculiar to this day, you might do well to brush up on your history and recall a few incidents which occurred, back in the distant past when we like to think that the breath of freedom blew strong across the land and that ours was a race of super-patriots.

There was Aaron Burr, for instance. While yet Vice President of the United States Burr shot to death his political foe, Alexander Hamilton. And while Vice President this same Burr was named a murderer in a grand jury indictment.

Then the career of this brilliant political figure was crowned with disgrace when he was charged with treason and brought to trial for turning on his country in those days of the early 1800's when the nation was in its infancy.

Did men give up on the democratic process and quit voting because they were disappointed with this trusted leader? They no more quit voting than the Ragged Continentals quit fighting when, a few years earlier, a general of the army, Benedict Arnold, sold out them and their country.

In 1867 a President of the United States was impeached. Whether Andrew Johnson was more sinned against than sinning, it is not our role to argue. But all the bitterness of the Civil War and its aftermath did not keep good men from registering their likes and dislikes at the polls.

Fifty-five years ago, a Secretary of the Interior went to prison for underhanded dealing of oil-rich leases to private individuals or firms at great financial profit to himself. A Secretary of the Navy resigned under fire. Men close to the President himself were involved.

Good citizens were disgusted with the turn of events. But they did not quit the role good citizens must play, simply because others had failed.

Indeed, it may be that the tragic happenings of the last year or so may inaugurate an era of outstanding integrity in official life. All will not be perfect, sure, and if all were perfect that virtue itself would draw the bitterest scorn. But we may have truly turned a dark corner. Men in public life, these days, face the pitiless glare of publicity—sometimes, the pitiless persecution. Whatever they do, wherever they are, whenever it was that they strayed from the straight and narrow—there are television and the press with what amounts to "instant replay." Be sure, their weaknesses will be told. Too often, the good that the same men do, as the bard put it, interred with their bones.

Anyhow, all is not lost. Unless we are a nation of quitters. Your one vote will not change the tide of events, but that one vote multiplied by a hundred, or a thousand, or a million, just might turn the trick. And, even if it doesn't, who wants to sulk in his tent, so to speak, and let others dictate the direction we shall take?

There are good men yet, and wise men, and politics is necessary to the conduct of this form of government which we profess to love.

Then have a part in it. At least go out, next Tuesday, and at every opportunity, and cast that one vote that is singularly yours.

gentlemen from the personal attacks which at one time marked every election. At least, they have spared me the chore of refusing to publish such tripe. Thanks, fellows. If any of you need a mate on a post-election voyage, just let me know. I want to get out of town, anyhow.

One of the longest "temporary" halts to a road job is that "from work on removing the cliff overhanging US 23 and threatening motorists in the northern (lower) section of Prestonsburg. That's more than a coffee break they're taking.

Now that we have this election campaign fairly well behind us, maybe we can get down to settling this Pike Warden matter. This is a must. Some of the candidates' constituents are cracking up under the strain and are beginning to mutter threats.

I'll meet you at the bank.

**CUT HAY EARLY.** If grass hay is not cut early, a lot of its value as feed for livestock is lost, according to J. Evans explains that as grass plants approach the seed stage, their digestibility and protein content go down. Maturity brings an increase in fiber content and a loss of many highly-digestible leaves.

Everybody Is Invited!

(Carroll-for-Governor Committee; Richard Fitzpatrick, treasurer)

Dear Voter:

From the beginning of my campaign for the State Senate, I have informed you fully as to my background (native Floyd Countian, grandson of former Congressman Andrew Jackson May); my education (Bachelor's Degree, Washington & Lee University; Law Degree, University of Kentucky); legal experience (20 years practicing law); political experience (City Attorney, Prestonsburg; former State Senator, 1968-1972; and my family (wife, Ann; five children).

I have also discussed issues: Return of our coal money from the severance tax for use in our district is a number one priority; better schools and educational programs are a must; more jobs and roads comparable to those in Central and Western Kentucky are long overdue the people of Eastern Kentucky.

My past voting record is a public record of which I am proud: The Black Lung Bill for disabled miners; higher teachers' salaries; removal of the sales tax from medicine and drugs; and resolutions urging the re-construction of Ky. 80, U.S. 119, and U.S. 23 in Eastern Kentucky are just a few of the many important pieces of legislation I sponsored or supported.

When you go to the polls next week, I hope you will consider my qualifications to serve you in the next General Assembly. I believe my background and experience qualify me as the best candidate for State Senator for the people of the 29th District, and that is why I ask for your vote and support.

Sincerely,

# Free Tornado Map Available from ECU

RICHMOND, Ky.—Imagine you are sitting in your most comfortable chair. It's early evening and you're watching your favorite television show or listening to the radio.

Suddenly from your television or radio the regular program is interrupted and you hear the announcer say: "Ladies and gentlemen, the National Weather Service has just issued a tornado watch for an area 50 miles either side of a line extending from ten miles east of Liberty to Winchester, Kentucky. Stay tuned to this station for further information."

Since April 3, 1974, all Kentuckians have been aware of the dangers involved when severe weather strikes the Commonwealth. Many citizens did not know exactly what to do then; many did not know the difference between a tornado watch and a tornado warning. And still today, many people do not know just how they should act and react before and during severe weather such as a tornado. Eastern Kentucky University offers some free assistance to Commonwealth citizens.

The ECU Geographical Studies and Research Center has prepared a tornado-severe weather plotting map which is available free of charge upon request. This publication presents a two-color specially-drawn map of the Commonwealth on which can be plotted the path of severe weather. Also included are specific instructions as to how the map should be used.

In addition to the plotting map, there are printed various definitions used by the National Weather Service in reporting severe weather. For instance, the definitions to the terms "tornado watch" and "tornado warning" are clearly indicated. Also included are the four most important aspects of tornado safety, with special attention given to shelter areas and how they should be used.

This free tornado-severe weather plotting map, which is suitable for posting on an office or home bulletin board, is available at many locales in the greater Richmond-Lexington area. They are also available through the mail and requests should be addressed to "Weather Watch Map," WKKU-FM Radio Station, Eastern Kentucky University.

# TO THE VOTERS OF FLOYD COUNTY:

As your Circuit Court Clerk I have kept every promise and fulfilled every obligation. I have been commended for keeping accurate records, and have made the services of this office available at all hours of the day or night.

As many of you know, I was instrumental in initiating the Drivers Training Program in our high schools. I was the first Circuit Clerk in the State of Kentucky to begin the practice of notifying auto drivers of the expiration date of their license. This practice proved to be so successful with the general public that the State of Kentucky now sends notices in all 120 counties.

I have kept your records honestly and with all the courtesy and friendliness of which I am capable.

It is on this record and a promise to continue as your friendly Circuit Court Clerk that I ask for your support. It will be appreciated.

## East Ky. Trail Retraces Old Indian Path

By HELEN PRICE STACY

In Carter County a troop of scouts is actively retracing paths of the Indians to make hiking trails for today's people. Scout Troop 162 of Grayson—along with its leaders, including Guy Pennington—came up with a short trail, five miles long, and an extended trail, 14 miles long.

The long trail is for the hardy hiker in good physical shape, for as Pennington stated, "I went over the whole thing recently. It is a full day's tour."

Called The Api-Su-Ahts Trail, the name roughly translates to Morning Star and means that one must get up early in the day to hike the length before sundown. Api-Su-Ahts Trail is wholly within the boundary of a wildlife refuge around Grayson Lake State Park in Carter and Elliott counties. The park is relatively new and one of the most beautiful of state-maintained facilities.

Scout leaders and at least 35 youths began work on the project two years ago. They received the go-ahead from the Tri-State Area Scout Council and a license from the U. S. Corps of Engineers to locate the trail. Api-Su-Ahts borders a part of the lake formed by an impoundment of the Little Sandy River, but mostly skirts the area's coves and finger-like streams.

According to Pennington, "as you walk you pass fields of corn grain being grown for wildlife. There are quail, dove and lots of deer tracks."

In the Frazier Flats section—the midway point of the trail—fields have been utilized to benefit the deer population, especially their winter grazing.

Along with establishing the trail, the scouts have the added responsibility of educating the public to its use. Any group "which has adult supervision to be responsible for the group and the property" may hike the Api-Su-Ahts Trail.

The trail and park area abounds in history. One of the North American continent's oldest fossilized trees was found nearby. Indians constantly roamed the traces, soldiers of the Revolution made homes in the hills, cliffs and canyons here; soldiers of the Civil War lived and fought here and seven who died in one battle are buried nearby, a log house standing on a gentle knoll above the lake is a reminder of how pioneers built their houses.

In working on the trail, scouts are building an even greater regard for nature and are establishing a monument with environmental impact. Further information about the trail may be obtained by contacting The Api-Su-Ahts Trail, P. O. Box 458, Grayson, Ky. 41143.

## Prestonsburg P.T.A. Elects New Officers

The Prestonsburg Elementary P.T.A. held its annual meeting, Tuesday, May 13.

The new officers for the 1975-76 school term are: President, Judith Gunter; Vice-President, Lorettie Blackburn; Secretary, Bonnie Hughes; and Treasurer, Shirley DeRossett. The P.T.A. brought in \$218.30 this year through concession stands during various community affairs, their annual Fall Carnival and chili supper, a book fair, and from donations by several individuals and businesses.

The P.T.A. has purchased new Stanford Achievement Tests and Otis Lennon Mental Ability Tests for grades 1-8. A new merry-go-round, seesaws, basketball nets, bleacher seats, and swings have been purchased for the playground, along with supplies to repair existing playground equipment. All the playground equipment has been newly painted by members of the P.T.A.

The P.T.A. voted in favor of an amendment to their by-laws, changing the annual membership dues from fifty cents to one dollar per member. It was also voted to buy a film strip cabinet for the school library. Plans are now underway for the P.T.A.'s Bicentennial Cook book and summer fund-raising projects.

By LARRY BURKE

There is a story told from a children's hospital in South America where every afternoon a child's voice would ring out in concert. His songs could be heard throughout the corridors of the large hospital.

Weeks passed, his singing improved, months went by and the singing began to take on a professional quality that was rarely found. By the end of the year, all the people in the hospital found themselves waiting for the boy to sing at his usual hour.

Finally the boy left the hospital, and eventually went on to become a great and beloved concert singer. People throughout his country flocked to hear him sing.

The boy was a victim of polio, and the doctors had recommended he sing to strengthen his lungs. At first the child was merely following orders, then he began to feel his songs, the people who listened began to feel the magic of his voice. They loved him so that they later made him a national idol.

Our thought to remember, LOOK FOR THE BRIGHT SIDE IT IS ALWAYS THERE!

In a statement released here, a state police spokesman said, "This publication is not endorsed by the Kentucky State Police, the Kentucky Sheriff's Association or the Fraternal Order of Police."

The statement was made after one Kentucky businessman told state police that a firm identifying itself as the Liberty Publishing Company, using a Jackson, Miss. post office box address, contacted him by mail in an attempt to solicit his business as an advertiser in the publication.

Powers suggested that anyone receiving mail from the company may either contact him or consumer protection officials in the State Attorney General's Office here at Frankfort.

**To All Floyd Countians Young and Old:**

With the election just a few days away, I would like to appeal to each one for your vote and support. I am seeking election to the office of Commonwealth's Attorney. I am opposed by Burnis Martin. Mr. Martin was Commonwealth's Attorney, some 20 years ago, and the people of this county remember well how he conducted that office.

I have been County Attorney since January 7, 1972. In that position I have worked diligently to investigate all crimes committed in Floyd County. I have paid excess fees to the Floyd County Treasurer which amount to approximately \$15,000.00.

As Chairman of the Big Sandy Regional Crime Council, I have worked with the judicial and prosecution officials in Martin, Magoffin, Johnson, Pike and Floyd Counties. We have worked together to better equip our law enforcement officials and have made diligent efforts to solve criminal problems in the Region.

As the people of Floyd County know, we do not have the same criminal laws in Kentucky that we had 20 years ago. As your County Attorney I have worked with the "up to date" laws and have prosecuted under these laws. I have not been semi-retired the last five years, as has been my opponent.

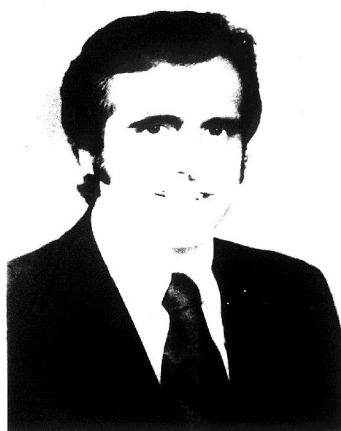

It has been reported that Floyd County has 13 unprosecuted murder cases. The fact is there are not 13 murder cases pending on the docket. Of the cases pending, Mr. Martin is defending three, two of which are against Eddie Jones (Agna's boy), who is charged for the murder of the two Conley boys on Right Beaver Creek.

As County Attorney I have actively protected the rights of organized labor. I have represented a local UMWA union in Floyd Circuit Court, and have helped assure organized labor the right to peacefully picket.

I ask the voters of Floyd County to judge me on the basis of my interest in the welfare of Floyd Countians, my honesty, service and being just a plain person. If you do this, then I am sure you will vote for me.

### Folk Remedies of Appalachia

To cure a grouchy or ill-tempered person, the old remedy was to give him (or her) a tea brewed from the blossoms of violets. It was presumed that the sweet fragrance of the flowers would sweeten their temper.

An old remedy for jaundice (yellow janders) was to scrape a cow's horn and boil the scrapings, to be drunk as a tea.

A remedy for worms in children was: Bake the shells of 2 or 3 hens eggs until brown and brittle. Crumble fine and mix with syrup and butter. Feed this to the victim every morning for a week. The fine particles of the pulverized egg shells cut up the worms and destroyed them.

It is said that this remedy also worked well for worms in dogs or other animals.

An old remedy for whooping cough: Have the victim drink one-half pint of mare's milk. If not obtainable, use the following: Take half cup of brown sugar, the juice of 3 lemons, the whites of two eggs, a bottle of olive oil, mix together and give the victim one teaspoonful every hour until relieved.

An old remedy to remove warts. Tie a horsehair around it, in due time it will come off from strangulation.

Another way to remove warts. Put the white juice (latex) of milkweed on them daily for two weeks. The latex kills the virus causing the warts.

Another old remedy for warts, bind a piece of salty bacon on them and keep bound overnight. The salt destroys the virus.

Another old remedy once widely used to remove warts was, steal the neighbor's dishrag and wipe the warts with it. Then bury it far out in the woods. The warts will soon disappear.

**REMEDIES FOR TOOTHACHE:** In the days when dentists were few and far between, people had various remedies

for stopping toothache. One was burnt alum, which was placed on the aching tooth and often gave good relief. Another effective remedy was: Put strong tobacco in a cob pipe, inhale a mouthful of the smoke and hold it on the aching tooth. Another good one was: Take some ashes of burnt hickory wood, tie them up in a rag and wet them; hold this against the aching tooth.

Often the aching tooth got so painful, no oldtime remedy was effective. So the victim had to go the local blacksmith, who kept a pair of "tooth drawers" handy. Then while a third man held the victim tight, the blacksmith fastened his "drawers" on the tooth and yanked it out! Often the victim howled with pain, but he considered that a small price to pay in order to be rid of toothache.

I have seen those oldtime "tooth drawers," as they were called; they were highly treasured by the local blacksmith or some other humane (?) man of the community. Once they got hold of a tooth, there was no letting go until the offending tooth was yanked out!

PEARL STRONG

## Pearl Strong for State Senator

An ex-coal miner, professional baseball player, Miner's Memorial Hospital employee, Magistrate and State Senator.

As an ex-magistrate he knows the problems that the county judges and magistrates have with the county roads, especially in Eastern Kentucky. As State Senator and ex-coal miner he knows the problems of the coal miner. He was one of the four legislators that the 1970 "Ky. Black Lung Bill" was named for. As an ex-professional baseball player he knows the needs for athletic programs for young people. He worked for and got an increase in teachers' and school administration salaries and got more money put in elementary and secondary school programs.

As you probably read in the paper in 1970, he proposed a severance tax in a special committee and asked the Governor to consider it in a special session of the General Assembly that was called. His proposal was 15 cents per ton, with the coal producing counties getting 60 per cent of the coal tax money back. He was also on a special hearing committee and he asked the question of how much coal had been mined out of Eastern Kentucky. The coal representative stated that 5 per cent had been mined according to the Bureau of Mines in Washington, D. C. That means there's at least 4 or 5 hundred years of coal mining left in Eastern Kentucky, so it looks good for future generations. Don't get discouraged, fellow Eastern Kentuckians, the future looks good for years to come, and Pearl Strong would like to help as your State Senator to keep Eastern Kentucky one of the most prosperous places in the U.S. to live in.

Elect Pearl Strong for a sober and fulltime Senator on May 27, 1975. The Democrat.

Dear Voter:

From the beginning of my campaign for the State Senate, I have informed you fully as to my background (native Floyd Countian, grandson of former Congressman Andrew Jackson May); my education (Bachelor's Degree, Washington & Lee University; Law Degree, University of Kentucky); legal experience (20 years practicing law); political experience (City Attorney, Prestonsburg; former State Senator, 1968-1972; and my family (wife, Ann; five children).

I have also discussed issues: Return of our coal money from the severance tax for use in our district is a number one priority; better schools and educational programs are a must; more jobs and roads comparable to those in Central and Western Kentucky are long overdue the people of Eastern Kentucky.

My past voting record is a public record of which I am proud: The Black Lung Bill for disabled miners; higher teachers' salaries; removal of the sales tax from medicine and drugs; and resolutions urging the re-construction of Ky. 80, U.S. 119, and U.S. 23 in Eastern Kentucky are just a few of the many important pieces of legislation I sponsored or supported.

When you go to the polls next week, I hope you will consider my qualifications to serve you in the next General Assembly. I believe my background and experience qualify me as the best candidate for State Senator for the people of the 29th District, and that is why I ask for your vote and support.

Sincerely,

*Clifford B. Latta*

## Here's How To Keep 'Em Down on the Farm

FRANKFORT, Ky.—Gov. Julian M. Carroll, seeking to fulfill the needs of both farmers and students, has set aside funds from his special grant from the federal Concentrated Employment and Training Act to prepare 600 Kentucky youths for summer work on Kentucky farms.

The Kentucky Council on Agriculture recently announced that farmers would be unable to produce maximum yields

this year because of inadequate farm labor.

Young people graduating from high school and those in college are concerned that the present economic situation will keep them out of summer employment.

The program is being provided through the Department for Human Resources, the Council on High Education and the Kentucky Development Cabinet. Any student wishing to participate is eligible. Students will receive a training allowance at the rate of \$2.10 per hour for the 40-hour per week program that will include both classroom and work experience training. Enrollees will also receive a subsistence allowance of \$35 per week and 10 cents per mile to the university and back home at the end of the program.

Veterans will be given preference. Applications at State Universities should be made with the Dean of Agriculture of the Department Chairmen. Applicants applying through Kentuckiana Metroversity should contact Dr. John Ford, 9001 Shelbyville Road, Louisville. Rural Manpower representatives from DHR will be at the University to assist in the application process and to secure a list of all enrollees.

Upon completing the two-week course, students will return to their home county for work placement. Their names will appear in the Manpower Services offices as potential applicants when they enroll at the universities. Rural Manpower Representatives will be matching students with potential employees during the two-week training program.

Participating schools, application deadlines and starting dates are as follows:

Eastern Kentucky University, application deadline May 22, starts May 27. Phone 606-222-2031.

Morehead State University, application deadline May 16, starts May 19. Phone 606-783-3350.

## Honored by Commission

Our Lady of the Way Hospital at Martin has been honored with a certificate of recognition by the Joint Commission on Accreditation of Hospitals (JCAH) during National Hospital Week. The certificate, signed by Dr. John D. Porterfield, director of the Joint Commission, reads:

"During this National Hospital Week, May 11 through May 17, 1975, the Joint Commission takes special pleasure in recognizing your continuing commitment to the quality of patient care through voluntary accreditation. We proudly salute you as one of nearly 800 accredited hospitals in the Nation who have chosen to strive to deliver the optimum in health service to the community."

Accreditation indicates that a facility has chosen to perform within professionally developed standards of the JCAH and that the facility has substantially complied with these standards. The standards, published as the Accreditation Manual for Hospitals, set forth optimal achievable goals of excellence against which a facility can measure itself and be measured in turn by the Joint Commission's survey.

### Carroll Names Pruitt To Development Cabinet

FRANKFORT, Ky.—Gov. Julian M. Carroll has appointed James P. Pruitt, Jr. as executive assistant for community regional relations in the Kentucky Development Cabinet.

Pruitt, a Pikeville native, will aid Development Secretary Dee Ashley Akers in coordinating the state's economic development activities with community needs and interests.

He will serve as the cabinet's direct liaison to local governments and regional planning agencies, Carroll said, and meet with local officials and civic leaders.

A 1974 graduate of the University of Louisville School of Law, Pruitt, 26, formerly worked as a local government advisor in the Office for Local Government and as a research assistant to the Pike County attorney.

"I'm confident that Jim will strengthen the lines of communication among state and local officials," the governor said, "and that throughout Kentucky he will encourage local initiative and innovation in community development."

Pruitt said that his number one goal is "to ensure that the voice of Kentucky's local leadership be heard as the cabinet's policy is formulated in the field of economic development."

His other responsibilities, he added, will be to outline to the communities specific opportunities of the state's development programs and to relay the availability of any federal or state development funds.

Pruitt received an undergraduate degree in economics from Morehead State University, where he served on the student government, the undergraduate curriculum committee and the Kentucky Young Democrats Executive Committee. He received an MSU pacesetter award and was listed in "Who's Who in American Colleges and Universities."

He did graduate work in economic development, public affairs and public speaking at the University of Kentucky.

Pruitt and his wife, the former Cynthia Jane Price, live in Frankfort.

### Gospel Sing, Sunday For the Handicapped

The United Parents for Handicapped Children will hold a gospel sing, Sunday 25, at Johnson Central High School featuring the following groups: Highland Areas, Eastern Gate Quartet, Betty Castle, all of Paintsville, and Gospel Sunlighters, of Prestonsburg. All proceeds will go to the Handicapped Children's Fund to be used toward the building of an educational and therapeutic center for the handicapped children of Martin, Johnson, Floyd, Magoffin, Pike, and Lawrence Counties.

A recent telthon helped raise \$14,000 for the planned center, but several thousand dollars are yet to be raised if the building is to become a reality.

### JIM ROBINSON For ATTORNEY GENERAL

(Pol. Adv. Pd. by Candidate)

## What Kind of Politics?

For the last three months I have been an announced candidate for the State Senate. Now, as the campaign nears its close, I have been informed by reliable sources that one of my opponents has prepared and intends to circulate a broadside based on my record from my previous term in the Senate.

My voting record has been public knowledge and public record since 1968. I have appeared before any group that wished to discuss it and ask me questions about it. It has been fully publicized.

If any candidate now wishes to make it an issue in the last week of this campaign—when I would have no chance to respond publicly in the newspapers—I can only assume that he intends to distort my record or take it out of context in some way to confuse the voters.

I am proud of my voting record. I voted for such bills as the black lung bill, increased teachers salaries, removing the sales tax from medicine and prescriptions, and a bill that would have required members of the General Assembly to disclose all their financial interests.

I received letters endorsing my voting record in the Senate from the Kentucky Rural Electric Cooperative Corp., the Kentucky Medical Association, Prestonsburg Community College, the Kentucky Farm Bureau, the State Council of Independent Colleges and Universities, and the Kentucky Department of Mental Health.

I have tried to conduct this campaign fairly and honestly. I believe the voters are tired of the type of politics that operates after dark or after the last issue of a weekly newspaper has gone to press.

I sincerely hope that you—the voter—will ask yourself "what kind of politics?" when you see misinformation or misleading issues that only surface in the last week of a campaign, and that you will not vote to elect the type of politician we have read too much about in the past two years on the national level.

### To the Teachers of Floyd County from Julius Martin

HAVING BEEN A FORMER TEACHER IN THE FLOYD COUNTY SCHOOL SYSTEM, I AM WELL QUALIFIED, IN THIS RESPECT, TO REALIZE AND UNDERSTAND THE PROBLEMS THAT CONFRONT ALL TEACHERS.

MY WIFE, ALSO A FORMER TEACHER IN FLOYD COUNTY, KNOWS OF THESE PROBLEMS AND CONDITIONS THAT EXIST IN OUR SCHOOLS.

IF ELECTED TO THE NEXT LEGISLATURE, I WILL PLEDGE MY SUPPORT TO THE TEACHERS IN THE STATE OF KENTUCKY AND FLOYD COUNTY TO SUPPORT THE FOLLOWING:

1. To increase teacher's salaries toward the national average.
2. I pledge to work for a higher level of support for elementary and secondary schools in Kentucky. I am not pleased that Kentucky ranks 49th nationally in this respect.
3. To support fringe benefits for teachers in the form of health insurance, hospital insurance, etc.
4. Funding of the 30 year retirement clause for all teachers regardless of age.
5. I favor the conversion from the classroom unit allotment to the weighted pupil formula. I will support adequate funding for this method of financing local schools. I believe this method of financing schools will bring more funds to the local district.
6. I am in favor of automatic yearly percentage increases for retired teachers to offset costs of living.

PLEASE VOTE FOR A FORMER TEACHER WHO TRULY UNDERSTANDS YOUR PROBLEMS AND WILL CHAMPION YOUR CAUSE.

Sincerely,  
*Julius Martin*

# You Have a Choice!

**James Russell Allen for Commonwealth's Attorney, or twelve television channels?**

James R. Allen is the County Attorney at this time and legal advisor to the Fiscal Court, which opposes Akers Cable System, Inc. from providing you with twelve television channels.

This country in which we live affords us the opportunity to dream and build, earn our daily bread and make our own decisions which we should seize and face life's challenges and think and act for ourselves, and make our own decisions.

We must not trade our freedom and freedom of choice for a few promises which are never kept. We are living in very disturbed times; civilization is hanging in the very balance. We need to have information of other states, countries and cities, which will help us make our decisions.

With twelve channels available, every man, woman and child in Floyd County could find these answers and many others on one of the twelve channels if they were not kept in the dark by men such as James R. Allen, who fears the well-informed public, because then they would know that he is attempting to keep us in iron shackles within a small area without the sunlight of our beloved freedom.

Why permit one man to make your decisions? You have a mind, you have a vote. I, therefore, believe it is my duty to my country and to the people of Floyd County to deliver the twelve channels to your homes, that you might receive the education, news, and entertainment which is rightfully yours. If you vote for James Russell Allen you are forfeiting your right to make your own decisions — he will do it for you for the next six years. Do you wish to receive only three channels? Stand up and fight for what you believe in, it is your God-given right — please use it! Why stop progress? We need it!

"A Candidate for the Welfare  
and Interest of Floyd County"

## To My Fellow Floyd Countians

Many of my friends and relatives have asked me why I did not seek the office of Commonwealth's Attorney again. There is a simple answer to that question. I had important criminal as well as civil cases pending on the docket and I did not feel that I could have conducted an active campaign and at the same time performed those obligations mentioned above.

The Hon. Burnis Martin states that there are thirteen unprosecuted murder cases pending on the docket. This statement is not true. One of the important cases on the criminal docket is the indictment of Eddie Jones, et al for the murder of the two Conley boys. Mr. Martin has been successful in the tactics of delay and the postponement of this trial. Mr. Martin has implied that I have not performed my duty. I have done my best in the investigation and prosecution of crimes. Three of the murder cases now pending on the docket were cases which took hours of my time and other law enforcement officials to obtain the evidence to get an indictment. I have made every effort to secure a trial of the persons charged with murder.

Mr. Martin in the past eleven years has defended many murder cases that I have prosecuted, and, if he is honest, he will admit that I have prosecuted people but I have never used my office to harass people because of politics or personal reasons. Let me remind the citizens of Mr. Martin's six years as Commonwealth's Attorney. I have made every effort to be fair and I have prosecuted persons who had been my friends.

Let the word go forth throughout this county that I have made an honest effort to do my job and I will continue that effort as long as I am the Commonwealth's Attorney. I intend to practice law, and the citizens of this county will be the judge and the jury in my case, and my future will depend upon their verdict.

Your Public Servant,  
**HAROLD STUMBO**

## GEORGE CLARKE for State Senator

If you want to elect a man that thinks he is the most qualified and has spent tremendous amounts of money trying to prove it, don't vote for me.

### BUT:

If you want to elect a man that is the most qualified to help East Kentucky, and has worked the past seven years proving it, vote for me, George Clarke, for State Senator.

Rode the wagon pulled by a team of mules from Hazard to Prestonsburg to protest East Kentucky roads and, when elected, will take the wagon and mules to Frankfort to haul the Coal Severance Tax money back to the mountains where it belongs.  
It's our Coal! It's our Coal Tax Money!

**Elect me, George Clark, and I guarantee you'll  
have a strong voice in Frankfort.**

### Never Alone

I will never leave these, nor forsake  
these.—Hebrews 13:5

I'm never alone in the morning  
As I rise at the break of day,  
For Jesus who watched through the  
darkness  
Says, "Lo, I am with you always."

I'm never alone at my table  
Though loved ones no longer I see;  
For dearer than all who have vanished  
Is Jesus who breaks bread with me.

I'm never alone through the daylight,  
Though nothing but trials I see.  
Though the furnace be seven times  
heated  
The "form of the fourth" walks with me.

I'm never alone at the twilight  
When darkness around me doth creep  
And specters press hard round my  
pillow.  
He watches and cares while I sleep.

I'm walking and talking with Jesus  
Each day as I travel along.  
I'm never alone. Hallelujah!  
The joy of the Lord is my song.

## ATTENTION VOTERS In ABBOTT & AUXIER PRECINCTS

## Lowell T. Hughes, Democrat For State Senator, 25th District

I am the son of Mr. and Mrs. Thurman Hughes, and the grandson of the late Millard Franklin and Josephine Wright Hughes. I was born and reared in Prestonsburg. I attended Prestonsburg Elementary School and graduated from Prestonsburg High School in 1954. I attended the University of Kentucky on a football and basketball scholarship, and received my law degree from the University of Kentucky Law School. I am now practicing law in Ashland.

I know that the present may not be the most popular time to enter politics, but now is not the time to look away from our system of elective representative government, service to the state, and particularly Eastern Kentucky. I feel that my background and experience should prove beneficial in serving in the Senate, and that my unique position of having been raised in one end of the district, having my law office in the other end of the district, practicing law in all of the counties in the district, and having family relationships in each of the counties in the district provided me with the opportunity to be personally aware of, and concerned with, the many problems within the district.

## Consumer Comments

Making funeral arrangements is a difficult task, made more difficult by the various plans, offers and services that are found today.

Basically there are five types of costs: 1) for the funeral director, his facilities and equipment; 2) for caskets and vaults; 3) for the cemetery or crematory; 4) for grave markers or urns for cremated remains; 5) for flowers, newspaper notices and burial clothing. But, let's face it—consumers in need of funeral services are not interested in comparative shopping and price haggling. Take along a friend or a member of the clergy (someone who is not as emotionally involved) when making funeral arrangements. You need someone who can ask the right questions and reassure the director that indeed you do "want the best for your loved one," only not at a high price.

A responsible funeral director will discuss prices and choices with you and,

once you have made your choices, provide you with an arrangement which lists the services and items to be provided and the price for each.

Prepaid funeral plans are often available, but the wise consumer will pay when billed or will place the money in trust until the services have been provided.

Ask to see the least expensive caskets. Coffins are available in hard or soft wood, steel, bronze or copper. There's quite a selection. But don't be persuaded to buy because of a long-term warranty; few consumers dig up caskets years later to see if they are still intact. Beware of claims of water tightness and other cleanliness gimmicks; they do not alter the fact that the human body does not last indefinitely.

The charge for a cemetery lot or mausoleum space may not include additional charges for opening and closing a grave or vault. Ask if there is an additional charge in purchasing a marker or monument, be sure it meets the cemetery regulations.

Finally, don't be persuaded to buy a particular set of services because it's a bargain or because everyone else has used it. Funeral arrangements mean your money and your rituals and should be held according to your convictions and your taste.

## Strip Mine Permits High After Slump

Frankfort, Ky.—Issuance of strip mine permits is back to the record-breaking level it reached before a slump began in February.

During April, the division of reclamation in the Kentucky Department for Natural Resources and Environmental Protection issued 157 permits to strip a total of 6,294 acres. That number of permits almost doubled the number issued during March. Then, 86 permits were issued to strip a total of 4,076 acres.

The slump began in February, when 107 permits were issued for 2,901 acres. Before that, issuance of permits had peaked at 161 permits for 6,004 acres. Why the slump began and ended is a matter of speculation. However, Ken Ratliff, assistant director of the division of reclamation, said it was probably caused by a combination of a drop in the price of coal, a shortage of coal haul cars, a large stockpile of coal built up by some utilities and the weather.

"Just estimating," said Ratliff, "I'd say an average price for a ton of coal in late 1974 had jumped to \$36 or \$40. Now, I've heard it's closer to between \$20 and \$30 a ton. When the price started slipping many companies—especially the small ones—put off applying for permits."

Another reason for the slump, said Ratliff, "was a shortage of railroad haul cars combined with large stockpiles of coal built up by some utilities. Now, more haul cars are available and the stockpiles have been whittled down."

Ratliff added that the season may account for some of the slump. Traditionally, fewer permits are issued during the rainy part of spring than during summer.

Ratliff said the present boom is slightly different from the one last fall. More out-of-state people are opening small mining operations now. Also, several highway construction companies have begun strip mining as a means of keeping their equipment working during the present slump in highway construction.

Designed to replace longer, heavier, more expensive luxury cars like Buick Electra Limited and Oldsmobile 98 Regency.

We think that if you'll not only compare the workmanship in this new automobile but also compare it for size, comfort and luxury, you'll find that you can get the things you want from a traditional luxury car, but sticker priced north of \$10,000. LTD Landau special features and appointments that make Landau so distinctive include: □ Hidden headlamps for distinctive styling □ Color-keyed vinyl body-side moldings □ Front cornering lamps □ Flight bench seat with center armrest □ Lush knit cloth and vinyl trim □ Vinyl roof □ Electric trunk lid release □ Right- and left-hand remote control mirrors □ Automatic seat back release (2-Door).

The main thing you don't get is hundreds of pounds of extra weight and almost a foot of extra length. The new Ford LTD Landau advantage is the security of a solid well-made automobile built with sensible size and weight.

### Catholic School P.T.A. Views Student Art

Parents and friends of the students of Our Lady of the Mountains School in Paintsville viewed a small exhibit of art work done at the school by the students. On display were rich prints pulled from unusual plates. There were also pictures, animals, birds done in cut construction paper, tempera paintings, mixed media works, weavings, a felt wall-hanging, line drawings and pinch, coil and free form ceramic pots.

Some delightful pictures done in the chiaroscuro manner were a direct result of several morning rides to school thru fog and mist. Most of the work done was the result of close observation of the student's own immediate environment. The art program was directed by Mrs. Dana Combs assisted by Mrs. Hermma Rivera.

## ORV's Fun for Drivers Not Nice to Nature

Owners of an estimated 7.5 million off-road vehicles—snowmobiles, trail motorcycles, dune buggies, mini-bikes, all-terrain vehicles and hovercraft—eagerly attest to the unique pleasures derived from their use. The "ORV's," as these recreational machines are known, enable their owners to "get back to nature."

But ironically, some ORV drivers are unwittingly—and others willfully—destroying the very thing they set out to enjoy: the natural world around them. When improperly used, ORVs can inflict irreparable damage on nature's ecosystem. They can destroy wildlife habitat, cause soil erosion, create noise and litter, disturb wildlife, and seriously disrupt other types of recreation.

Because of this growing problem, the National Wildlife Federation is pressing the Bureau of Land Management, custodian of 60 per cent of America's public land—or more than 20 per cent of the entire U.S. land mass—to adopt new regulations that will limit the use of ORVs on public property.

As the result of an NWF lawsuit, a federal judge ruled May 2 that the agency's current regulations regarding ORV use are in violation of the National Environmental Policy Act of 1969 and a 1972 Presidential Executive Order.

NWF Counsel Oliver A. Houck described the ruling as "one of the most significant environmental rulings in recent years."

The land affected by the court decision includes 452 million acres of tundra, deserts, grazing lands, designated wildlife areas, timber lands and mineral-rich properties. While the decision does not ban ORVs outright, it does require BLM to zone or specify areas and trails for ORV use on its land. BLM now must draw up regulations that will control ORV access to the vast public domain under its control.

The ruling is of particular significance to the western states and Alaska, where virtually all BLM land is located. For example, BLM controls 299.3 million acres or more than 81 per cent of the land in Alaska, 48.4 million acres or greater than 69 per cent of Nevada's land, and 22.7 million acres or more than 43 per cent of Utah's land.

NWF, the nation's largest conservation organization, undertook its legal action against BLM last August after trying unsuccessfully to persuade BLM and its parent agency, the Department of the Interior, to adopt regulations that would comply with the National Environmental Policy Act and a Presidential Executive Order issued by Richard Nixon in 1972.

In his order, Nixon called upon all federal agencies managing public land to establish zones in which ORVs could and could not be used. In response, BLM issued regulations in 1974 that said all public lands under its control "shall remain open to off-road vehicle use and area hereby designated as open use areas and trails."

At that time, NWF Executive Vice President Thomas L. Kimball argued that the BLM regulations "would turn over more land to motor vehicles than is

contained in all of the roads and highways in America" and termed the regulations "no regulations at all."

In contrast, the National Park Service and the U.S. Fish and Wildlife Service already had prohibited or placed strict controls on ORV use on the 60 million acres of public lands in their jurisdictions.

This month's court decision by Judge William B. Jones of the U.S. District Court for the District of Columbia rules that BLM had violated the National Environmental Policy Act by not considering alternatives for its non-restrictive regulations and not giving adequate consideration to the ORV's "damage to land resources, harassment of wildlife, and disruption of wildlife habitats."

Recent statistics show that motorcycles and snowmobiles are the most popular types of ORVs. There are an estimated 4.5 million motorcycles used off-road in the United States and another 2.6 million snowmobiles.

The President's Council on Environmental Quality recognized the ORV problem in its 1974 report by noting, "Despite the rapid growth in ORV sales and use, the percentage of the public using ORVs remains relatively small, but the damage they do is out of all proportion to their numbers."

"Both deliberately and inadvertently, ORV drivers have destroyed scientific areas, historical and archeological sites, and private property," the Council said. "Use of ORVs is most destructive in ecologically fragile areas, such as high alpine zones, steep slopes, coastal and sand dunes, and arid lands."

Other studies critical of ORV misuse assert that ORV recreation tends to be consumptive, since ORV drivers generally tire of the blighted environment created by their activities and seek new trails to blaze.

## The Race of the Trees

Portland, Ore.—The great tree race of 1975 has started for 700 tree farmers in Washington and Oregon. The race is a contest to coax the most growth from a Douglas fir tree by Oct. 31. The winner gets a chain saw, the runner-up a sack of organic fertilizer.

## TO THE VOTERS OF FLOYD COUNTY:

I come to you in The Floyd County Times during the closing days of this election to ask you, the voters of Floyd to elect my son, James "Jitter" Allen, as your next Representative.

I am the same Bill Allen who drove the Sparks Brothers bus and owned and drove the Allen Brothers Bus Company here in Floyd county for 35 years. I hauled most of you and your children on the bus. I was your friend then just as I am your friend now. I wish I could get out personally and campaign with you, but I have been disabled for five years.

My father, "Preacher" Alex Allen lived, worked and preached the word of God in our county all of his life. He was your friend and neighbor.

Please vote and elect my son, James "Jitter" Allen, Representative. He will work for you, the people, hard in Frankfort.

Your bus driver and friend.

## 'Away, Tuther Side of Yander'

By HELEN PRICE STACY

When people gather at Fort Boonesborough State Park near Richmond May 25 at 3 p.m. to commemorate the 200th anniversary of the first public worship in the Commonwealth, the service will also pay homage to all pioneers in religious efforts in Kentucky. Gov. Julian Carroll plans to place permanent highway markers at many sites throughout the state to honor these crusaders.

One of these persons was not a pioneer in the 1775 tradition, but she was a pioneer in establishing a school that brought both education and religious training to a then-remote section of the Kentucky mountains.

A marker in Breathitt county would have to honor Dr. Lela G. McConnell, who came from Pennsylvania. She graduated from Asbury College at Wilkes in 1924 and headed for a mountaintop, where she immediately began work to establish Mt. Carmel High School.

The trip to the mountaintop was a hard, tiresome one. Once, fellow workers who had traveled long hours to reach the site for a scheduled revival, stopped to ask a woman how much farther it was. She pointed into the distance and answered, "Away the tuther side of yander."

"For six generations past they had been passed by in the march of time by both the church and the state," commented Dr. McConnell in her book, "The Pauline Ministry."

She needed land on which to start her school (and church). The J. G. Lawson family donated 12 acres. Dr. F. H. Larabee named it Mt. Carmel and Mrs. Sam Nable gave land for a cemetery on a nearby knoll and lived to be 101 before she was buried on the grounds.

When money was needed, it was only a prayer away. The first donation was 50 cents earned by a local girl who picked up coal that had fallen from freight cars. The first building was dedicated in September, 1925.

The rooms were all filled when classwork began. One of the first disciplinary acts was to forbid students to attend a drinking-dancing party two miles away. Students at Mt. Carmel were not allowed to drink, dance or smoke.

They could go to the party, they were told, but if they went they could not return to Mt. Carmel. They didn't go.

When outsiders came around drinking and carrying guns, fully intending to "shoot up the place," those in charge simply prayed about it, and all was calm.

Dr. McConnell, an ordained minister in the Methodist Church, tells about her early years at Mt. Carmel and the trials that fell upon her and those who worked with her in founding Mt. Carmel and later the Kentucky Mountain Bible Institute located on a nearby mountain.

In debt once for \$25,000, Dr. McConnell wrote in the "Pauline" book that every time a note was due, the countryside and everyone in Jackson knew about it. "We were the talk of the country and everyone was watching us."

At these times no one went out asking for money or contributions, they got down and prayed about it. "One time we fasted and prayed for ten days." Money arrived at once to pay the indebtedness.

Prayer was a constant thing and so successful that an expression was coined that everyone "keep well prayed up."

This power was used to keep down fights, drinking, feuds and the like, as well as getting supplies for all their needs, including workers for the cause.

Prayer was used to get shoes, coats and equipment and even mention in wills. Sometimes only \$5 was needed to keep a worker from going hungry for a month.

Always the money came by direct mail or by person. When Dr. McConnell learned a cousin could not recover, she and the faculty went to pray that the cousin would leave the founder \$500 for a

necessary expense. The check arrived and was more than twice what had been prayed for. "I bought a dress for \$4," wrote Dr. McConnell, "and shoes for \$3 and gave the rest to the work for the Lord and felt powerfully blest."

The founder died in 1970 at age 85. Her faith had been rewarded, her work accomplished. Mt. Carmel was bringing education and spiritual needs to families in 14 counties, for as children were converted, they took the message into their homes.

Sad because she could not build more churches, she once lamented that "I have seen two churches in America that cost a million dollars each. This much money would build exactly 300 churches and 300 parsonages in the long-neglected parts of the Kentucky mountains."

Mt. Carmel is a grade A accredited high school at Lawson, Ky., and Martha Archer, who came to Mt. Carmel at about the same time as the founder and now is director at Kentucky Mountain Bible Institution, speaks proudly of the institute. "Morehead State University has never turned down a credit from us."

"Keeping well prayed up" has brought architects when needed, a coal mine when needed and even a gas well. The driller came from West Liberty to try to reach gas in an old well. After much labor and no gas, he explained that he was giving up. He was told to try one more time, that they would pray about it right there. The next time down, the drill struck the gas pocket.

When the governor's plan to mark these Kentucky shrines reaches Mt. Carmel, it will not be found "away the tuther side of yander," for Dr. McConnell and workers not only "have prayed up" a sturdy, new swinging bridge, but also a low-water bridge across the river and a road that can take visitors to "The Bluebird Trail" for a walk to the school or will take them all the way to the mountaintop.

Dr. McConnell's favorite scripture was in Joshua, where, even before coming to Mt. Carmel, she read, "The mountain shall be thine."

## Magoffin Grocery Loses Food Stamps

Atlanta, Ga.—A Magoffin county, Ky., food store has been barred from accepting food stamps for one year because of violations, the U.S. Department of Agriculture's Food and Nutrition Service reports.

USDA officials said that Johnny Conley's Grocery, of Burning Fork, has been disqualified for one year starting May 5. It had been charged with selling ineligible items for food coupons.

Robert L. Cunningham, in charge of the Prestonsburg field office of the Food and Nutrition Service, explained that the store will not be permitted to accept food coupons during the disqualification period.

## Governor Carroll Proclaims Industry Appreciation Week

Governor Julian M. Carroll has proclaimed the period May 19-24 as Industry Appreciation Week in Kentucky. The Governor's proclamation states that manufacturing industries provide 290,000 direct jobs for Kentuckians and \$2.5 billion in payrolls annually. It stresses the importance of industry to the state's overall economic growth.

Kentucky Department of Commerce figures reveal that 896 new manufacturing jobs were created in Floyd county from 1960 through 1974 by the location of eight new firms here. Total manufacturing employment in the county increased 126 per cent during those years.

The result for Floyd countians has been a gain of more than 89 per cent in per capita income since 1960 and an increase in total personal income from \$50.3 million in 1960 to more than \$88 million last year.

In addition, trade and service employment increased from 786 in 1963 to 2,360 in 1973.

The Governor is asking Kentuckians to join together to "Pay tribute to the industrial firms in the Commonwealth, to thank them for helping improve the state's economy, and to extend to them full cooperation."

### ROADS

I am aware that it sometimes takes years to get approval to build a road. As a Senator (and since that time) I made countless trips to Frankfort with delegations from this district to get approval on streets, roads, highways and bridges for this district. I was working for Ky. 80 in both the 1968 and 1970 legislatures, as were others in both the House and Senate. Now that engineering contracts have been awarded and work begun on this road, I believe your next Senator should be working for approval of the roads we will need for our future growth. This I will do.

### EDUCATION

In my last term, I was a member of the Senate Standing Committee on Education, and named Chairman of the Special Committee on Education. I am fully aware of the problems faced by our school systems, teachers and administrators. I also know that one Senator, working alone, cannot pass any bills or raise any salaries. It requires a majority of 28 senators and 100 representatives plus the cooperation of the Governor. I believe my past experience qualifies me to obtain the support needed to help bring our educational programs, budgets and salaries in line with the rest of the nation and I will work honestly toward that goal.

## An Open Letter To The People of Floyd County:

Although I have never before desired or sought political office, I am now seeking the Democratic nomination for State Representative of Floyd County, for never in my life have I seen so much to be done for our county through the legislature, with no one willing to do it.

Do you realize that although millions of dollars were taken from this county by the coal severance tax last year, only a pauper's share was returned?

Do you also realize that of the pauper's share returned, we are not allowed by law to spend any of this to build roads and bridges, educate our children, or even supply minimum fire and police protection for our homes?

To me, the greatest shame that has ever befallen the people of Eastern Kentucky is the allowance of the exploitation of the God-given wealth of our region without Floyd County sharing in enough of this wealth to even supply the most fundamental government services.

If you see fit to send me to the legislature, I will fight for all Floyd Countians welfare by seeking a RETURN OF 50 PCT. OF ALL THE SEVERANCE TAX collected from our county, free to be used:

1. For construction and maintenance of our county roads and bridges.
2. For construction, remodeling and maintenance of our children's schools.
3. To supplement our teachers salaries which are now totally inadequate.
4. To supply adequate police and fire protection to our citizens and their homes.

The foregoing are only a few of the things that may be accomplished by hardworking, earnest representation of Floyd County's interest, and this realization is what forces me to seek this office. I honestly feel that whom you decide to support in this race could prove to affect what type of county we have for years to come.

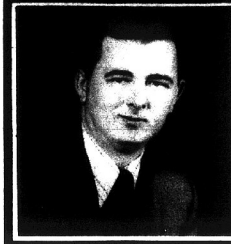

Please consider what I say, and give me your support and vote. I will take that support and vote with me to Frankfort and repay it daily with hard work and dedication to your best interest and welfare.

## Two Reclamation Hearings Held, Six Cases Continued

By MARVA GAY

Only two of the eight hearings at which coal mine operations were to show why they weren't violating state law were actually held in Frankfort last Thursday as scheduled.

Of the hearings, held by the state Department for Natural Resources and Environmental Protection, one was continued to May 20 and the others were continued to late June.

The two held involved S&H Coal Company, of London, and D.D. Owens Enterprises, Inc., of Pikeville.

The department contended that S&H, which has a deep mine license from the Kentucky Department for MINES AND Minerals, was unlawfully strip mining.

State reclamation officials testified that surface land had been significantly disturbed by the S&H operation and more than 1,000 tons of coal had been removed.

They also testified that shale overburden in the area made it unsuitable for deep mining.

Reclamation inspector Clinton Robbins said that the day before the hearing, S&H had applied for a strip mine permit and submitted a reclamation plan to his office.

The Department also contended D. D. Owens Enterprises, Inc. was strip mining without a permit and violating

state laws by creating a significant effect on surface land. State reclamation officials testified that 3,000 tons of coal had been removed from an area 646 by 25 feet. The department also contended the firm has a pattern of seeking a deep mine license for an area it intends to strip-mine. State officials also contended shale in the area would prevent economically feasible deep mining.

D. D. Owens Enterprises' attorney, Marris Allen May, contended the department could not take action against the firm because department regulations governing the surface effects of deep mines have not been adopted. Department attorney Joe Zelucki countered by saying the existing statutes were sufficient to require a plan of reclamation where there were significant surface effects of deep mining operations.

The hearing office will submit findings fact and recommendation to John S. Hoffman, secretary of the environmental protection department, as to S&H and Owens Enterprises.

## State Will Buy No Foreign Beef

FRANKFORT, Ky.—Gov. Julian Carroll is ordering that all state government purchases of beef shall hereafter specifically be of domestic beef.

The governor's order that beef purchases be American-bred beef comes at a time when beef prices have for a period of several months been in a decline that prohibits farmers from getting a fair return for their investment and labor.

Gov. Carroll feels that the beef cattle farmer's plight is so uniquely critical and deserving of attention and action that state government should step in and help in any way possible.

The governor's executive order points out that agriculture is the basic industry on which life depends and a mainstay of the Kentucky economy, and that beef cattle are a large part of the state's agricultural industry and because of it, the state has a vested interest in the success of the beef cattle farmer.

So, hereafter, all state purchase orders processed through and by the authority of the Executive Department for Finance and Administration shall specify domestic beef when beef is ordered.

## James Edward Gayheart Democrat For State Senator

JAMES EDWARD GAYHEART BELIEVES

**ROADS**—That a special state-local cooperative program should be initiated to assist in improving limited access roads in Eastern Kentucky. Everyone knows we need a rebuilt Route 90 but we have to be able to get to it from our homes. Our residents need to be able to use their roads the whole year round.

**COAL**—That special attention must be given to providing manpower training that meets the needs of the coal industry. Coal is our most valuable resource and we must work closely with labor and management to assure the health and stability of both the industry and its workers.

**ENVIRONMENT**—That state laws now on the books should be enforced. Kentucky has reclamation and pollution laws which, if enforced, would assure the protection of our environment. What is needed is not new laws but a resolve to enforce old ones.

**SEVERANCE TAX**—That state severance tax monies should be returned to the counties from which the coal was taken. Eastern Kentuckians should share in the benefits of the riches leaving our region.

**EDUCATION**—That the State must allocate additional monies for elementary and secondary education in Eastern Kentucky. Expenditures for the education of our children in Knott, Perry, Floyd and Martin counties should be just as much as in any other county in the state of Kentucky.

**ECONOMIC DEVELOPMENT**—That the long promised rebuilding of Route 90 must be begun. This road would link the Big Sandy Valley and the Kentucky River Area together and would do more than any other single thing to help the economy of our counties.

NO FALSE COMMITMENTS AND EMPTY SLOGANS.  
I CAN ONLY PROMISE YOU HARD WORK,  
HONESTY AND FAIRNESS. YOU NEED A FRIEND

### LAWN MOWER SAFETY

When you're cutting the grass with your power lawnmower, be sure children and pets are at least 200 feet from where you are working. That reminder comes from Extension agricultural engineers at the University of Kentucky College of Agriculture. Rotary mowers caused thousands of injuries last year, many of them severe and some of them fatal. And it's not just the person pushing the mower who can get hurt. Innocent bystanders are also in danger—the rotary blade can fling rocks, pieces of metal, and other projectiles quite a distance with great force.

## RED CLARK Supports BURNIS MARTIN For Commonwealth's Attorney

Because . . .

His opponent wants two (2) offices. He now holds the Office of County Attorney, elected by the people, and he has three years to go. Don, his brother-in-law, is the assistant county attorney, and Ann, his mother-in-law, has been the official secretary for the past two years.

They are all fine people and it is a nice little, cozy family affair, but "LET THEM ALL STAY WHERE THEY ARE"

### Producers Alerted To Disaster Pay

Producers in Floyd county are being alerted to the disaster payment provisions of the 1975 feed grain program administered by the Agricultural Stabilization and Conservation Service (ASCS).

Producers may become eligible for prevented planting and low yield payments. Prevented planting means that the farmer is unable to plant because a severe natural disaster, or other disaster condition beyond the farmers' control striking at planting time, prevented him from planting at anytime during the planting period. Low yield is when a disaster seriously affects the potential yield of a crop after planting.

If the producer is prevented by a disaster from planting an acreage of annual nonconserving crop at least equal to the sum of his wheat and feed grain allotments, he may qualify for a prevented planting payment.

Low yield payments apply only to program crops of corn and grain sorghum that have been planted, and a disaster totally destroys the crop or reduces the potential yield substantially below normal.

If a disaster prevents a farmer from planting his crop acreages or severely damages a planted program crop acreage after planting, he should immediately report it to the ASCS office. He should not plow under, graze, hay or otherwise destroy evidence of the crop damage until specifically advised by the county ASCS office that he may do so. Official determinations must be made on the extent of loss. If his loss is partial and he harvests some or all of the crop, he should be ready to furnish evidence of production.

More complete information on disaster payment provisions is available from the county ASCS office.

### Health Service Areas Proposed for State

FRANKFORT, Ky.—Gov. Julian M. Carroll Monday proposed the establishment of two health service areas for Kentucky, to comply with recent federal legislation.

These areas will become part of a new national system for planning and developing health services. One of the state's two medical schools is located in each district.

Federal acceptance of this plan to establish an eastern and western health service area in Kentucky is expected within the near future.

The requirement for states to map out health service areas grew out of Congressional desire to facilitate a national planning policy, to organize area-wide and statewide planning for health services, manpower and facilities and to provide financial assistance for development of health resources.

Primary responsibilities of health service areas include:

Preparing and implementing plans designed to improve the health of area residents; increasing the quality and accessibility of health service in the area; curtailing increases in the cost of providing health services; preventing unnecessary duplication of health resources.

While the federal legislation permits health service areas to cross state boundaries, the Kentucky proposal includes waivers asking that all of the Commonwealth be included in either the eastern or western region.

### MORE FEDERAL FUNDS GO TO STATE MUSEUM

INDIANAPOLIS—The Indiana State Museum will receive an additional \$15,000 in federal funds for its George Rogers Clark Bicentennial exhibit, Sen. Birch Bayh, D-Ind., announced Friday.

The \$15,000 grant from the National Endowment for the Humanities is in addition to the \$89,050 awarded earlier this year.

The exhibit, part of which will be transported around the state, is scheduled to be completed by early 1976.

## Use washers instead of energy

Little drips from your faucet mean big dollars down the drain and wasted energy used to heat unused water.

A simple little thing like replacing worn washers in a faucet can save hundreds of gallons of water. How important is it? Heating water is the third greatest energy user in your home. Your Co-op can provide other saving ideas.

Electricity is too good to waste!

## Blackcat Golfers End Season

Ending regular season play with its second win over Paintsville, 182 to 184, the preceding Thursday at Paintsville, and defeating the Pikeville golfers handling on Friday at Jenny Wiley, tragedy struck both Prestonsburg and Russell in the regional meet at Paintsville, May 12.

Prestonsburg, one of the pre-tournament favorites to go to the state meet, had more than its share of bad luck to end up in fifth place out of 25 teams entered in the regional meet. The two senior members of the team, Jim Bill Frasure and Phil Greene, ran into trouble on the front nine when each took double and triple bogies to give them 44 and 45, respectively. John McCauley, along with Bobby Meade, of Paintsville, had two of the only three 38's for the front nine out of a field of approximately 70 young golfers.

Heading into the back nine holes, Jim Bill Frasure shot more perfect golf except for the bad luck on No. 12 where he twice hit the water to take an 8 on the par 3 hole and deny him a two-way tie for second place and a sure spot in the state meet.

John McCauley, continuing to play excellent golf on the back nine, was still in contention for medalist honors as he trailed Bobby Meade by only two strokes through 15 holes of play. Tragedy struck McCauley on the final hole when he went out of bounds, and ended up with an 8 after he had just double-bogeyed No. 16, thereby burying his chances for a position in the state meet, along with removing him from runner-up in the regional meet.

Russell's No. 1 golfer and one of the best in the meet, shot himself out of contention on the front nine when he took an 8 and a 9 on two par-4 holes.

After shooting a 46 on the front nine, Phil Greene put together a 39 on the back side for a score of 84, which placed him in a four-way tie for the seventh and eighth spots for an individual position in the state meet. He, along with a member of the Russell team, won the playoff.

With both Russell and Prestonsburg having their top players in trouble, Pikeville was able to win the meet with a very ordinary 334, which was considerably higher than scores which had previously been posted by Prestonsburg, Russell, and Paintsville during the regular season. Most coaches agreed that a 325 would have been needed to win the meet if all top favorites could have avoided serious trouble on just a couple of holes for each of its key players.

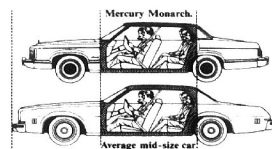

For the 1976 golf season, Prestonsburg will be looking to its three-year veteran John McCauley and letterman Glenn Franko around which to build a team, along with Eddie Ward, who is working hard to become one of next year's top golfers of the area. Total team strength for next year will depend upon recruiting additional players from the upcoming Freshman class.

As you know the time is rapidly approaching for the May Primary Election. To those of you whom I have failed to personally contact during my campaign I most humbly apologize; my failure was not intentional. The ever-increasing responsibilities of my office have made it extremely difficult for me to campaign extensively and yet continue to give you, the people, the same efficient, continuous service as in the past. Therefore, I have chosen to sacrifice and strive not only to continue this efficient, courteous service, but to improve it.

I am and will continue to be your dedicated public servant.

**HUNGARY CRITICIZED AT MASS FOR NOT CLEARING MINDSZENTY**  
VIENNA, Austria—Austrian Cardinal Franz Koenig criticized Hungary's Communist government at a requiem mass yesterday for the late Cardinal Jozsef Mindszenty for failing to clear the former Hungarian primate of criminal charges alleged during a show trial in 1949.

The archbishop of Vienna told a congregation that included many Hungarian exiles in St. Stephen's cathedral: "The world has taken much, very much from out of Mindszenty. For many years he was deprived of the freedom of holding his episcopal office, and many years he spent in prison."

## To The Voters of Floyd County:

It has been reported that there are 13 unprosecuted murder cases in Floyd County. In fact, there are 6 murder cases pending on the docket, three of which my opponent defends—two against Eddie Jones (Agnal's boy) who is charged for the murders of the two Conley boys on Right Beaver Creek.

My opponent knows very well that I do not, as County Attorney, prosecute murder cases. I am ready and able to prosecute all criminal cases brought before me when elected Commonwealth's Attorney.

## Agree on Joint Planning Group

The cities of Allen, Martin, Prestonsburg, Wayland and Wheelwright entered into an agreement with Floyd county last Wednesday to form a joint planning commission which, hopefully, will represent a concerted effort to solve problems of the county and the several communities.

An organizational meeting of the commission will be held the first week of June, and an attempt will be made at that time to establish priorities. The joint effort was first begun at a meeting here in April of mayors and county officials with Big Sandy Area Development District representatives.

Members of the commission, named at last Wednesday's meeting, are: Representing the county—Richard Fitzpatrick, James Reed, Hawley Scott, Emmett Lawson, C. J. McNally; Prestonsburg—H. D. Fitzpatrick, Jr. and Cloyd Johnson; Martin—Denzil Halbert; Wheelwright—Frank Childers; Allen—Bill Parsons; Wayland—Virgil Combs.

## Louisa Anglers Win Dewey Meet

The Dewey Lake Fish and Game Club's third annual bass tournament was held as scheduled on Dewey Lake, Sunday, despite the downpour of rain that prevailed during most of the day. Fishing conditions on the lake were possibly the worst they have been this spring.

Rain and muddy water, however, did not hinder the fishing of the winning team, Martin Webb and Warren Delong, of Louisa, who had a combined catch of 13 bass. The second place team was John Huffman and Johnny Huffman, of Crestonsburg. Largest bass of the day was caught by Martin Webb and was 19½ inches in length.

The winners used nightcrawlers in collecting their bass, it was said. Seven two-men teams entered the tourney.

## Past Work, Plans For Future Told

The Mental Health-Mental Retardation Association reviewed accomplishments of the past year at its regular monthly meeting at the Floyd County Library, May 12.

The list of accomplishments for the past year was noted by Floyd Davis, secretary. It was pointed out that more than \$1200 was contributed to the needs of persons with mental health and mental retardation problems in the county. These services were provided with money paid into the association for membership dues and contributions.

Included was the picnic for Floyd county patients and ex-patients from Eastern State Hospital and \$300 to provide hand tools for the Adult Activity and Day Treatment Centers at Maytown. The association voted to support the Children's Services summer program at Clark School which will emphasize further the academic training of children as well as cope with the special problem each child may be experiencing. Recreation and field trips will be provided.

Efforts are also being made to provide a week's camping experience for the children at the Boy Scout camp. The Kentucky state Jaycees will underwrite this part of the program for approximately 50 handicapped children from a nominating committee was appointed to present a list of nominees for the coming year.

The next meeting date is noon, June 9, at the Floyd County Library.

## Exhibit Features Langley Woman's Art

Mrs. Duna Verich Combs, of Langley, is pictured with one of several oil paintings which are currently on exhibit at the Floyd County Library, here. The exhibit, which will run through June 1, also consists of pencil drawings and work in water-color and Conte crayon. Mrs. Combs, who frequently uses her children as subjects for her work, is presenting the art display as one part of the culminated works done under the guidance of Joe Sartor, Morehead University instructor.

## State Environment Official Questioned at Meet Here

With Mayor John Chandler, of Paintsville, his main interrogator, Herman Regan, commissioner of Environmental Quality, was "on the stand" at May Lodge Monday evening, answering questions of particular meaning to Eastern Kentucky counties and towns. The discussion was a major part of the meeting of the Big Sandy Area Development Council. Regan was accompanied here by John Stanley Hoffman, and Billy S. Lewis, also of the Department of Natural Resources and Environmental Protection.

Although Lewis is commissioner of Land Resources within the department, and his job includes strip-mine reclamation, he spoke only briefly. In the exchange with questioners, mainly Chandler, Mr. Regan pointed out that: 1. Although the Congress has passed an act funding all facilities in a sewage system, the Environmental Protection Administration (EPA) has excluded collector sewers unless a health hazard exists.

2. For the first time, small communities have a chance of getting on the priority list. EPA recently decided it would allow Kentucky to keep three lists on priority with 70 per cent funding going to urban areas and the remaining 30 per cent divided between communities above or below 10,000 population.

## \$50,000 Fishing Tourney Set

Would you believe \$50 a pound for fish? No, it's not the latest price hike to plague the consumer, but just part of the prize money in a \$50,000 fishing tournament, May 28-30, at Kentucky's Lake Barkley State Resort Park.

The occasion is the Kentucky State Open sponsored by the American Bass Fisherman Association.

The tourney will open on Wednesday, May 28, with a banquet at Barkley Lodge. All contestants are required to attend for the registration and drawing of pairings for the first day's fishing.

Both Kentucky Lake and Lake Barkley will be open waters for the contestants. Angling starts at daybreak, May 28, and continues until 6 p.m. Competition on the 30th will be from daylight until 5 p.m., followed by an award banquet at Barkley Lodge to close the meet.

The competition will be intense as the tournament offers the most prize money ever awarded in a fishing tournament in Kentucky. Officials anticipate 200 entries, the contestants coming from as far away as California and Florida.

First prize for the heaviest string of 10 fish over 12 inches long will be \$10,000 plus a fully rigged boat with an 85 h.p. motor, trolling motor, depth finder and chart recorder. The fisherman catching the heaviest fish will receive \$50 a pound for his catch.

Practice will be allowed from May 24 to 28 but the lakes are off limits to contestants from May 14 to 23. The top ten finishers will be given detector tests. Lodge reservations at state parks can be made by calling the toll-free Central Reservations number: 803-9796 in Louisville, 202-4913 in Lexington, and 201-2643 in Covington-Cincinnati. Anywhere else in Kentucky the number is 1-800-372-2961, in surrounding states, it's 1-800-626-2911. From farther away, where toll-free service is not available, the number to call is 502-223-2326.

## Health Notes

By DONNA J. GRIFFITH  
Health Educator  
The Floyd County Health Department would like to remind all new parents that early immunizations protect the whole family as well as the child, and that being needlessly sick shouldn't be a part of growing up. The Department for Human Resources, Bureau for Health Services, recommends that children be fully immunized against diphtheria, tetanus, whooping cough, polio, measles and Rubella (or German Measles). These immunizations should be started early in life beginning at two months of age and should be completed by the time the child is two years old.

If your children haven't completed their series, or if you're not sure about this important record of health, please see your doctor or the Floyd County Health Department to be started early. Don't let your children run the risk of getting sick.

Also, the Floyd County Health Department will be closed Monday, May 26, in observance of Memorial Day. Regular business hours will resume Tuesday, May 27, at 8 a.m.

## RC&D Committees In Recent Meetings

Three committees of the Big Sandy Resource Conservation and Development (RC&D) Project have each held meetings during the past week to review progress and make recommendations to the RC&D Council and project sponsors on actions to take to implement the project plan.

The Forestry Committee is in the process of developing a work plan to conserve and develop the forest resource. More than a million acres of the project area is forested. The committee has representatives from each county in the project area. Fred G. Francis, Prestonsburg attorney, is chairman.

The Water Resource Committee reviewed project measures now being planned. Most of the measures now under way are water related, mainly local flood protection, and land drainage. The committee has representatives from all five counties in the project area. Sidney B. Garland, of Paintsville, is chairman.

The primary concern of the Land Use Committee, at present, is development of comprehensive land use plans, based on sound natural resource data, in each county and a composite plan for the project area. Martin county has recently formed a county planning commission and is expected to begin the planning process in the near future. The RC&D and Big Sandy Area Development District are cooperating in development of land use plans. The latter is providing funds for contracting with a consulting firm that will assist with planning. Leon Burchett, of Johnson county, is chairman of the committee which also has representatives from all counties in the project area.
